## **The Leap Of Faith:**

*The Leap of Faith* David Y. Cho, Yong-gi Cho, 1984      Leap of Faith Leap Of Faith, 2009-08 This book is an exploration into what it means to have a soul Each illustration coincides with the poetry I give a verbal and visual representation of the human spirit and the ways I express my own It talks about current subjects that our culture is just discovering like the connection between science and the human soul Hopefully after reading it a person will feel inspired and reinvigorated with a sense of hope      **Leap of faith (Motion picture)** , 1992      **The Authenticity of Faith in Kierkegaard's Philosophy** Tamar Aylat-Yaguri, Jon Stewart, 2014-07-18 When he heard the voice that ordered him to sacrifice his son was Abraham deluded When is faith merely a form of self deception The existential challenge of attaining and preserving faith is as difficult today as ever before and perhaps even more so in a scientifically technologically oriented culture Faith can turn into inauthenticity as easily today as in Kierkegaard's era This book presents Kierkegaard's illuminating responses to the existentially haunting questions of faith and authenticity      *The Virtue of Faith and Other Essays in Philosophical Theology* Robert Merrihew Adams, 1987-04-30 Robert Merrihew Adams has been a leader in renewing philosophical respect for the idea that moral obligation may be founded on the commands of God This collection of Adams' essays two of which are previously unpublished draws from his extensive writings on philosophical theology that discuss metaphysical epistemological and ethical issues surrounding the concept of God whether God exists or not what God is or would be like and how we ought to relate ourselves to such a being Adams studies the relation between religion and ethics delving into an analysis of moral arguments for theistic belief In several essays he applies contemporary studies in the metaphysics of individuality possibility and necessity and counterfactual conditionals to issues surrounding the existence of God and problems of evil      **Kierkegaard and His Danish Contemporaries: Literature, drama, and aesthetics** Jon Bartley Stewart, 2009 The present volume features articles that employ source work research in order to explore the individual Danish sources of Kierkegaard's thought The volume is divided into three tomes in order to cover the different fields of influence Tome III is dedicated to the diverse Danish sources that fall under the rubrics Literature Drama and Aesthetics The Golden Age is known as the period when Danish prose first established itself in genres such as the novel moreover it was also an age when some of Denmark's most celebrated national poets flourished Accordingly this tome contains articles on Kierkegaard's use of the great Danish poets and prose writers whose works are frequently quoted and alluded to throughout his writings Kierkegaard regularly attended dramatic performances at Copenhagen's Royal Theater which was one of Europe's leading playhouses at the time In this tome his appreciation for the art of Denmark's best known actors and actresses is traced Finally this tome features articles on the leading literary critics and aesthetic theorists of the Golden Age who served as foils for Kierkegaard's own ideas      **Leaps of Faith** Robert J. Dean, 2017-02-14 If you are passionate about participating in the recovery of preaching for the spiritual formation of God's people then you will want to jump into this lively collection of

biblically rigorous culturally intuitive grace drenched sermons Robert Dean sets the bar very high even as he throws the gauntlet down with these remarkable expressions of all that preaching was supposed to be and can still become Animated by the conviction that the preached word is the playground of the Living Word the pages of Leaps of Faith are populated by saints and sinners pimps and prophets Unexpectedly and delightfully Bono works alongside Bonhoeffer Dr Phil learns a lesson from the Amish and a discussion of body odor primes the senses for contemplating the mission of God Rooted deeply in the lives of actual worshipping communities these wonder laden sermons from the prophetic imagination of an emerging pastor theologian dare the reader to leap into the continuing story of the Triune God and in doing so discover that all of life has been taken up in the Gospel of Jesus Christ *The End of Certainty and the Beginning of Faith* D. Brian Austin, 2000 Austin defines a vision for uniting the aims of science and Christian faith by examining the retreat from certainty that characterizes contemporary science and philosophy **Faith** Louis Jacobs, 2008-11-05 Jewish thinkers throughout the ages have been as passionate in their concern about the meaning and nature of faith as Christian theologians This is a lucid and profound examination of Jewish approaches to belief by a controversial and respected scholar who analyses the nature of God through a critical study of all vital philosophical sources We are shown the conflicts and how they are resolved between rational and traditional views on faith between instinctive acceptance and a more sophisticated polemical approach The views of mediaeval and modern theologians Christian and Jewish Kabbalists religious existentialists fundamentalists mystics are appraised and contrasted in the most open minded manner Of special interest perhaps is the understanding critique of the Freudian and Marxist opposition to belief in a deity On a more mundane level those seeming contradictions in the structure of existence which confound most men such as the problem of evil are analyzed in a way that is both practical and heartening Dr Jacobs has succeeded in demonstrating to readers of all faiths that particular nature of Judaism which is both universalistic and at the same time deeply concerned about the individual **Faith Walking with Jesus** Elmer Towns, 2023-05-02 Faith Walking With Jesus Well known and beloved author Elmer Towns answers these life empowering and spirit enriching questions What is walking by faith Who can walk by faith and how can it happen Can anyone walk by faith if they don't know what faith means Why do you need both faith and works What does it mean to take a leap of faith How can you grow your faith Faith walking is not faith running or faith standing it is walking by faith moment by moment daily How is that accomplished Each of the 7 chapters in Faith Walking With Jesus reveal truths gleaned from years exploring the Bible with the Holy Spirit living life with Jesus and sharing the blessings and experiences of co-founding of Liberty University with Jerry Falwell The author testifies of faith in God's promises Liberty University began with 154 students that first year Today Liberty University has 120 000 students and a financial budget of 1.2 billion a year Faith Walking With Jesus also presents 49 biblically sound devotionals written to encourage and instruct you how to faith walk Plus 7 comprehensive lessons not only help strengthen your exciting new or newly expanded walk of faith but provide ways to teach others this

lifestyle as well      **A Place of Faith** Jim Greene,2012-07 What or where is the place of faith Is it a physical location No it is where we are when we step out into the unknown in blind yet obedient faith because that is all that is we have left Our Christian vocabulary is filled with ideas quotes and even promises from God that are meant for our comfort and reassurance As real as God s Word is what happens when all has been recalled and rehearsed and we still find ourselves alone at the place of faith      *The Path of Souls* Pasquale De Marco,2025-07-09 In the vast expanse of human consciousness lies an enigma that has captivated hearts and minds for millennia the soul What is its essence Where does it come from And what is its ultimate destiny In this profound and thought provoking exploration we embark on a journey to unravel the mysteries of the soul delving into its origins its purpose and its final resting place Through the lens of ancient wisdom traditions modern psychology and cutting edge scientific research we will explore the diverse perspectives on the nature of the soul From the concept of reincarnation to the idea of a divine spark within each individual we will examine the beliefs and theories that attempt to explain the genesis of our souls Furthermore we will delve into the profound question of the soul s purpose Is there a grand design or a predetermined path that our souls are destined to follow Or is the purpose of the soul a personal quest a unique journey of self discovery and fulfillment We will explore these existential inquiries and seek to gain insights into the meaning and direction of our lives Our exploration will also encompass the enigma of the soul s final destination What happens to the soul after the physical body perishes Do we simply cease to exist or does the soul continue in some form We will investigate the various beliefs regarding the afterlife ranging from the concept of heaven and hell to the idea of reincarnation or a cosmic consciousness By examining these perspectives we hope to shed light on the mystery of what lies beyond the veil of mortality This book is an invitation to embark on an extraordinary voyage of self discovery and exploration As we delve into the mysteries of the soul we invite you to question your beliefs challenge your assumptions and open your mind to new possibilities Together we will seek to unravel the enigmas that surround our existence and gain a deeper appreciation for the precious gift of life With its blend of ancient wisdom modern insights and thought provoking questions this book is a must read for anyone seeking a deeper understanding of the soul and its profound significance in our lives If you like this book write a review      *Confessions of a Heretic* Eric Leland Saak,2024-07-16 This work is written for all those who have struggled with the concept of God with their faith in God and how God can be at all relevant in our world today Written in the context of a personal and family crisis which frames the work it is the first of a planned three volume systematic theology under the title Confessions of a Heretic It seeks to answer the question of how can one believe in God when horrible things happen from personal tragedy and trauma to natural disasters and war The answer is not a comforting one but one that asserts that the problem is with our conception of God to begin with We strive to make God conform to our will But that is the very definition of idolatry and the work argues that the established religious traditions including Christianity and especially Christianity in America are idolatrous based on idolatrous conceptions of God Yet to see how this

is so we have to delve into philosophical arguments regarding Being Time Reality and the very understanding of what a human being actually is whereby the argument proposes a radical reconceptualization of the Western philosophical tradition on these issues     *Awaken the Power of Faith* Sirshree,2020-04-25 This book throws light on how the power of faith can be awakened and harnessed to work wonders in our lives It explains how to practically apply the 7 Principles of Faith to help overcome hurtful feelings of betrayal or failure and move ahead with zeal and confidence It helps transform doubts and hesitation into trust and conviction     **Absurdism: A Note on the Philosophical School** Pons Malleus,2025-07-15 To exist is to be burdened with questions that resist answers From the earliest myths to the latest scientific models humanity has struggled to make sense of its place in an indifferent universe At the heart of this struggle lies a deep persistent tension between our desire for meaning and the silent vastness that greets our inquiries This tension is not merely existential it is absurd It is from this point of fracture that Absurdism a profound and unsettling philosophical current emerges Absurdism is not a formal system but a way of seeing born in the crucible of 20th century disillusionment Its roots can be traced through the existential undercurrents of S ren Kierkegaard the stoic resignations of ancient philosophers and the modernist literature of Kafka and Dostoevsky But it is in the work of Albert Camus writer thinker and reluctant philosopher that Absurdism comes into its own In his essay *The Myth of Sisyphus* Camus articulates the core dilemma the human yearning for clarity and unity confronts a world that offers neither The result is absurd not because life is inherently meaningless but because meaning itself seems inaccessible This book seeks to explore Absurdism not as a morbid curiosity but as a vital and enduring lens through which to view the human condition In doing so it considers the Absurd not as a nihilistic dead end but as a confrontation that demands a response What does one do in the face of the Absurd Camus insists we must rebel not by clinging to false hope or despairing into silence but by affirming life by living with defiance and without appeal In the pages that follow you will find a journey through the historical context that gave rise to Absurdist thought an examination of its key texts and figures and a critical look at its resonance in art literature and contemporary life Though Absurdism shares terrain with existentialism and nihilism it remains distinct in its ethical orientation and its insistence on lucidity It neither comforts nor condemns It challenges us to live without illusion a stance both liberating and exacting Absurdism is not a solution nor does it seek one Rather it offers a discipline of attention a kind of honesty and perhaps even a form of freedom To see clearly the tension between our longing and the world s silence is not to retreat but to continue forward with eyes open In a time when certainty often comes too cheaply and meaning is marketed in empty packages Absurdism asks us to consider a different path one of courage presence and revolt This book is intended for the curious reader who has sensed perhaps faintly or perhaps with urgency the disquieting gap between their questions and the answers they have been offered It does not promise solace but it does offer companionship for in wrestling with the Absurd we are not alone And in naming it we begin to understand how to live with it Welcome to the Absurd     **Kierkegaard and the Crisis of Faith** George

Pattison,2013-11-07 The standing of the Danish philosopher and religious thinker S ren Kierkegaard has gone up in recent years Yet because he regarded communication as being as much about self concealment as about self revelation he can still seem a forbidding and difficult figure The deliberate ambiguity of Kierkegaard in which he set out to repel as much as to attract his readers is here explored by George Pattison who gives full attention to the scandalous element of the philosopher s work and does not shy away from his ambivalent attitudes towards sexuality the body marriage and the family This book is unlike other nontechnical introductions to Kierkegaard in that it does not seek to promote one part of Kierkegaard s writings over others but offers rather a perspective on his life and output as a whole That Kierkegaard grappled in his own age with many of the problems which beset our own and frequently offered fascinating responses to those problems is a major incentive to examine his thought today By placing Kierkegaard in the context of a crisis of faith and making valuable connections between events in the philosopher s life and the development of his thinking the author of this timely readable and attractively written study has produced a book which should be of interest to a wide nonspecialist readership Why Science and Faith Belong Together Malcolm A. Jeeves,2021-02-25 As we try to understand ourselves and the world we live in all too often we look first to science and then if gaps remain in our understanding we try to fill the gaps with reference to God and our faith Such a god of the gaps approach has a long history and is sadly alive and well today This book was written to provide an alternative approach posing this basic question How can educated Christians maintain their intellectual honesty and at the same time be faithful both to Scripture and to science This book provides examples of some of the liveliest science vs faith issues today and suggests ways to think constructively about each of them **The Freedom to Choose Life** Scott W. Gustafson,2024-05-28 In *The Brothers Karamazov* Fyodor Dostoevsky proposes ministry as the way to resist and overcome the world s evil He employs two plotlines to do so The action plot concerns the events surrounding the murder of Fyodor Karamazov All evidence points to Dmitri Karamazov Rational circumstantial evidence convicts him yet the reader knows he is innocent The ministry plot occurs in this dark context where small acts of love are performed by The Elder Zosima Alyosha Karamazov and many others These acts of love all answer this unspoken question What can be said and done in Jesus name that opens the future to new possibilities in contexts heretofore deemed closed and without hope Asking and answering this question is the essence of ministry and since the question can be asked in any context ministry is possible anywhere Dostoevsky s unabashed antisemitism however undermines his brilliant analysis The concluding chapters document how unconfessed sins like antisemitism exert a death dealing power that undermines our cultures our communities and our ministries *The Freedom to Choose Life* shows how ministry resists and overcomes evil by these small acts of love and by the global effects of repenting of humanity s unconfessed sins **The Philosophy of George Santayana** Dilip kumar Roy,2025-03-19 This book discusses the quintessential aspects of George Santayana s wide and comprehensive philosophy Its critical and comparative discussions centre round the problems of Epistemology Metaphysics Aesthetics Ethics and Religion

This makes it all the more interesting What is noteworthy about this book is that it shows how naturalism serves as a basis of the idealistic philosophy of George Santayana Moreover the illustrious part of this treatise is that essence as discovered by Santayana by the doubting process serves as the keynote of his whole philosophy The exposition of Santayana s philosophy on the basis of the above two points is an outstanding feature of the present work What is captivating about this book is that it shows how the natural gets reconciled with the ideal by making the former the ground of the latter     *The Cambridge Companion to Kierkegaard* Alastair Hannay, Gordon Daniel Marino, 1998 Accessible guide to Kierkegaard available serving as a reference to students and non specialists
