The Life And Works Of Arcimboldo:

The Life and Works of Arcimboldo Diana Craig, 1996 **Arcimboldo** Thomas DaCosta Kaufmann, 2009 In Giuseppe Arcimboldo's most famous paintings grapes, fish, and even the beaks of birds form human hair. A pear stands in for a man's chin. Citrus fruits sprout from a tree trunk that doubles as a neck. All sorts of natural phenomena come together on canvas and panel to assemble the strange heads and faces that constitute one of Renaissance art's most striking oeuvres. The first major study in a generation of the artist behind these remarkable paintings, Arcimboldo tells the singular story of their creation. Drawing on his thirty-five year engagement with the artist, Thomas DaCosta Kaufmann begins with an overview of Arcimboldo's life and work, exploring the artist's early years in sixteenth-century Lombardy, his grounding in Leonardesque traditions, and his tenure as a Habsburg court portraitist in Vienna and Prague. Arcimboldo then trains its focus on the celebrated composite heads, approaching them as visual jokes with serious underpinnings: images that poetically display pictorial wit while conveying an allegorical message. In addition to probing the humanistic literary and philosophical dimensions of these pieces, Kaufmann explains that they embody their creator's continuous engagement with nature, painting, and natural history. He reveals in fact that Arcimboldo painted many more nature studies than scholars have realized, a finding that significantly deepens current interpretations of the composite heads. Demonstrating the previously overlooked importance of these works to natural history and still life painting, Arcimboldo finally restores the artist's fantastic visual jokes to their rightful place in the history of both science and art.

The Oxford Handbook of the History of the Book in Early Modern England Adam Smyth, 2023-09-05 The Oxford Handbook of the History of the Book in Early Modern England provides a rich, imaginative, and also accessible guide to the latest research in one of the most exciting areas of early modern studies. Written by scholars working at the cutting edge of the subject from the UK and North America, the volume considers the production, reception, circulation, consumption, destruction, loss, modification, recycling, and conservation of books from different disciplinary perspectives. Each chapter discusses in a lively manner the nature and role of the book in early modern England, as well as offering critical insights on how we talk about the history of the book. On finishing the Handbook, the reader will not only know much more about the early modern book but will also have a strong sense of how and why the book as an object has been studied and the scope for the development of the field.

The Artificial and the Natural Bernadette Bensaude-Vincent, William R. Newman, 2007 These essays, written by specialists of different periods and various disciplines, reveal that the division between nature and art has been continually challenged and reassessed in Western thought. Nature and art, the essays suggest, are mutually constructed, defining and redefining themselves.

Renaissance and Reformation, 1500-1620 Jo Carney, 2000-10-30 Covering the period comprising the Renaissance and Reformation, this volume introduces a unique set of interdisciplinary biographical dictionaries providing basic information on the people who have contributed significantly to the culture of Western civilization. Unlike general dictionaries which focus on political and military figures, this

book covers such figures as the religious leaders who contributed to the Reformation scientists who paved the way for a new view of the universe and Renaissance painters sculptors and architects as well as writers musicians and scholars While the great personalities are included Michelangelo Shakespeare Galileo the volume covers lesser known figures as well the Muslim scholar Leo Africanus the Flemish geographer astronomer Gemma Frisius the English travel writer Thomas Coryate Although many of the subjects also had political influence the entries are written to highlight their individual cultural achievement An exciting tumultuous and chaotic age the years from 1500 to 1620 saw increasing discontent with Catholicism and the beginning of Protestantism with Luther's 95 theses great strides in the development of the printing press and a resulting increase in literacy the humanist movement with its emphasis on the arts of antiquity a proliferation of literature and art inspired by but moving beyond classical forms and conflict between the triumph of Renaissance culture and the theologians of the Protestant Reformation The resulting cultural production was astounding This volume covers those who contributed to the fields of art and architecture music philosophy religion political and social thought science mathematics literature history and education With over 350 entries written by 72 scholars the book provides a good basic resource on an exciting age

Caravaggio Sybille Ebert-Schifferer, 2012-06-05 The young Michelangelo Merisi da Caravaggio 1571-1610 created a major stir in late sixteenth century Rome with the groundbreaking naturalism and highly charged emotionalism of his paintings One might think given the vast number of books that have been written about him that everything that could possibly be said about the artist has been said However the author of this book argues it is important to take a fresh look at the often repeated and widely accepted narratives about the

artist's life and work Sybille Ebert Schifferer subjects the available sources to a critical reevaluation uncovering evidence that the efforts of Caravaggio's contemporaries to disparage his character and his artwork often sprang from their own cultural biases or a desire to promote the artistic achievements of his rivals Contrary to repeated claims in the literature the painter lacked neither education nor piety but was an extremely accomplished technician who developed a successful marketing strategy He enjoyed great respect and earned high fees from his prestigious clients while he also inspired a large circle of imitators Even his brushes with the law conformed to the behavioral norms of the aristocratic Romans he sought to emulate The beautiful reproductions of Caravaggio's paintings in this volume make clear why he captivated the imagination of his contemporaries a reaction that echoes today in the ongoing popularity of his work and the fierce debate that it continues to provoke among art historians **Library Journal** ,1978 **Rudolf II** Thomas DaCosta Kaufmann,2025-03-17 A reinterpretation of the Habsburgian ruler's reign as exemplary rather than reclusive Rudolf II offers a fresh perspective on the Habsburg ruler shedding new light on a reign often colored by myths of madness Thomas DaCosta Kaufmann argues that contrary to popular belief Rudolf was not a passive recluse but an engaged monarch navigating the complexities of state affairs with a moderate hand amid turbulent times By contextualizing Rudolf's interests in astrology alchemy and magic this book offers new insights into the emperor's support for scientific endeavors and his quest for power Kaufmann also demonstrates that Rudolf's assembling of the greatest Kunstkammer and painting collection of his time and his patronage of artists were essential elements of Renaissance rulership Arboreal Symbolism in European Art, 1300-1800 Katherine T. Brown,2024-07-30 Arboreal Symbolism in European Art 1300 1800 probes the significance of trees in religious iconography of Western art Based in the disciplines of art history botany and theology this study focuses on selected works of art in which tree forms embody and reflect Christian themes Through this triple lens Brown examines trees that early modern artists rendered as sacred symbols symbols with origins in the Old Testament New Testament Greek and Roman cultures and early medieval legends Tree components and wood depicted in works of art can serve as evidence for early modern artists' embrace of biblical metaphor classical sources and devotional connotations The author considers how artists rendered seasonal change in Christian narratives to emphasize themes of spiritual transformation Brown argues that many artists and their patrons drew parallels between the life cycle of a tree and events in the Gospels with their respective annual liturgical celebrations This book will interest scholars in art history religion humanities and interdisciplinary studies **Encyclopedia of Artists: Andrea-Cimabue** William Vaughan,2000 A comprehensive profusely illustrated guide to the world of art for young adults this six volume set is a fact packed introduction to the masters and concepts of Western art Featuring painters sculptors and printmakers from the Middle Ages through the present the series has been produced through the exacting efforts of leading art historians and written in vivid engrossing style that will be easily accessible to teenage readers The first five books in the set contain biographical entries on 222 artists in the familiar A Z format Each double page entry follows a

consistent pattern Its centerpiece is a brief essay focusing on the distinguishing characteristics of the artist s life and work The essay is supplemented with a quick reference biography sidebar and a feature box on the artist s style Each profile is illustrated in color with up to two color reproductions of the works that best define the artist s style and contributions to the art of the time Cross references to other artists and movements follow each entry Every volume features a timeline spanning the major movements of Western art The final volume collects entries on the major schools and movements in art from Abstraction through Barbizon school and dada to Vorticism as well as a series index and a glossary with suggestions for further reading Equally conducive to both serious research and browsing this elegant set offers consistent visual treatment of the artists and multiple points of comparison Young adult art aficionados will discover that an attractive page design coupled with lucid energetic writing and exquisite scholarship hold the key to discovering the greatest talents in history and their artistic legacy

Arthur Jeffress Gill Hedley,2020-04-02 Arthur Jeffress was an art dealer and collector from a Virginian family who bequeathed his subversive little collection Derek Hill to Tate and Southampton City Art Gallery on his suicide in 1961 That suicide a result of his expulsion from Venice has been the subject of speculation in many memoirs Gill Hedley s biography of Jeffress has benefited from access to many hundreds of unpublished letters written between Jeffress and Robert Melville who ran Jeffress own gallery from 1955 1961 The letters were written largely while Jeffress was in Venice and reveal a vivid picture of the London gallery world as well as frank details of artists collectors and the definitive story of his suicide Previously unpublished research reveals new information about the lives of Jeffress lover John Deakin his business partner Erica Brausen the French photographer Andr Ostier and Henry Clifford and the way in which all of them influenced Jeffress first steps as a collector from the 1930s onwards
