never fades out How can we burn inside and never lose the passion There is only one way It s not what you might expect It s not a new revelation It s as old as the Bible but we have simply overlooked it You ll find it on a lowly hill where the blood of God spilled down upon this earth

Understanding Metaphor through Corpora Katie Patterson,2018-05-11 This book introduces a unique methodology to the study of metaphor integrating a corpus linguistic approach to explore the lexical grammatical semantic and pragmatic characteristics of metaphoric instances of language The volume questions the reliability of attempts to identify metaphor based on dichotomy and drawing on data from a corpus of nineteenth century writing instead advocates for the notion that metaphoricity is context dependent and fluid in relation to the respective social and discourse contexts in which metaphors can be found The book also applies Lexical Priming Theory to metaphoric language to suggest that our use of metaphor is due to unconscious behaviors a counterpoint to perspectives that see metaphor use as part of the creative process Taken as a whole the volume calls for a deeper investigation of the complex web of meaning senses that contributes to our understanding of metaphor making this key reading for students and researchers in corpus linguistics metaphor studies lexicography semantics and pragmatics
