Rethinking Modern Polish Identities Agnieszka Pasieka, Paweł Rodak, 2023 A critical examination of the category of Polishness that is the formation, redefinition and performance of various kinds of Polish identities from a wide range of disciplinary perspectives Inspired by new research in the humanities and social sciences as well as recent scholarship on national identities this volume offers a rigorous examination of the idea of Polishness Offering a diversity of case studies and methodological/theoretical approaches it demonstrates a profound connection between national and transnational processes and places the Polish case in a broader context This broader context stretches from a larger Eastern European one a usual frame of comparison to the overseas immigrant communities The authors renowned scholars from Europe and the United States thus demonstrate that an understanding of modern Polish identity means crossing not only historical but also geographical boundaries Consequently the narrative on Polish identity that unfolds in the volume is a personalized and multivocal one that presents the perspectives of a wide range of subjects peasants workers migrants ethnic and sexual minorities that is all those actors who have been absent in grand national narratives As such the examination of Polishness sheds light on the identity question more broadly emphasizing the interplay of pluralizing and homogenizing tendencies and fostering a reflection on national identity as encompassing both sameness and difference

Women's Voices and Feminism in Polish Cultural Memory Urszula

Chowaniec, Ursula Phillips, 2013-02-22 Every time a so called woman's voice appears in the media in connection with any sphere of creative activity it finds itself confronted by the almost formulaic expression feminism today instantaneously suggesting that feminism is in fact a matter of the past and that if we want to return to this phenomenon then we need to explain ourselves Women's Voices and Feminism in Polish Cultural Memory seeks to elaborate the problem of generalization expressed by such formulas as feminism today while analysing how feminist sympathies have shaped Polish literature film and language This volume does not want to impose any hegemonic understanding of feminism or imply any a priori ideological assumptions about women's nature or role in society It seeks to identify what is particular to the Polish feminist experience It starts by asking such questions as what is feminism today or what can we learn from the history of Polish women's writing In answering these questions the women scholars who have contributed to the volume examine Polish cultural history and memory in the context of the transformations transitions and catastrophes of the last two centuries whilst firmly rooting Polish experience within the common European heritage *Working on Rights* Anna Delius, 2023-11-20 This book is the first to connect global labor history and the history of human rights By focusing on democratic labor oppositions in Spain and Poland between 1960 and 1990 it shows how workers in authoritarian regimes addressed repression and whether they developed a language of rights in the light of a globally dynamic human rights discourse The study argues that the democratic labor oppositions in Spain and Poland were both variants of emancipatory and democracy oriented social movements with global interconnections that emerged in the 1960s It reveals that the demands for free and independent trade unions which in both countries became a flashpoint in the fight for broader democratic demands was not always discussed in rights terms but rather presented as an inevitable necessity At the same time these labor movements and their intellectual allies morally delegitimized state repression against workers and thereby employed the concepts of democracy participation solidarity progress and eventually rights Integrating the history of two European semi peripheric societies into a broader narrative this book is relevant for readers interested in global labor history human rights history and the history of democratization in Europe in the late twentieth century Ambiguous Transitions Jill Massino, 2019-07-30 Focusing on youth family work and consumption *Ambiguous Transitions* analyzes the interplay between gender and citizenship postwar Romania By juxtaposing official sources with oral histories and socialist policies with everyday practices Jill Massino illuminates the gendered dimensions of socialist modernization and its complex effects on women's roles relationships and identities Analyzing women as subjects and agents the book examines how they negotiated the challenges that arose as Romanian society modernized even as it clung to traditional ideas about gender Massino concludes by exploring the ambiguities of postsocialism highlighting how the legacies of the past have shaped politics and women's lived experiences since 1989 The Feminist Challenge to the Socialist State in Yugoslavia Zsófia Lóránd, 2018-09-27 This book tells the story of new Yugoslav feminism in the 1970s and 1980s reassessing the effects of state socialism on women's emancipation

through the lens of the feminist critique This volume explores the history of the ideas defining a social movement analysing the major debates and arguments this milieu engaged in from the perspective of the history of political thought intellectual history and cultural history Twenty five years after the end of the Cold War societies in and scholars of East Central Europe still struggle to sort out the effects of state socialism on gender relations in the region What could tell us more about the subject than the ideas set out by the only organised and explicitly feminist opposition in the region who as academics artists writers and activists criticised the regime and demanded change

Democracy Temma Kaplan, 2015 Focusing on local movements to achieve equal distribution of social economic and political rights and natural resources Democracy A World History examines how ordinary and extraordinary men and women of different cultural and religious backgrounds have formed and attempted to sustain institutions that would permit them to live together in equality and peace

Social Care under State Socialism (1945-1989) Sabine Hering, 2009-06-17 In the period of State Socialism in Eastern Europe 1945 1989 Social Welfare was exercised on two levels The dominant level was the system of governmental Social Policy because individual and private structures of social help were considered as a dispensable bourgeois tradition According to this perception social welfare should include an extensive system of support and social services although in reality special groups of asocials and parasites were excluded Although except for Yugoslavia social work as a profession was nearly totally eliminated modulated forms of social care had to be provided because people like handicapped elderly or mentally disabled still were in need There fore Social Care was realised on a subordinated level mostly allocated to proximate vocations or organisations like teachers nurses and mass organisations Experts from the respective countries explain what it was like Countries under scrutiny Bulgaria Czechoslovakia GDR Hungary Poland Romania Soviet Union Yugoslavia
