The Learning Disabled Adolescent Program Alternatives In The Secondary School:

The Learning Disabled Adolescent George E. Marsh, Carol Jean Gearheart, Bill Ray Gearheart, 1978 Learning Disabilities William M. Cruickshank, William C. Morse, Jeannie Johns, 1980-02-01 The first four chapters introduce and discuss the theoretical background of both adolescence and learning disabilities They are followed by five detailed chapters each a case history of one learning disabled young man that provide us with as full and unique a picture of the youths as is possible The final chapters explore teaching the learning disabled adolescent in the secondary school The authors have devised a core educational regimen which will prepare children for life and will insure the integrity of the youth s individual personality Practical procedures a teaching method establish learning and test the performance of secondary school students in particular Cruickshank Morse and Johns concentrate on reading organization study skills and written language

Mainstreaming Retardation Delinquency Richard S. Greene, 1991 This collection of papers presents ideas and research that helps to find a link between the retarded child s educational setting and the onset of delinquency The first section presents the impacts of the judicial system on the mentally retarded offender and researcher attempts to find a relationship between intelligence and delinquency The second section deals with the legal mandates such as P L 94 142 and the parameters that schools much comply with the ensure that every student regardless of his her handicap receives a free and appropriate education Finally the last section focuses upon some of the methods currently being used by school districts to comply with P L 94 142 and presents a case study that amplifies the need for schools to identify and nurture exceptional children *NARIC Quarterly*, 1988 **Textbook of Developmental Pediatrics** Marvin I. Gottlieb, Janice E. Williams, 2013-11-11 Child adolescent development and behavior have been a traditional concern of primary health care providers However it was not until the mid 1960s that attempts were made to consolidate developmental behavioral issues into an identifiably distinct fund of medical knowledge During the ensuing two decades developmental behavioral pediatrics was recognized as a clinical and research subspecialty within the framework of comprehensive health care for children The influence of public advocacy groups topic dedicated journals national professional specialty societies subject related continuing education programs and federal legislation PL94 142 has served to crystallize developmental behavioral pediatrics as a specialized field of study As a consequence during the past ten years significant modifications have restructured medical student and pediatric resident education providing an emphasis on developmental behavioral issues The focus on neurodevelopmental educational and psychosocial issues reflects changing priorities in traditional health care for children The postgraduate training of pediatric fellows in two and three year training programs was initiated to accommodate professional manpower needs in both academic and practice settings Many of the problems in childhood development and behavior frequently span the traditional areas of child neurology child psychiatry and general pediatrics As a result there has been some confusion in demarcating professional responsibilities in diagnosis and management as well as

poorly defined terminology and classification schemas With the birth of developmental pediatrics as a pediatric specialty a more cohesive fund of knowledge has been accumulated and more meaningful strategies have been designed for prevention diagnosis and management **The Learning Disabled Adolescent** Dolores M.
