The Life of Christina of Markyate Samuel Fanous, Henrietta Leyser, 2008 I wish to remain single for I have made a vow of virginity This is the remarkable story of the twelfth century recluse Christina who became prioress of Markyate near St Albans in Hertfordshire Determined to devote her life to God and to remain a virgin Christina repulses the sexual advances of the bishop of Durham In revenge he arranges her betrothal to a young nobleman but Christina steadfastly refuses to consummate the marriage and defies her parents cruel coercion Sustained by visions she finds refuge with the hermit Roger and lives concealed at Markyate for four years enduring terrible physical and emotional torment Eventually Christina is supported by the abbot of St Albans and her reputation as a person of great holiness spreads far and wide Written with striking candour by Christina s anonymous biographer the vividness and compelling detail of this account make it a social document as much as a religious one Christina s trials of the flesh and spirit exist against a backdrop of scheming and corruption and all too human greed The Oxford Handbook of Medieval Literature in English Elaine Treharne, Greg Walker, William Green, 2010-04-15 Bringing together the insights of new fields and approaches with those of more familiar texts and methods this handbook provides a comprehensive overview of the state of Medieval Literature today It discusses texts such as Beowulf Wulf and Eadwacer and Ancrene Wisse and authors from lfric to Chaucer Langland and the Gawain Poet *Medievalia Et Humanistica* No. 27 Paul Maurice Clogan, 2000 Clogan English U North Texas and fellow of the American Academy in Rome has brought together five articles that consider the question of reading and the reader in the Roman de la Rose The Wife s Lament the Pearl the work of Jean Gerson Christine de Pizan and the Iberian writer and scholar Don Ishaq Abravanel The last third of the volume contains reviews c Book News Inc **Women's Lives** Nahir I. Friendship and Faith: Cistercian Men, Women, and Their Stories, 1100-1250 Brian Patrick McGuire,2024-10-28 In these articles Professor McGuire explores the riches of the Cistercian exemplum tradition These texts are made up of brief stories often with a miraculous content which provided moral support for novices and monks in Cistercian abbeys all over Europe in the High Middle Ages The Cistercians have been seen mainly in terms of their great writers like Bernard of Clairvaux and the impressive buildings they left behind But Cistercian literature also provides us with more humble insights from daily life shedding light on questions of sexuality anger depression and bonds of friendship also between monks and nuns They bring a freshness of insight and immediate experience and their seeming naivety lets us be aware of monks commitment to each other in individual and community bonds In Cistercian storytelling the Gospel s message meets an historical context and bears witness to a transformation of Christian life and idealism while at the same time allowing us precious insights into how ordinary men and women not just monks and nuns lived and thought

The Discourse of Enclosure Shari Horner, 2001-05-24 2001 CHOICE Outstanding Academic Title Exploring Old English texts ranging from Beowulf to lfric s Lives of Saints this book examines ways that women s monastic material and devotional practices in Anglo Saxon England shaped literary representations of women and femininity Horner argues that these representations derive from a discourse of female monastic enclosure based on the increasingly strict rules of cloistered confinement that regulated the female religious body in the early Middle Ages She shows that the female subjects of much Old English literature are enclosed by many layers literal and figurative textual material discursive spatial all of which image and reinforce the powerful institutions imposed by the Church on the female body Though it has long been recognized that medieval religious women were enclosed and that virginity was highly valued this book is the first to consider the interrelationships of these two positions that is how the material practices of female monasticism inform the textual operations of Old English literature

Nuns' Priests' Tales Fiona J. Griffiths, 2025-02-01 During the Middle Ages female monasteries relied on priests to provide for their spiritual care chiefly to celebrate Mass in their chapels but also to hear the confessions of their nuns and give last rites to their sick and dying These men were essential to the flourishing of female monasticism during the eleventh and twelfth centuries yet they rarely appear in scholarly accounts of the period Medieval sources are hardly more forthcoming Although medieval churchmen consistently acknowledged the necessity of male spiritual supervision in female monasteries they also warned against the dangers to men of association with women Nuns Priests Tales investigates gendered spiritual hierarchies from the perspective of nuns priests ordained men often local monks who served the spiritual needs of monastic women Celibacy misogyny and the presumption of men s withdrawal from women within the religious life have often been seen as markers of male spirituality during the period of church reform Yet as Fiona J Griffiths illustrates men s support and care for religious women could be central to male spirituality and pious

practice Nuns priests frequently turned to women for prayer and intercession viewing women s prayers as superior to their own since they were the prayers of Christ s brides Casting nuns as the brides of Christ and adopting for themselves the role of paranympus bridesman or friend of the bridegroom these men constructed a triangular spiritual relationship in which service to nuns was part of their dedication to Christ Focusing on men s spiritual ideas about women and their spiritual service to them Nuns Priests Tales reveals a clerical counter discourse in which spiritual care for women was depicted as a holy service and an act of devotion and obedience to Christ Secretaries of God Diane Watt,1997 The English women prophets and visionaries whose voices are recovered here all lived between the twelfth and the seventeenth centuries and claimed through the medium of trances and eucharistic piety to speak for God Through prophecy they were often able to intervene in the religious and political discourse of their times the role of God s secretary gave them the opportunity to act and speak autonomously and publicly Back cover **Medicine, Religion and Gender in Medieval Culture** Naoë Kukita Yoshikawa,2015 An exploration of the relations between medical and religious discourse and practice in medieval culture focussing on how they are affected by gender **Women's Lives in Medieval Europe** Emilie Amt,2013-09-13 Praise for the first edition It is difficult to imagine another book in which one could find all this diverse material and no doubt Amt s collection in its richness and in its genuine clarity and simplicity will takes prominent place in our expanded diversified medieval curriculum a curriculum that takes class gender and ethnicity as central to an understanding of world cultural history The Medieval Review Long considered to be a definitive and truly groundbreaking collection of sources Women s Lives in Medieval Europe uniquely presents the everyday lives and experiences of women in the Middle Ages This indispensable text has now been thoroughly updated and expanded to reflect new research and includes previously unavailable source material This new edition includes expanded sections on marriage and sexuality and on peasant women and townswomen as well as a new section on women and the law There are brief introductions both to the period and to the individual documents study questions to accompany each reading a glossary of terms and a fully updated bibliography Working within a multi cultural framework the book focuses not just on the Christian majority but also present material about women in minority groups in Europe such as Jews Muslims and those considered to be heretics Incorporating both the laws regulations and religious texts that shaped the way women lived their lives and personal narratives by and about medieval women the book is unique in examining women s lives through the lens of daily activities and in doing so as far as possible through the voices of women themselves Women & Christianity Mary T. Malone,2001 Students and scholars of Christian history will find Women Christianity a refreshing and valuable resource Women Christian or otherwise who seek an understanding of their past and their present will also find this book helpful BOOK JACKET *Women In Dark Age And Early Medieval Europe c.500-1200* Helen Jewell,2006-10-04 The period 1200 1550 opened in a time of population expansion but went on to suffer the demographically cataclysmic effects of the plague beginning with the Black Death of 1347 51 The

period dawned with a confident papacy and the Albigensian crusade against heretics and ended with the Catholic church torn apart by the Protestant Reformation. Huge challenges were affecting society in various ways but they did not always affect men and women in the same ways. Helen M Jewell provides a lively survey of western European women's activities and experiences during this timeframe. The core chapters investigate the function of women in the countryside and towns, the role of women in the ruling and landholding classes, women within the context of religion. This practical centre of the book is embedded in an analysis of the gender theories inherited from the earlier Middle Ages which continued to underpin laws which restricted women's activity, an education system which offered them inferior institutional provision and a church which denied them ministry. Three individuals who vastly exceeded these expectations, crashing through the glass ceilings of their day, are brought together in a fascinating final chapter. Combining a historiographical survey of trends over the last thirty years with more recent scholarship, this is an indispensable introduction for anyone with an interest in women's history from the late Medieval period through to the Reformation.

The Oxford History of Life-writing Karen Anne Winstead, Alan Stewart, 2018. The Oxford History of Life Writing consolidates recent academic research and debate to provide a multi-volume history of life writing. Each volume provides a selective survey of the range of life writing in a given period with particular focus on the most important or influential authors and works within the genre.

VOLUME 1 The Middle Ages explores the richness and variety of life writing in the Middle Ages ranging from Anglo-Latin lives of missionaries, prelates and princes to high medieval lives of scholars and visionaries to late medieval lives of authors and laypeople.

VOLUME 2 Early modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography, autobiography and diary keeping that laid the foundations for our modern life writing.

Masquerade Edward W. Chynoweth, 2005-11-09. Chynoweth asserts that the feminist message is false. His topics include the roots of the falsehood which stem in part from the 1964 Civil Rights Act's Title VII, the right order of the human sexes, the role of art and culture, marriage, biblical paradigms and his interpretation of Catholic thought. His chapter entitled 'History as a Society Column for Lovely Ladies' is interesting as is his summary of thought on egalitarianism from Aristotle to Bryce and Stephen. The bibliography is shorter than one would expect.
