The Law Of Copyright Hc 1996:

Law Making Under the Trade Constitution: A Study in Legislating by the World Trade Organization Gail Evans, 2000-01-01 This work lays the foundation for an empirical understanding of the WTO constitution as a response to the logic of intellectual property law. It concludes that the WTO and its institutions must find ways of conforming to the democratic principles of accountability, transparency and representation.

Art and Copyright Simon Stokes, 2012-02-21 In recent years the intellectual property protection afforded to works of art has received increased attention from artists, museums, galleries, auction houses, publishers and their professional staff and legal advisers as well as from those teaching or studying copyright and or the law of cultural property. This was the first text to examine in detail the intellectual property rights protecting artistic works and artists' rights generally in the United Kingdom. First published in 2001, *Art and Copyright* has established itself as a leading text in the field. Now revised and updated, the second edition includes expanded coverage of Artists' Resale Right and the relationship between designs law and artistic works as well as greater coverage of new media and art and digital developments generally. It also includes additional precedent materials and checklists. It remains an invaluable work for all those involved in art law and for intellectual property lawyers involved with the exploitation and or sale of artistic works as well as for intellectual property academics, researchers, law students, curators, publishers, artists, gallery owners and all those interested in how the law protects artistic works.

Globalising Intellectual Property Rights Duncan Matthews, 2003-09-02 In *Globalising Intellectual Property Rights*, Matthews looks at various aspects of the TRIPS Agreement: agenda setting, legal interpretation, implementation, enforcement and revision from the viewpoint of global business interests and developing countries. It is argued that the Agreement was largely the result of an initiative by multinational companies who sought to protect their own intellectual property through international law and furthermore that it is these multinational companies who are now its main guardians. The book concludes that the history of the TRIPS Agreement and the role of business is a clear example of governance by non-state actors on a global scale. This book will be of interest to students and researchers in the fields of international relations, intellectual property law, international economic law and development studies.

Intellectual Property in Asian Emerging Economies Assafa Endeshaw, 2016-05-23 This book critically reviews the recurrent debate on Intellectual Property law and policy in developing countries carried out in the last decade. It identifies the still unresolved policy issues and proposes alternative approaches that resonate with the needs for transformation of the economic and social reality of developing countries. Focusing on emerging economies in Asia, the work draws the wider lessons to be learnt by researchers, policy makers, legislators and the business sector in general and concludes by putting forward proposals for reform.
