Hardie, 2002-02-07 Ovid s poetry is haunted obsessively by a sense both of the living fullness of the texts and of the emptiness of these insubstantial pageants This major study touches on the whole of Ovid s output from the Amores to the exile poetry and is an overarching treatment of illusionism and the textual conjuring of presence in the corpus Modern critical and theoretical approaches accompanied by close readings of individual passages examine the topic from the points of view of poetics and rhetoric aesthetics the psychology of desire philosophy religion and politics There are also case studies of the reception of Ovid s poetics of illusion in Renaissance and modern literature and art The book will interest students and scholars of Latin and later European literatures All foreign languages are accompanied by translations      *Imagining Arab Womanhood* A. Nina L?bbren,2017-07-05 Before Modernism narrative painting was one of the most acclaimed and challenging modes of picture making in Western art yet by the early twentieth century storytelling had all but disappeared from ambitious art France was a key player in both the dramatic rise and the controversial demise of narrative art This is the first book to analyse French painting in relation to narrative from Poussin in the early seventeenth to Gauguin in the late nineteenth century Thirteen original essays shed light on key moments and aspects of narrative and French painting through the study of artists such as Nicolas Poussin Charles Le Brun Jacques Louis David Paul Delaroche Gustave Moreau and Paul Gauguin Using a range of theoretical perspectives the authors study key issues such as temporality theatricality word and image relations the narrative function of inanimate objects the role played by viewers and the ways in which visual narrative has been bound up with history painting The book offers a fresh look at familiar material as well as studying some little known works of art and reveals the centrality and complexity of narrative in French painting over the course of three centuries

*Art and the Academy in the Nineteenth Century* Rafael Cardoso Denis,Colin Trodd,2000 Throughout the nineteenth century academies functioned as the main venues for the teaching promotion and display of art Contemporary scholars have for the most part denigrated academic art calling it formulaic unoriginal and repetitious The contributors to *Art and the Academy in the Nineteenth Century* challenge this entrenched notion and consider how academies worldwide have represented an important system of artistic preservation and transmission Their essays eschew easy binaries that have reigned in academia for more than half a century and that simply oppose the avant garde to academicism      Jean-Léon Gérôme Gerald M. Ackermann,1997 Jean Leon G r me has become a popular artist Progressively more young people are showing interest in his work and collectors worldwide are hunting down pieces of ever increasing value Lost works are appearing on the market and galleries are showcasing all they own This volume is a condensed presentation of his monographs together with a catalogue raisonné It comprises a complete overview of G r me s life and long career
