Solar System W Infotrac And Cd:

Light Years Away Sudhir Routray, 2004-12 *Light Years Away* covers the wonderful things of our universe and the possibilities beyond our visible range As the name suggests most of the subject matters of the book are of distant objects like our neighbouring stars star clusters nebulae galaxies galaxy clusters and superclusters In the final chapters the possibilities beyond the observable limit and beyond our universe have been looked at carefully But the facts of solar system and earth have not been ignored The whole view of the creation has been presented in a lucid format The basic questions that we encounter like where is the end boundary of the universe what can be the nature of the extra universal things is light the fastest why we are unable to explain the universe etc have been addressed in a scientific and logical but unsophisticated way Of course some back ground in the subjects like physics and astronomy can help in the better understanding into the matter But for any enthusiast of space and cosmos irrespective of the back ground and age *Light Years Away* will be a satisfactory text

The Solar System Michael A. Seeds, 2005 Mike Seeds goal in *THE SOLAR SYSTEM* Fourth Edition adapted from the newly revised *FOUNDATIONS OF ASTRONOMY* Eight Edition is to help students use astronomy to understand science and use science to understand what we are Fascinating and engaging this text illustrates the scientific method and guides students to these fundamental questions What are we and How do we know In discussing the interplay between evidence and hypothesis Seeds provides not just facts but a conceptual framework for understanding the logic of science The book vividly conveys his love of astronomy and illustrates how students can comprehend their place in the universe by grasping a small set of physical laws Crafting a story about astronomy Mike shows students how to ask questions to gradually puzzle out the beautiful secrets of the physical world Mathematics is incorporated into the text and in separate sections for easy reference but the book s arguments do not depend on mathematical reasoning keeping even math averse students engaged The revision addresses new developments in astrophysics and cosmology plus the latest discoveries from Mars buried water to the exploration of the Kuiper Belt This edition is now fully integrated with a FREE brand new student tutorial system AceAstronomy is Web based assessment driven and completely flexible creating a personalized learning plan to help each student focus on key concepts to be mastered This superior system gives students fun interactive learning opportunities and a greater chance for success
