*Decolonising Counselling and Psychotherapy* Dwight Turner, 2025-03-04 Decolonisation is a term which has become a modern day buzzword as we look to understand the influences of the systemic structures of oppression which have molded all of our identities yet in the worlds of counselling and psychotherapy there has been a struggle to understand what this term means in regard to our profession *Decolonising Counselling and Psychotherapy* considers the ways in which the systems of colonization have taken over and are continually reconstituted within our profession This book challenges our profession by offering practical ways in which we might diversify our practices proffering varying perspectives about how to create pathways for greater inclusion in training courses and examines the many opportunities to explore and expand the ways in which we undertake research Most importantly it will encourage the therapist to look at the internalised experiences of colonisation on themselves The book shows that working creatively with techniques common to counselling and psychotherapy could lead the profession to not only broaden out what it knows and understands of human nature but through a process of decolonisation assist in meeting the needs of a wider range of clients This book will be invaluable to counsellors psychotherapists and psychologists working in the helping professions and to those whose activism drives them to want to make our helping professions more inclusive and equitable
