Charlemagne in Medieval England Phillipa Hardman,Marianne Ailes,2017 The first full length examination of the medieval Charlemagne tradition in the literature and culture of medieval England from the Chanson de Roland to Caxton The Matter of France the legendary history of Charlemagne had a central but now largely unrecognised place in the multilingual culture of medieval England From the early claim in the Chanson de Roland that Charlemagne held England as his personal

domain to the later proliferation of Middle English romances of Charlemagne the materials are woven into the insular political and cultural imagination However unlike the wide range of continental French romances the insular tradition concentrates on stories of a few heroic characters Roland Fierabras Otinel Why did writers and audiences in England turn again and again to these narratives rewriting and reinterpreting them for more than two hundred years This book offers the first full length in depth study of the tradition as manifested in literature and culture It investigates the currency and impact of the Matter of France with equal attention to English and French language texts setting each individual manuscript or early printed text in its contemporary cultural and political context The narratives are revealed to be extraordinarily adaptable using the iconic opposition between Carolingian and Saracen heroes to reflect concerns with national politics religious identity the future of Christendom chivalry and ethics and monarchy and treason PHILLIPA HARDMAN is Reader in Medieval English Literature retired at the University of Reading MARIANNE AILES is Senior Lecturer in French at the University of Bristol

The GERMAN HERO: POLITICS & PRAGMATISM Brian Murdoch, 1996-01-01 In *The Germanic Hero* Brian Murdoch looks at the role the warrior hero plays within a set of predetermined political and social constraints the hero is not a sword wielding barbarian bent only upon establishing his own fame such fame seekers including some famous medieval literary figures might even fall outside the definition of the Germanic hero the real value of whose deeds are given meaning only within the political construct Individual prowess is not enough The hero must conquer the blows of fate because he is committed to the conquest of chaos and over all to the need for social stability Brian Murdoch discusses works in Old English Old and Middle High German Old Norse Latin and Old French deliberately going beyond what is normally thought of as heroic poetry to include the German so called minstrel epic and a work by a writer who is normally classified as a late medieval chivalric poet Konrad von Wurzburg the comparison of which with Beowulf allows us to span half a millennium

Reconstructing the Middle Ages Carolina Armenteros, 2009-05-27 *Reconstructing the Middle Ages* looks at nineteenth century medievalism in France using as a case study Gaston Paris philologist literary critic and professor of medieval studies Gaston Paris's method traditionally seen as a combination of romanticism and positivism exemplifies several elements of nineteenth century medievalism in the Parisian academia in late nineteenth century France The text investigates Gaston Paris's theories about three medieval literary genres epic fabliaux and Arthurian tales to understand how Paris's view of medieval literature and history cross related with nationalism at a time when France was particularly vulnerable and at which French academics were especially eager to make a long lasting contribution Examining the work of Gaston Paris and his interaction with other scholars in the Parisian milieu *Reconstructing the Middle Ages* offers a look at academic medievalism and the history philology linguistics and literary and textual criticism in late nineteenth century France In particular the book shows that when it comes to the self image of France medievalism was a topic that reached far beyond the walls of academia as it was related to national pride memory and identity

Mythology in the Middle Ages Christopher R. Fee, 2011-01-20 Placing heroes from a wide range of medieval traditions
shoulder to shoulder this title provides the opportunity to examine what is common across medieval mythic legendary and
folkloric traditions as well as what seems unique Myths of gods legends of battles and folktales of magic abound in the heroic
narratives of the Middle Ages Mythology in the Middle Ages Heroic Tales of Monsters Magic and Might describes how
Medieval heroes were developed from a variety of source materials Early pagan gods become euhemerized through a
Christian lens and an older epic heroic sensibility was exchanged for a Christian typological and figural representation of
saints Most startlingly the faces of Christian martyrs were refracted through a heroic lens in the battles between Christian
standard bearers and their opponents who were at times explicitly described in demonic terms The book treats readers to a
fantastic adventure as author Christopher R Fee guides them on the trail of some of the greatest heroes of medieval
literature Discussing the meanings of medieval mythology legend and folklore through a wide variety of fantastic episodes
themes and motifs the journey takes readers across centuries and through the mythic legendary and folkloric imaginations of
different peoples Coverage ranges from the Atlantic and Baltic coasts of Europe south into the Holy Roman Empire west
through the Iberian peninsula and into North Africa From there it is east to Byzantium Russia and even the far reaches of
Persia
