**The coming energy crash and its impact on the European Union (Egmont Paper 17)** , *Economic Influence: A Retrospective Examination* Pasquale De Marco, 2025-07-07

*Economic Influence: A Retrospective Examination* explores the nature of economic influence its history and its impact on the world today This comprehensive book delves into the ethical implications of economic influence as well as the challenges and opportunities it presents for the future The concept of economic influence is not new but its importance has grown exponentially in recent decades due to globalization Today economic influence is a major factor in international relations domestic politics and even individual lives Countries use their economic power to achieve their foreign policy goals corporations use their economic power to lobby for favorable policies and individuals use their economic power to make choices that affect their own lives and the lives of others The ethical implications of economic influence are complex On the one hand economic influence can be used to promote economic growth and development On the other hand it can also be used to exploit workers suppress dissent and exacerbate inequality The challenges and opportunities of economic influence are also complex Globalization has made it easier for countries and corporations to exert economic influence but it has also made it more difficult to regulate economic activity This has created a situation where economic influence is often used in ways that are harmful to society However there are also opportunities to use economic influence for good For example economic sanctions can be used to pressure countries to improve their human rights records and economic aid can be used to promote development in poor countries The future of economic influence is uncertain It is possible that globalization will continue to increase the power of corporations and countries and that this will lead to a more unequal world However it is also possible that the rise of new technologies will empower individuals and communities and that this will lead to a more just and equitable world

*Economic Influence: A Retrospective Examination* is an essential read for anyone who wants to understand the complex and ever changing world of economic influence This book provides a comprehensive overview of the topic from its historical origins to its present day implications It also explores the ethical challenges and opportunities of economic influence and provides insights into the future of economic power If you like this book write a review on google books

**China's Coming War with Asia** Jonathan Holslag, 2015-03-17 China's ambition is to rise peacefully Avoiding fierce conflicts with its Asian neighbors is essential to this goal Jonathan Holslag makes a brilliant case for the geopolitical dilemma facing the rising China and his argument that China

will likely enter into major conflict with Asia is compelling and thoughtful Both Chinese experts and decision makers will find this book illuminating reading Asia is set for another great power war As China's influence spreads beyond its territorial borders and its global aspirations gain momentum so tensions with its neighbors are reaching breaking point In this clear sighted book Jonathan Holslag debunks the myth of China's peaceful rise arguing instead that China's policy of shrewd intransigence towards other Asian countries will inevitably result in serious conflict China's ambitions are not malicious But what China wants namely to maximize its security and prosperity will lead to a huge power imbalance where China towers above her neighbors impels them into unequal partnerships and is increasingly able to seize disputed territory At present China's focused and uncompromising pursuit of its own interests is bearing fruit Many of China's neighbors are still too weak to counter Beijing's influence and China has ably exploited divisions between them to divide and rule But several regional powers are now joining forces to stop China With the PRC unlikely to back down and nationalism riding high China's coming war with Asia is already in the making

**The Coming Conflict with China** Richard Bernstein, Ross H. Munro, 1998-02-03

From two former Beijing bureau chiefs with long experience in Asian affairs comes a clear eyed and uncompromising look at the potentially disastrous collision course now taking shape in U S China relations Aggressively anti American China has nuclear weapons deliberately targeted at the United States Recent confrontations between Chinese and American military forces indicate that China may try to take Taiwan by force While our trade deficit rises to unprecedented heights the powerful new China lobby shapes U S policy with the support of American businesses eager for a share of its booming markets The Coming Conflict with China is required reading for those who wish to understand the tense global rivalry that is already shaping the course of the 21st century Plunges harpoons into the tenderest interstices of the Chinese American relationship New York Times Disturbing and provocative There is plenty to worry about Wall Street Journal *Proceedings of the United States Naval Institute* United States Naval Institute, 1925 *Pentagon's South Asia Defence and Strategic Year Book 2010* Col. Harjeet Singh (Retd), 2010 Pentagon's South Asia Defence and Strategic Yearbook is now in its fourth year of publication It covers relevant issues of defence and security military affairs and military technology written by experts and academicians themselves These issues are important for defence services foreign ministers and security experts spread among defence units strategic think tanks government organisations public sector units national and international technology manufacturers and diplomats and bureaucrats The book has been extremely well received and its circulation has grown tremendously in the last three years It has been regularly reviewed in the USI Journal and other reputed journals and magazines As The Book Review has commented In comparison to the other yearbooks this book stands out due to the well documented opinion pieces by the experienced people from the armed forces think tanks and academics It creates a space for dialogue on important topics
