The Past Before Us Romila Thapar, 2013-10-14 The claim that India uniquely among civilizations lacks historical writing distracts us from a more pertinent question how to recognize the historical sense of societies whose past is recorded in ways very different from European conventions Romila Thapar a distinguished scholar of ancient India guides us through a panoramic survey of the historical traditions of North India revealing a deep and sophisticated consciousness of history embedded in the diverse body of classical Indian literature The history recorded in such texts as the Ramayana and the Mahabharata is less concerned with authenticating persons and events than with presenting a picture of traditions striving to retain legitimacy amid social change Spanning an epoch from 1000 BCE to 1400 CE Thapar delineates three strains of historical writing an Itihasa Purana tradition of Brahman authors a tradition composed mainly by Buddhist and Jaina monks and scholars and a popular bardic tradition The Vedic corpus the epics the Buddhist canon and monastic chronicles inscriptional evidence regional accounts and literary forms such as royal biographies and drama are all scrutinized afresh not as sources to be mined for factual data but as genres that disclose how Indians of ancient times represented their own past to themselves

Bolton and the Historiography of the Americas Russell Magnaghi,1998-08-20 The comparative approach to the understanding of history is increasingly popular today This study

details the evolution of comparative history by examining the career of a pioneer in this area Herbert E Bolton who popularized the notion that hemispheric history should be considered from pole to pole Bolton traced the study of the history of the Americas back to 16th century European accounts of efforts to bring civilization to the New World and he argued that only within this larger context could the histories of individual nations be understood After American entry into the Spanish American War in 1898 historians such as Bolton promoted the idea of comparative history and it remains to this day a significant historiographical approach Consideration of the history of the Americas as a whole dates back to 16th century European treatises on the New World Chapter one of this study provides an overview of pre Bolton formulations of such history In chapter two one sees the forces that shaped Bolton s thinking and brought about the development of the concept Chapters three and four focus upon the evolution of the approach through Bolton s history course at the University of California at Berkeley and the reception of the concept among Bolton s contemporaries Unfortunately Bolton never fully developed the theoretical side of his argument thus chapter five chronicles the decline of his ideas after his death The final chapter reveals the survival of the concept which is now embraced by a new generation of historians who are largely unfamiliar with Bolton s instrumental role in the promotion of comparative history
