The Legacy Of Neglect:

The History of Media and Communication Research David W. Park, Jefferson Pooley, 2008 Strictly speaking James Carey wrote there is no history of mass communication research This volume is a long overdue response to Carey s comment about the field s ignorance of its own past The collection includes essays of historiographical self scrutiny as well as new histories that trace the field s institutional evolution and cross pollination with other academic disciplines The volume treats the remembered past of mass communication research as crucial terrain where boundaries are marked off and futures plotted The collection intended for scholars and advanced graduate students is an essential compass for the field

An American Health Dilemma W. Michael Byrd, Linda A. Clayton, 2001-12-21 First published in 2002 *An American Health Dilemma* is the story of medicine in the United States from the perspective of people who were consistently officially mistreated abused or neglected by the Western medical tradition and the US health care system It is also the compelling story of African Americans fighting to participate fully in the health care professions in the face of racism and the increased power of health corporations and HMOs This tour de force of research on the relationship between race medicine and health care in the United States is an extraordinary achievement by two of the leading lights in the field of public health Ten years out it is finally updated with a new third volume taking the story up to the present and beyond remaining the premiere and only reference on black public health and the history of African American medicine on the market today No one who is concerned with American race relations with access to and quality of health care or with justice and equality for humankind can afford to miss this powerful resource
