The Penguin Complete Rivals Of Sherlock Holmes:

The Penguin Complete Rivals of Sherlock Holmes, 1983 **The Alternative Sherlock Holmes** Peter Ridgway Watt, Joseph Green, 2017-03-02 Between 1887 and 1927 Sir Arthur Conan Doyle wrote sixty Sherlock Holmes stories and his great Canon has become the most praised most studied and best known chapter in the history of detective fiction Over twenty thousand publications pertaining to the Sherlock Holmes phenomenon are known to have been published most of them historical and critical studies In addition however almost since the first stories appeared such was their uniqueness and extraordinary attraction that other authors began writing stories based on or derived from them A new genre had appeared pastiches parodies burlesques and stories that attempted to copy or rival the great detective himself As the field widened there was hardly a year in the twentieth century in which new short stories or novels did not appear Many hundreds are now known to have been published some of them written by authors well known for their work in other literary fields The non canonical Sherlock Holmes literature not only constitutes a literary field of considerable historical interest but includes many stories that are both enjoyable and fascinating in their own right Although a large bibliography on these stories exists and a few limited anthologies have been published no attempt has previously been made to collect them all and discuss them comprehensively *The Alternative Sherlock Holmes* does so it provides a new and valuable approach to the Sherlock Holmes literature as well as making available many works that have for years remained forgotten Presented as an entertaining narrative of interest to both the aficionado and the scholar it provides full bibliographic data on virtually all the known stories in the field *The Universal Sherlock Holmes* Ronald Burt De Waal, 1994 **The Cambridge Companion to Crime Fiction** Martin Priestman, 2003-11-06 The Cambridge Companion to Crime Fiction covers British and American crime fiction from the eighteenth century to the end of the twentieth As well as discussing the detective fiction of writers like Arthur Conan Doyle Agatha Christie and Raymond Chandler it considers other kinds of fiction where crime plays a substantial part such as the thriller and spy fiction It also includes chapters on the treatment of crime in eighteenth century literature French and Victorian fiction women and black detectives crime on film and TV police fiction and postmodernist uses of the detective form The collection by an international team of established specialists offers students invaluable reference material including a chronology and guides to further reading The volume aims to ensure that its readers will be grounded in the history of crime fiction and its critical reception **The Penguin Kenneth Grahame** Kenneth Grahame, 1983 *Victorian Fiction Beyond the Canon* Daragh Downes, Trish Ferguson, 2016-12-15 This book is about selected Victorian texts and authors that in many cases have never before been subject to sustained scholarly attention Taking inspiration from the pioneeringly capacious approach to the hidden hinterland of Victorian fiction adopted by scholars like John Sutherland and Franco Moretti this energetically revisionist volume takes advantage of recent large scale digitisation projects that allow unprecedented access to hitherto neglected literary texts and archives Blending lively critical engagement with individual texts and close

attention to often surprising trends in the production and reception of prose fiction across the Victorian era this book will be of use to anyone interested in re evaluating the received meta narratives of Victorian literary history With an afterword by John Sutherland *The Adventures of Sherlock Holmes* Arthur Conan Doyle,2024-10-31 Arthur Conan Doyle 1859 1930 has been called the greatest genre writer Britain has ever produced and Britain s last national writer His stories were popular in his lifetime and continue to fascinate in many different forms and media today In *Sherlock Holmes and Dr Watson* he invented two of the most famous of all literary characters But he was also the author of historical novels science fiction supernatural and horror stories medical tales travel narratives autobiography war reporting drama and poetry military history and a body of Spiritualist writing His exceptionally diverse and always lively writing makes him an outstanding literary figure his work enjoyed and studied all over the world The Edinburgh Edition of the Works of Arthur Conan Doyle is the first ever scholarly edition covering the author s entire career It establishes authoritative texts accompanied by related materials and acts as a research resource in placing them in biographical cultural historical and literary historical contexts

Purity and Contamination in Late Victorian Detective Fiction Dr Christopher Pittard,2013-05-28 Concentrating on works by authors such as Fergus Hume Arthur Conan Doyle Grant Allen L T Meade and Marie Belloc Lowndes Christopher Pittard explores the complex relation between the emergence of detective fictions in the 1880s and 1890s and the concept of purity The centrality of material and moral purity as a theme of the genre Pittard argues both reflected and satirised a contemporary discourse of degeneration in which criminality was equated with dirt and disease and where national boundaries were guarded against the threat of the criminal foreigner Situating his discussion within the ideologies underpinning George Newnes s *Strand Magazine* as well as a wide range of nonfiction texts Pittard demonstrates that the genre was a response to the seductive and impure delights associated with sensation and gothic novels Further Pittard suggests that criticism of detective fiction has in turn become obsessed with the idea of purity thus illustrating how a genre concerned with policing the impure itself became subject to the same fear of contamination Contributing to the richness of Pittard s project are his discussions of the convergence of medical discourse and detective fiction in the 1890s including the way social protest movements like the antivivisectionist campaigns and medical explorations of criminality raised questions related to moral purity Copyright, Creativity, Big Media and Cultural Value Kathy Bowrey,2020-11-23 As the publishing film and music industries are dominated by Big Media conglomerates there is often recourse to simplistic ideological and conspiratorial readings of industry dynamics *Copyright Creativity Big Media and Cultural Value* Incorporating the Author explains why copyright is much more than a creator s private property right or a mechanism through which corporations control cultural production and influence mass consumption choices The volume is grounded in extensive painstakingly detailed and colourful original archival research into business histories of major successful artists including Conan Doyle Hall Caine Margaret Atwood Dame Nellie Melba Radiohead and Banksy and the industries and genres that grew up around their

activities Chapters address big questions about how copyright generates income and how distributions of profits are allocated in the publishing film and music industries It includes discussion of the creation of new formats the interplay between old media and new technologies international copyright reform and cross industry relations Copyright Creativity Big Media and Cultural Value is a wide ranging and important resource for students and practitioners of law and policy media studies cultural studies and literary history *War On Wealth, The: Fact And Fiction In British Finance Since 1800* Ranald Michie, 2023-03-21 This book addresses the divide that exists between the reality of finance and the image it projects A functioning financial system is an essential feature of a modern economy providing it with money credit capital and investments Conversely those who provide this essential service are neither respected nor trusted The causes and consequences of this divide is explored using the British experience from 1800 to the present drawing upon a mixture of factual evidence and contemporary fiction Nothing of this scale has been attempted before and this is the product of 50 years of research
