Levittowners. ways of life and politics in a new suburban community Herbert J. Gans, 1967 **Expanding the American Dream** Barbara M. Kelly, 1993-02-02 Much has been written about the housing policies of the Depression and the Postwar period Much less has been written of the houses built as a result of these policies or the lives of the families who lived in them Using the houses of Levittown Long Island as cultural artifacts this book examines the relationship between the government sponsored mass produced housing built after World War II the families who lived in it and the society that fostered it Beginning with the basic four room slab based Cape Cods and Ranches Levittown homeowners invested time and effort barter and money in the expansion and redesign of their houses The author shows how this gradual process has altered the socioeconomic nature of the community as well bringing Levittown fully into the mainstream of middle class America This book works on several levels For planners it offers a reassessment of the housing policies of the 1940s and 50s suggesting that important lessons remain to be learned from the Levittown experience For historians it offers new insights into the nature of the suburbanization process that followed World War II And for those who wish to understand the subtle workings of their own domestic space within their lives it offers food for speculation **Empire's Nature** Amy R. W.

Meyers, Margaret Beck Pritchard, 2012-12-01 Completed in 1747 Mark Catesby's *Natural History of Carolina Florida and the Bahama Islands* was the first major illustrated publication on the flora and fauna of Britain's American colonies Together with his *Hortus Britanno Americanus* 1763 which detailed plant species that might be transplanted successfully to British soil Catesby's *Natural History* exerted an important though often overlooked influence on the development of art natural history

and scientific observation in the eighteenth century Inspired by a major traveling exhibition of Catesby's watercolor drawings from the Royal Library Windsor Castle this collection of interdisciplinary essays considers Catesby's endeavors as a naturalist artist scientific explorer experimental horticulturist ornamental gardener and early environmental thinker in terms of the interests held by the various overlapping communities in which he functioned particularly as those interests related to the British colonial enterprise The contributors are David R Brigham Joyce E Chaplin Mark Laird Amy R W Meyers Therese O Malley and Margaret Beck Pritchard

*Bad Old Days* Alan J. Levine, 2017-07-28 For many especially those on the political left the 1950s are the bad old days The widely accepted list of what was allegedly wrong with that decade includes the Cold War McCarthyism racial segregation self satisfied prosperity and empty materialism The failings are coupled with ignoring poverty and other social problems complacency conformity the suppression of women and puritanical attitudes toward sex In all the conventional wisdom sees the decade as bland and boring with commonly accepted people paralyzed with fear of war Communism or McCarthyism or all three Alan J Levine shows that the commonly accepted picture of the 1950s is flawed It distorts a critical period of American history That distortion seems to be dictated by an

ideological agenda including an emotional obsession with a sentimentalized version of the 1960s that in turn requires maintaining a particular misleading view of the post World War II era that preceded it Levine argues that a critical view of the 1950s is embedded in an unwillingness to realistically evaluate the evolution of American society since the 1960s Many and not only liberals and those further to the left desperately desire to avoid seeing or admitting just how badly many things have gone in the United States since the 1960s Bad Old Days shows that the conventional view of the 1950s stands in opposition to the reality of the decade Far from being the dismal prelude to a glorious period of progress the postwar period of the late 1940s and 1950s was an era of unprecedented progress and prosperity This era was then derailed by catastrophic political and economic misjudgments and a drastic shift in the national ethos that contributed nothing or less than nothing to a better world

**Levittown** David Kushner,2022-03-08 The explosive true story of the first African American family to move into one of America's most iconic suburbs Levittown Pennsylvania In the decade after World War II one entrepreneurial family helped thousands of people buy into the American dream of owning a home not just any home but a good one with all the modern conveniences The Levitts two brothers William and Alfred and their father Abe pooled their talents in land use architecture and sales to create story book town with affordable little houses They laid out the welcome mat but not to everyone Levittown had a whites only policy This is the story that unfolded in Levittown PA one unseasonably hot summer in 1957 on a quiet street called Deepgreen Lane There a white Jewish Communist family named Wechsler secretly arranged for a black family the Myers to buy the little pink house next door What followed was an explosive summer of violence that would transform their lives and the nation It would lead to the downfall of a titan and the integration of the most famous suburb in the world It's a story of hope and fear invention and rebellion and the power that comes when ordinary people take an extraordinary stand

**Moment of Grace** Michael Johns,2004-08-02 An exceptionally wide ranging and balanced examination of American culture in the 1950s Johns spans the cultural horizon from food and clothing to music literature art architecture and politics In highly readable prose he transmits his enthusiasm for the subject and conveys the sights sounds and smells of ordinary everyday life in America a generation ago His book will be important to anyone seriously studying this crucial and largely misunderstood period in American life Alan Ehrenhalt author of The Lost City The Forgotten Virtues of Community in America

Movie Towns and Sitcom Suburbs Stephen Rowley,2015-10-21 Media depictions of community are enormously influential on wider popular opinion about how people would like to live In this study Rowley examines depictions of ideal communities in Hollywood films and television and explores the implications of attempts to build real world counterparts to such imagined places

**The Celebration Chronicles** Andrew Ross, Ph.D.,2011-03-16 Scholar and iconoclast Andrew Ross spent a year living in the much scrutinized and often demonized Celebration the picture perfect town that Disney is building for 20 000 people in the swamp and scrub of central Florida Lavishly planned with a downtown center and newly minted antique homes and front loaded with an ultraprogressive school hospital and high tech infrastructure

Celebration was to offer a fresh start in a world gone wrong Yet behind the picket fences gleaming facades and Kodak moment streetscapes Ross discovered a real place with real problems and not a theme park village cooked up by the Imagineers Compelling and wide ranging in its analysis The Celebration Chronicles provides a startlingly fresh perspective on the link between contemporary urban planning and corporate bottom lines
