Media and Crime is a thought provoking and scholarly work written in a very lively style It will be of interest to readers of

SCHOLAG whether or not they have some knowledge of criminological theories Jean McFadden SCOLAG Journal

Criminologists and a bewildering array of other voices have commented on the relationship between media and crime on

many occasions over many decades Those of us who have worked and taught in this area have often sensed the lack of an

authoritative systematic and up to date text to which one could refer with confidence Yvonne Jewkes has now given us that

book and we are in her debt Jewkes is one of the few who knows the fields of both media studies and criminology equally well

She writes with confidence clarity insight and style Media and Crime does not just cover the debate it moves it forward This

is a striking and admirable achievement This book will be widely read and widely welcomed by students and by Jewkes s

academic peers Professor Richard Sparks University of Edinburgh The book reviews key media and criminological debates

against contemporary developments in the media and twenty first century concerns about crime More than that Media and Crime is intellectually provocative lucid astute and simply a good read Dr Maggie Wykes University of Sheffield A thought provoking critical analysis of how the mass media construct the issue of crime in the public realm Clearly written and based on a wide ranging review of research on crime and media it will be an invaluable source for students Professor Robert Reiner London School of Economics and Political Science This book offers a vibrant and lucid guide to the constructions of crime in media culture and the complex interactions between consumers and producers Comprehensive and authoritatively written Media and Crime should appear on all essential reading lists for students of criminology and media culture Paul Mason Southampton Institute Why do only certain criminal events become thrust into the public sphere with sufficient vigour to shape public fears of victimization Why are some crimes sustained by sufficiently intense public outcry to become part of our cultural fabric while other almost identical incidents fail to capture the collective imagination Why do some very serious crimes cast a much longer shadow than others and some offenders take on an iconic evilness while others fade into quiet obscurity This book points a critical spotlight on media constructions of crime and social control developing our understanding of the relationship between media and crime and taking existing knowledge in new directions Media and Crime is an accessible text with a strong pedagogic purpose making it an ideal introduction to the study of crime and the mass media for undergraduate and postgraduate students The author interrogates the most important literature in the field as well as moving the debates forward with new ideas and values Substantive topics of current interest are covered including news reporting of crime media constructions of children and women as victims and offenders moral panics over paedophiles the relationship between the media and the police reality crime shows surveillance and social control new media Chapter overviews key terms study questions and suggestions for further reading map the key issues in this vital and topical area of debate The book is essential reading for students in a wide range of academic fields including criminology media studies sociology gender studies and psychology

Social Problems in a Free Society Myles J. Kelleher, 2004-09-02 The future of the sociologist's profession is jeopardized by an ongoing trend toward the politicization of sociology and the radicalization of social problems This book calls for the rethinking of the culture of social political and economic liberty to create a resurgence of a sociological agenda Social Problems in a Free Society offers an original perspective on social problems such as violations of the principles of individual rights and the free market This book is a vision for reinvigorating the discipline in a fashion undreamt of within the wearisome strains of today's radical social problems theory
