Followers of the early New Age movement known as New Thought which was wildly popular at the turn of the 20th century were intensely interested in gleaning the fruit of all of humanity's spiritual wisdom. Here in this curious volume originally published in 1909 one of the most influential New Thought writers and editors introduces Western readers to Eastern thought on what exactly is on the other side of the river of death. From the geography of the astral plane to the soul slumber that occurs after death from communication with spirits to what lies beyond reincarnation this is a fascinating look at the pop spirituality of a century ago.

American writer WILLIAM WALKER ATKINSON 1862-1932 aka Theron Q. Dumont was born in Baltimore and had built up a successful law practice in Pennsylvania before professional burnout led him to the religious New Thought movement. He served as editor of the popular magazine New Thought from 1901 to 1905 and as editor of the journal Advanced Thought from 1916 to 1919. He authored dozens of New Thought books including *Arcane Formula or Mental Alchemy* and *Vril or Vital Magnetism* under numerous pseudonyms, some of which are likely still unknown today.

The Life Beyond Death Yogi Ramacharaka, 1911. From the geography of the astral plane to the soul slumber that occurs after death, this book explores the subjects of death and afterlife.

Life Beyond Death David Fontana, 2016-07-19. A psychologist seeks to answer your burning questions about what happens after death from afterlife communication and human consciousness to out of body and near death experiences. Most people in the world believe in some form of life after death but what exactly is the nature of the afterlife? David Fontana examines all the extensive evidential material that has been accumulated over time including communication through mediums and accounts from those who had near death and out of body experiences and compares them to descriptions found in such mystical texts as *The Tibetan Book of the Dead* and *The Egyptian Book of the Dead*. He explores the whole area of human consciousness and considers the question if the body and the brain perish at death what remains to survive. From the various ideas of paradise to the very meaning of existence this is a journey through infinite possibilities.
