Power and Politics at the Colonial Seaside Shuk-Wah Poon, 2022-09-02 A study of the complex role of the seaside as a leisure space in colonial Hong Kong British sports were in many respects more meaningful in the empire than literature music art or religion They served as an instrument of cultural association and later of cultural change promoting imperial union and then postimperial goodwill Poon analyses the ways in which British colonists and Chinese leaders backed by the rhetoric of public health and nationalism respectively transformed the Hong Kong seaside into a leisure space She argues that the growing popularity of seaside resorts and sea bathing as a preferred form of leisure activity across the social and ethnic spectrums served an important role in shaping the racial relationship between Westerners and the Chinese population as well as the Chinese people's perception of the female body and the seaside during the colonial period The popularity of British leisure forms in colonial Hong Kong does not necessarily mean the triumph of Britishness This book will be of great interest to historians with an interest in leisure and in Empire and Colonialism as well as historians of Colonial Hong Kong and Modern China

Chu,2005-10-06 This collection of essays describes adaptations of minority ethnic groups to cross cultural situations in Hong Kong from the 1840s through the 1950s It aims to portray Hong Kong history through the perspectives of foreign communities the British Germans Americans Indians and Japanese and to understand how they perceived the economic situation political administration and culture of the colony Bedside Manner Robin Hutcheon,1999 In Hong Kong the responsibility for building and operating hospitals used to be shared by the Government of Hong Kong and a number of charities including religious orders some with traditions dating back to the earliest times Unfortunately this dual system of government and subvented hospitals was not integrated leading to problems of coordination and management and resulting in gaps and duplication in services inefficient and ineffective use of resources as well as low staff morale The problems persisted against a background of significant population growth rising community expectations and technological advancement Fundamental and radical solutions were needed Overseas experts were invited by the Hong Kong Government to study the situation in the mid 1980s Finally the Government adopted their proposal and set up an autonomous body the Hospital Authority to tackle this crucial problem The development of this local health care system since the 1980s the setting up of the Hospital Authority and its work in the past few years form the subject of this book Joining the Global Public Rudolf G. Wagner,2012-02-01 Joining the Global Public examines early Chinese language newspapers and analyzes their impact on China s modernization Exploring a range of media such as regular dailies illustrated weeklies and entertainment papers contributors look at factors that influenced the nature of these publications including foreign models foreign managers and a first generation of Chinese journalists editorialists and newspainters With analyses demonstrating how the growth of popular media would enable China to join the global public contributors also examine the impact of inserting an alien medium a newspaper into a Chinese universe and note the spread of new attitudes and values as entertainment papers filled the space of a newly created urban leisure A superb and pioneering documentation of late nineteenth and early twentieth century Chinese language media Joining the Global Public serves as an introduction to this important yet little studied part of China s modernization **Hong Kong Invaded! Gillian Bickley, 2001-04-01 No It is not what you think The year is 1897 not 1997 This is a fictional account of Hong Kong being invaded by the combined forces of France and Russia This visionary novel by an anonymous author has been forgotten for a hundred years Yet when published as *The Back Door* during the negotiations between Imperial China and Great Britain over the lease of the New Territories the story aroused serious British fears about the possibility of defending Hong Kong against attack Copies were then to be found on the desks of British officials in London Matthew Nathan who became Governor in 1904 was advised to read the book But it was not only in 1897 that the book was accurate in its observations on military tactics There are many intriguing parallels with the Christmas 1941 invasion by the Japanese and the role of the Hong Kong Volunteers at that time Three strategically vulnerable locations identified in *The Back Door* were considered for attack in 1941 Had the Japanese read this fictional battle when plotting their manoeuvres If so *The Back Door* not only taught one way to defend Hong Kong but also another to attack it *Stepping Forth into the World* Edward J. Rhoads, 2011-02-01 The Chinese Educational Mission was one of the earliest efforts at educational modernization in China As part of the Self Strengthening Movement the Qing government sent 120 students to New England to live and study for a decade before they were abruptly summoned home to China in 1881 This book based upon extensive research in local archives and newspapers focuses on the experiences of the students during their nine year stay in the United States Historians of modern China will find this book highly relevant because of its detailed account of one of the major projects of the Self Strengthening Movement To date there are at most two credible studies in English and Chinese on the Chinese Educational Mission both are deficient in source citation and tend to dwell on the students experiences after their return to China rather than during their stay in America This volume will also appeal to specialists in Asian American studies for its comparing and contrasting the experiences of the Chinese students with those of other Chinese in the United States during a period of rising anti Chinese sentiment which culminated in the enactment of Chinese Exclusion in 1882 This book offers a slightly different perspective than most other works on the nature of the anti Chinese movement which may have been more class based rather than race based The compare and contrast of students from China with those from Japan which also sent large numbers of students to New England at roughly the same period of time will be of interest to East Asian comparative historians as well Edward J M Rhoads is a professor emeritus in history at the University of Texas at Austin He is the author of *China's Republican Revolution The Case of Kwangtung 1895 1913* and *Manchus and Han Ethnic Relations and Political Power in Late Qing and Early Republican China 1861 1928* Rhoads has meticulously constructed the individual and collective histories of the 120 young men and boys sent by a beleaguered late Qing government to live and acquire English and Western knowledge in white New England families schools and universities As the vanguard of legions of Chinese students who have studied in the U S since and as contemporaries of the far more numerous Chinese coolies whose paths they never crossed this compelling study adds a surprising new chapter to early Asian American history Evelyn Hu DeHart Professor of

History and Ethnic Studies Director Center for the Study of Race and Ethnicity in America Brown University **130 Years of Medicine in Hong Kong** Frank Ching, 2018-03-14 This book reviews the medical history of Hong Kong beginning with its birth as a British colony It introduces the origins of Hong Kong s medical education which began in 1887 when the London Missionary Society set up the Hong Kong College of Medicine for Chinese When the University of Hong Kong was established in 1911 the College became its medical faculty The faculty has gained distinction over the years for innovative surgical techniques for discovering the SARS virus and for its contribution to advances in medical and health sciences This book is meant for general readers as well as medical practitioners It is a work for anyone interested in Hong Kong or in medical education *Healing Bodies, Saving Souls* ,2016-08-01 Missionary medicine flourished during the period of high European imperialism from the late 1800s to the 1960s Although the figure of mission doctor exemplified by David Livingstone and Albert Schweitzer exercised a powerful influence on the Western imagination during the nineteenth and early twentieth centuries few historians have examined the history of this important aspect of the missionary movement This collection of articles on Asia and Africa uses the extensive archives that exist on medical missions to both enrich and challenge existing histories of the clinic in colonial territories whether of the dispensary the hospital the maternity home or leprosy asylum Some of the major themes addressed within include the attitude of different Christian denominations towards medical mission work their differing theories and practices how the missionaries were drawn into contentious local politics and their attitude towards supernatural cures Leprosy often a feature of such work is explored as well as the ways in which local people perceived disease healing and the missionaries themselves Also discussed is the important contribution of women towards mission medical work *Healing Bodies Saving Souls* will be of interest not only to students and historians but also the wider reader as it aims to define the place of missionary within the overall history of medicine
