Soe The Scientific Secrets:

SOE Fredric Boyce, Douglas Hugh Everett, 2003 This book is unique and well documented account of how Winston Churchill's government used scientific and technical skills to support the heroic efforts of SOE agents world wide during World War II

SOE: The Scientific Secrets Fredric Boyce, 2011-11-08 The history of Special Operations Executive SOE seems to spring a never ending run of surprises and here are some more This book explores the mysterious world of the tools SOE used for their missions of subversion and sabotage An often grim reality is confronted that is more akin with the world of James Bond and Q's workshop than previously believed Written by two scientists one of whom served in the SOE and one who was tasked with clearing up after it was disbanded their insider knowledge presents a clear account of the way in which SOE's inventors worked From high explosive technology to chemical and biological devices from the techniques of air supply to incendiarism from camouflage to underwater warfare and from radio communications to weaponry SOE The Scientific Secrets is a revelation about the tools that allowed the murky world of spying and spies to operate during wartime

World War II Secret Operations Handbook Dr Stephen Hart, Chris Mann, 2018-11-13 The World War II Secret Operations Handbook reveals the skills and tricks used by the British SOE the US OSS the French Maquis and other special forces between 1939 and 1945 Learn how to rig up a makeshift radio how to pass undetected in enemy territory how to live off the land and make shelter and how to work as a sniper

The Secrets of Station 14 Des Turner, 2022-02-24 Briggens House near Harlow in Essex was one of the most important of the establishments requisitioned by the Special Operations Executive SOE during the Second World War Its mission was to accomplish Winston Churchill's directive to set Europe ablaze and initially the house was used as a finishing school for the Cichociemni elite Polish saboteurs to prepare to parachute into Nazi occupied Poland In need of false identity documents to avoid the arrest interrogation and execution of its agents SOE gradually built up a printing department on site and Station 14 became the organisation's False Document Section This is the true story of the house and its highly skilled wartime personnel including British officers Polish agents and the women of the First Aid Nursing Yeomanry For the resident staff it was a relatively safe posting but tension built as the Poles fighting their own battle for Polish independence competed for scarce resources in wartime Britain SOE historian Des Turner uses first hand accounts memoirs and official records to reveal long forgotten stories of tragedy humour and frustration giving long overdue credit to the men and women of Briggens House who were prevented by the Secrets Act from ever speaking about their wartime work

Station 12 Des Turner, 2011-09-30 The full story of Aston House in the Second World War has never been told before Its activities were top secret and as important to the Allied war effort as those of Bletchley Park but in a different way Situated near Stevenage Aston House was one of many British country houses requisitioned during the Second World War by the Special Operations Executive SOE Born out of Bletchley Park where it began life as SIS Section D for Destruction Station 12's scientific and military personnel invented made and supplied toys for the Commandos Special Boat

Service SAS and resistance groups Included in their deadly arsenal of weapons were plastic explosives limpet mines pressure switches tree spigots incendiary bombs incendiary liquids and arrows and a variety of time fuses They worked on the tools for famous operations such as the St Nazaire and Dieppe Raids and the assassination of Himmler's deputy in Prague Also revealed are the human stories of personnel stationed in this extremely remote village and the explosive pranks they played on each other and certain visitors which add some light relief to their destructive purpose **SOE's Ultimate Deception** Fredric Boyce, 2009-03-12 In the closing months of the Second World War General Eisenhower exhorted the Western Allied forces to redouble their efforts to break the German will to resist In considering this appeal General Gubbins whose Special Operations Executive was making a significant contribution to the liberation of occupied territory was faced with a fundamental difficulty in the case of Germany Although opposition to Nazism was present in some areas it was neither organised nor pro Allied Then someone had the idea of creating an entirely fictional German resistance movement and selling it to the Nazi security authorities From January until April 1945 SOE rained propaganda leaflets on the hapless population fleeing the ruins of their cities and the oncoming Allied ground forces they broadcast messages to the resistance they planted the most scandalous lies about eminent Nazis and at the end they even dropped four agents on fictitious missions This imaginative response to Ike's exhortation and the sheer audacity of the operation itself demand to be told to a wider audience

The Means to Kill Gerrit Dworok, Frank Jacob, 2015-12-03 Throughout human history technological innovation has functioned as a driver of civilization and inspired many people's belief in progress When it comes to warfare where technology is applied with a cruel and deadly logic a nuanced view is needed From siege engines to drones innovation has often served a less enlightened aim elimination of the enemy This collection of new essays from specialists in military history examines the interdependence between war and technology from a number of regional perspectives Ian Fleming and SOE's Operation POSTMASTER Brian Lett, 2012-09-19 The true story of the force of licensed to kill secret agents who became the basis for the James Bond spy series Brigadier Colin Gubbins was M The Special Operations Executive was his Secret Service Professor Dudley Newitt was Q Capt Gus March Phillips commanded Maid of Honor Force the team of James Bonds who in a daring operation sailed a ship to West Africa and stole three enemy ships from a neutral Spanish port on the volcanic island of Fernando Po Ian Fleming worked closely with M to oil the wheels that made the operation possible and prepared the cover story in which the British government lied in order to conceal British responsibility for the raid M's agents prepared the ground on Fernando Po even enmeshing the governor in a honey trap March Phillips and his team carried out the raid successfully in January 1942 despite much opposition from the local regular Army and Navy commanders and in the face of overwhelming odds Foreign Secretary Anthony Eden told Fleming's lies on the international stage denying any British complicity in the operation As a result a secrecy embargo enveloped Operation POSTMASTER until recently This gripping book proves beyond doubt that this thrilling operation and the men who carried it out were the inspiration for

Fleming's fictional 007 The Global Infrastructure of the Special Operations Executive Derwin Gregory, 2021-12-23 During the Second World War the British government established the Special Operations Executive SOE for the purpose of coordinating all action by way of subversion and sabotage against the enemy overseas Although the overseas operations of this branch of the British Secret Services are relatively well known few studies have explored the backroom sections of this organisation This book draws together the infrastructure developed to support an agent's journey from recruitment to despatch to the field At the start of the Second World War there were few existing facilities established within the UK to support clandestine operations As the conflict progressed in parallel to learning the operational procedures of their trade SOE also had to rapidly expand their support infrastructure around the world The organisation could effectively support their agents only by establishing facilities dedicated to training research and development supply transportation communication and command and control By predominately focusing on the organisation's agent facing infrastructure this book provides a backdrop to the brave men and women who conducted operations abroad In addition it gives an overview of the facilities in which SOE's backroom staff lived and worked The book will be of interest to students and scholars of archaeology history and war studies **The Spellmount Guide to London in the Second World War** James Beardon, 2013-11-04 During the lead up to and over the course of the Second World War London was a city transformed as it simultaneously became the front line and the command centre of Allied operations The scale and speed of the city's transformation has been unparalleled in London's history as the government requisitioned buildings and defences were built while bombing wrought devastation across the city changing it forever This book will guide the reader as a virtual tourist or a real one around war time London Buildings that had a specific war time use or have a link to an important event that occurred during the war are revealed along with the often secret activities known only to a select few at the time of the organisations who occupied them Buildings used as air raid shelters iconic buildings damaged by enemy bombing and how London itself changed is all brought to life Clear maps make this a user friendly guide for the London explorer and the fascinating background information will enthrall the virtual tourist Selfridges was still a shopper's paradise during the war but what did the emporium hide in the basement
