The Juan Pardo Expeditions Charles Hudson, 2005-07-24 Provides English translations of selected passages from the expedition accounts of sixteenth century explorer Juan Pardo in the Carolinas and Tennessee and includes interpretations of Pardo's routes and encounters with native peoples

The Juan Pardo Expeditions Charles M. Hudson, 1990 [Earthfast, the Dawn of a New World](#) Richard Thornton, 2014-05-17 Earthfast is the culmination of a lifetime of architectural practice and seven years of concentrated research. The journey began when archeologists at the American Museum of Natural History asked Richard to prepare architectural drawings of the Mission Santa Catalina de Guale on St. Catherine's Island, GA. One discovery led to another. A big black hole in American history was filled by reading dozens of obscure 16th and 17th century books plus visiting many archaeological sites. Being Creek Indian, Richard was able to discern evidence from passages on Native Americans that were missed by earlier scholars. This is the first book to comprehensively examine the architecture and planning practices of the early French, Spanish, and English colonies. It is unique. Richard Thornton is a professional Architect, City Planner with degrees from Georgia Tech and Georgia State University. He is the national Architecture columnist for the Examiner and appeared on the premier of the History Channel's America Unearthed.

[The Encyclopedia of North American Colonial Conflicts to 1775](#) Spencer C. Tucker, James R. Arnold, Roberta Wiener, 2008-08-13 The only multivolume encyclopedia covering all aspects of North American colonial warfare with special attention paid to the social, political, cultural, and economic affairs that were affected by the conflicts. Encyclopedia of North American Colonial Conflicts to 1775: A Political, Social, and Military History is the first multivolume resource on the full range of combat and confrontation in the New World prior to the American Revolution, not just rivalries between European empires but Indian conflicts, slave rebellions, and popular uprisings as well. Organized A-Z, the encyclopedia covers all major wars and conflicts in North America from the late 15th to mid 18th centuries with discussions of key battles, diplomatic efforts, military technologies, and strategies and tactics. Encyclopedia of North American Colonial Conflicts to 1775 explores the context for conflict with essays on competing colonial powers, every major Native American tribe, all important political and military leaders, and a range of social and cultural issues. The insights and information contained here will help anyone understand the genesis of North American culture, the plight of Native Americans after European contact, and the beginnings of the United States of America.

Fort San Juan and the Limits of Empire Robin A. Beck, Christopher B. Rodning, David G. Moore, 2016-01-26 Built in 1566 by Spanish conquistador Juan Pardo, Fort San Juan is the earliest known European settlement in the interior United States. Located at the Berry site in western North Carolina, the fort and its associated domestic compound stood near the Native American town of Joara, whose residents sacked the fort and burned the compound after only eighteen months. Drawing on archaeological evidence from architectural, floral, and faunal remains, as well as newly discovered accounts of Pardo's expeditions, this volume explores the deterioration in Native American-Spanish relations that sparked Joara's revolt and offers

critical insight into the nature of early colonial interactions *The Encyclopedia of North American Colonial Conflicts to 1775: A-K*, 2008 Covers all major wars and conflicts in North America from the late 15th to mid 18th centuries with discussions of key battles diplomatic efforts military technologies and strategies and tactics E xplores the context for conflict with essays on competing colonial powers every major Native American tribe all important political and military leaders and a range of social and cultural issues Publisher s Web site Chiefdoms, Collapse, and Coalescence in the Early American South Robin Beck, 2013-06-24 This book provides a new conceptual framework for understanding how the Indian nations of the early American South emerged from the ruins of a precolonial Mississippian world A broad regional synthesis that ranges over much of the Eastern Woodlands its focus is on the Indians of the Carolina Piedmont the Catawbas and their neighbors from 1400 to 1725 Using an eventful approach to social change Robin Beck argues that the collapse of the Mississippian world was fundamentally a transformation of political economy from one built on maize to one of guns slaves and hides The story takes us from first encounters through the rise of the Indian slave trade and the scourge of disease to the wars that shook the American South in the early 1700s Yet the book s focus remains on the Catawbas drawing on their experiences in a violent unstable landscape to develop a comparative perspective on structural continuity and change *The History of North America: The Indians of North America in historic times*, by C. Thomas, in conference with W.J. McGee Guy Carleton Lee, Francis Newton Thorpe, 1903 Slavery and the Evolution of Cherokee Society, 1540-1866 Theda Perdue, 1979 Slavery was practiced in North America long before Europeans arrived on these shores bringing their own version of this peculiar institution Unlike the European institution however Native American slavery was a function of warfare among tribes replenishment of population lost through intertribal conflict or disease and establishment and preservation of tribal standards of behavior Theda Perdue here traces the history of slavery among the Cherokee as it evolved from 1540 to 1866 During the colonial period Cherokees actively began to capture members of other tribes and were themselves captured and sold to Whites as chattels for the Caribbean slave trade Also during this period enslaved African people were introduced among the Cherokee and when intertribal warfare ended the use of forced labor to increase agricultural and other production emerged within Cherokee society Well aware that the institution of Black slavery was only one of many important changes that gradually broke down the traditional Cherokee culture after 1540 Professor Perdue integrates her concern with slavery into the total picture of cultural transformation resulting from the clash between European and Amerindian societies She has made good use of previous anthropological and sociological studies and presents an excellent summary of the relevant historical materials ever attempting to see cultural crises from the perspective of the Cherokees The first overall account of the effect of slavery upon the Cherokees Perdue s acute analysis and readable narrative provide the reader with a new angle of vision on the changing nature of Cherokee culture under the impact of increasing contact with Europeans
