General index** Edmund Clarence Stedman, Mrs. Ellen Mackay Hutchinson Cortissoz, 1894 **Representations of Anne Frank in American Literature** Rachael McLennan, 2016-08-05 This book explores portrayals of Anne Frank in American literature where she is often invoked if problematically as a means of encouraging readers to think widely about persecution genocide and victimisation often in relation to gender ethnicity and race It shows how literary representations of Anne Frank in America over the past 50 years reflect the continued dominance of the American dramatic adaptations of Frank s Diary in the 1950s and argues that authors feel compelled to engage with the problematic elements of these adaptations and their iconic power At the same time though literary representations of Frank are associated with the adaptations critics often assume that these texts unquestioningly perpetuate the problems with the adaptations This is not true This book examines how American authors represent Frank in order to negotiate difficult

questions relating to representation of the Holocaust in America and in order to consider gender coming of age and forms of inequality in American culture in various historical moments and of course to consider the ways Frank herself is represented in America This book argues that the most compelling representations of Frank in American literature are alert to their own limitations and may caution against making Frank a universal symbol of goodness or setting up too easy identifications with her It will be of great interest to researchers and students of Frank the Holocaust in American fiction and culture gender studies life writing young adult fiction and ethics **American Literature and the Culture Wars** Gregory S.

Jay,2018-09-05 Gregory S Jay boldly challenges the future of American literary studies Why pursue the study and teaching of a distinctly American literature What is the appropriate purpose and scope of such pursuits Is the notion of a traditional canon of great books out of date Where does American literature leave off and Mexican or Caribbean or Canadian or postcolonial literature begin Are today s campus conflicts fueled more by economics or ideology Jay addresses these questions and others relating to American literary studies to explain why this once arcane academic discipline found itself so often in the news during the culture wars of the 1990s While asking some skeptical questions about new directions and practices Jay argues forcefully in favor of opening the borders of American literary and cultural analysis He relates the struggle for representation in literary theory to a larger cultural clash over the meaning and justice of representation then shows how this struggle might expand both the contents and the teaching of American literature In an account of the vexed legacy of the Declaration of Independence he provides a historical context for the current quarrels over literature and politics Prominent among these debates are those over multiculturalism which Jay takes up in an essay on the impasses of identity politics In closing he considers how the field of comparative American cultural studies might be constructed **Concise**
