The Lifework:

The Lifework and Legacy of Iona and Peter Opie Julia C. Bishop, June Factor, 2020-04-02 Iona and Peter Opie were twentieth century pioneers Their research and writing focused on the folklore of British children their games rhymes riddles secret languages and every variety of the traditions and inventions of the children s collective physical and verbal play Such closely observed respectful good humoured and historically attuned writing about the traditions of childhood was a revelation to English language readers around the world Their numerous books were a rare phenomenon they attracted a popular readership far beyond the professional and academic communities For those who work with children their collaborative research was a powerful influence in confirming the immense capacities of the young for cooperation conservation invention and imagination Their books challenged then and now the bleak and limited view of children which focuses on their smallness ignorance and powerlessness The writers in this volume pay their tribute to the Opies by exploring a wonderfully varied topography of children s play from different countries and different perspectives Their research is vivid and challenging that is as it should be in the tradition of the Opies This book was originally published as a special issue of the International Journal of Play

The Lifework Principle Rick Sarkisian, 2007-10 Many people live as if life were just a series of disconnected events containing no real meaning and offering no real fulfillment But you can find satisfaction in life if you re willing to change your perspective and take action That s what this book is designed to help you do In these pages you ll learn to live a deeper richer more rewarding life Not a life of random events occurring to seemingly disconnected people but a life in which you are deeply important and involved A life that will give you joy meaning and purpose every moment of every day The LifeWork Principle is an action oriented approach not another pie in the sky theory Somehow you know instinctively that there s more to life than just your physical existence But how do you discover it How can you fill that gnawing emptiness inside How can you move from listlessness and confusion to joy and satisfaction This book will point you in the right direction The LifeWork Principle will help you develop a new perspective on life and show you how to live each week each day each hour to its fullest You ll start to see your life as a unique and unrepeatable role created just for you And you ll begin to experience true joy real fulfillment and deep satisfaction like you never thought was possible

Lifework Moran Sheleg, 2024-07-23 Following the critical scepticism surrounding the notion of the self as a singular entity during the 1960s many artists and writers sought to test the apparent problem posed by autobiography as both a traditional genre and as a way of working Considering the consequent emergence of autotheory Lifework traces this shift in artistic and literary production during the late twentieth century and beyond examining a set of diverse practices that mine the line between what it is to make art and what it is to live life The book s chapters connect a variety of artistic strategies that cut across medium geography and time uncovering how the historical marginalisation of first person experience has taken on larger social cultural and political implications in the contemporary moment and how the work of living might still relate to the work

of art Postcolonial Historical Materialism Filippo Menozzi, 2025-03-27 Through a reappraisal of the work of four major figures in critical theory Ernst Bloch Georg Lukács Theodor Adorno and Walter Benjamin Filippo Menozzi rethinks the tradition of critical theory in relation to pressing concerns in postcolonial studies Revealing these authors continued relevance to urgent issues in the 21st century from struggles against racism to social movements and the transmutations of global capitalism Menozzi reimagines them as central to an alternative genealogy of critical theory that moves beyond their European provenance and the limitations of Western Marxism In doing so this book challenges more broadly the view of critical theory as steeped in Eurocentrism culturally conservative and politically defeatist Contesting this in four chapters Postcolonial Historical Materialism inserts Adorno Lukács Bloch and Benjamin into key contemporary sites of militancy and debate Engaging with a wide range of European and non European sources Menozzi proposes a new concept of postcolonial historical materialism indicating how the heritage of critical theory can reopen global possibilities of utopia and revolution in a non utopian age of global emergencies social unrest and the unfinished history of decolonisation **The Work of Art in the Age of Its Technological Reproducibility, and Other Writings on Media** Walter Benjamin, 2008-05-31 A series of influential essays on the visual arts that were made possible by machines and the implications for the future of culture

Reading for Our Time J. Hillis Miller, 2012-03-05 A masterclass in attentive reading that opens up brilliant insights into two of George Eliot's novels Can reading Adam Bede and Middlemarch be justified in this time of climate change financial meltdown and ineffective politicians J Hillis Miller shows how to be read for today they must be read slowly closely and carefully with much attention to linguistic detail and especially to figures of speech By relating mistakes like Dorothea's about Casaubon to current affairs Miller's readings for today can help us to come to terms with our human social and political situation and even inspire us to act to ameliorate it **The Persistence of Taste** Malcolm Quinn, Dave Beech, Michael Lehnert, Carol Tulloch, Stephen Wilson, 2018-05-11 This book offers an interdisciplinary analysis of the social practice of taste in the wake of Pierre Bourdieu's sociology of taste For the first time this book unites sociologists and other social scientists with artists and curators art theorists and art educators and art design and cultural historians who engage with the practice of taste as it relates to encounters with art cultural institutions and the practices of everyday life in national and transnational contexts The volume is divided into four sections The first section on Taste and art shows how art practice was drawn into the sphere of good taste contrasting this with a post conceptualist critique that offers a challenge to the social functions of good taste through an encounter with art The next section on Taste making and the museum examines the challenges and changing social political and organisational dynamics propelling museums beyond the terms of a supposedly universal institution and language of taste The third section of the book Taste after Bourdieu in Japan offers a case study of the challenges to the cross cultural transmission and local reproduction of good taste exemplified by the complex cultural context of Japan The final section on Taste the home and everyday life juxtaposes the analysis of the reproduction of

inequality and alienation through taste with arguments on how the legacy of ideas of good taste have extended the possibilities of experience and sharpened our consciousness of identity As the first book to bring together arts practitioners and theorists with sociologists and other social scientists to examine the legacy and continuing validity of Pierre Bourdieu's sociology of taste this publication engages with the opportunities and problems involved in understanding the social value and the cultural dispositions of taste after Bourdieu It does so at a moment when the practice of taste is being radically changed by the global expansion of cultural choices and the emergence of deploying impersonal algorithms as solutions to cultural and creative decision making

Philosophy as a Literary Art Costica Bradatan, 2016-04-14 Despite philosophers growing interest in the relation between philosophy and literature in general over the last few decades comparatively few studies have been published dealing more narrowly with the literary aspects of philosophical texts The relationship between philosophy and literature is too often taken to be literature as philosophy and very rarely philosophy as literature It is the dissatisfaction with this one sidedness that lies at the heart of the present volume Philosophy has nothing to lose by engaging in a serious process of literary self analysis On the contrary such an exercise would most likely make it stronger more sophisticated more playful and especially more self reflexive By not moving in this direction philosophy places itself in the position of not following what has been deemed since Socrates at least the worthiest of all philosophical ideals self knowledge This book was originally published as a special issue of *The European Legacy*

The Postconceptual Condition Peter Osborne, 2018-01-30 If as Walter Benjamin claimed it is the function of artistic form to make historical content into a philosophical truth then it is the function of criticism to recover and to complete that truth Never has this been more necessary or more difficult than with respect to contemporary art Contemporary art is a point of condensation of a vast array of social and historical forces economic and political forms and technologies of image production Contemporary art expresses this condition Osborne maintains through its distinctively postconceptual form These essays extending the scope and arguments of Osborne's *Anywhere or Not at All: Philosophy of Contemporary Art* move from philosophical consideration of the changing temporal conditions of capitalist modernity via problems of formalism the politics of art and the changing shape of art institutions to interpretation and analysis of particular works by Akram Zataari Xavier Le Roy and Ilya Kabakov and the postconceptual situation of a crisis ridden New Music

Baroque Horrors David Castillo, 2011-12-27 David Castillo takes us on a tour of some horrific materials that have rarely been considered together He sheds a fantastical new light on the baroque Anthony J Cascardi University of California Berkeley Baroque Horrors is a textual archeologist's dream scavenged from obscure chronicles manuals minor histories and lesser known works of major artists Castillo finds tales of mutilation mutation monstrosity murder and mayhem and delivers them to us with an inimitable flair for the sensational that nonetheless rejects sensationalism because it remains so grounded in historical fact William Egginton Johns Hopkins University Baroque Horrors is a major contribution to baroque ideology as well as an exploration of the grotesque the

Negativity and Revolution John Holloway, Fernando Matamoros, Sergio Tischler, 2008-11-20 How can activists combat the political paralysis that characterises the anti dialectical Marxism of Foucault Derrida and Deleuze without reverting to a dogmatic orthodoxy This book explores solutions in the negative dialectics of Theodor Adorno The poststructuralist shift from dialectics to difference has been so popular that it becomes difficult to create meaningful revolutionary responses to neoliberalism The contributors to this volume come from within the anti capitalist movement and close to the concerns expressed in Negri and Hardt's *Empire* and *Multitude* However they argue forcefully and persuasively for a return to dialectics so a real world radical challenge to the current order can be constructed This is a passionate call to arms for the anti capitalist movement It should be read by all engaged activists and students of political and critical theory

Historical Traces and Future Pathways of Poststructuralism Gavin Rae, Emma Ingala, 2020-11-11 This volume brings together an international array of scholars to reconsider the meaning and place of poststructuralism historically and demonstrate some of the ways in which it continues to be relevant especially for debates in aesthetics ethics and politics The book's chapters focus on the works of Butler Deleuze Derrida Foucault Irigaray Kristeva Lacan and Lyotard in combination with those of Agamben Luhman Nancy and Nietzsche and examine issues including biopolitics culture embodiment epistemology history music temporality political resistance psychoanalysis revolt and the visual arts The contributors use poststructuralism as a hermeneutical strategy that rejects the traditional affirmation of unity totality transparency and representation to instead focus on the foundational importance of open ended becoming difference the unknowable and expression This approach allows for a more expansive definition of poststructuralism and helps demonstrate how it has contributed to debates across philosophy and other disciplines *Historical Traces and Future Pathways of Poststructuralism* will be of particular interest to researchers in philosophy politics political theory critical theory aesthetics feminist theory cultural studies intellectual history psychoanalysis and sociology

Memories and Representations of Terror Daniel Feierstein, 2023-10-06 *Memories and Representations of Terror Working Through Genocide* explores how memories and representations shape our understanding of historical events particularly the ways in which societies create narratives about genocide and its aftermath using Argentina's last military dictatorship 1976-1983 and its contested legacy as a case study Feierstein examines how memories and representations of genocide are the terrain in which both the strategic objectives of genocide and the possibilities of challenging those objectives are contested These

memories and representations provide the foundation upon which critical judgments about the past are constructed and offer the potential for assuming responsibility and working through the consequences of genocide This book proposes that terror continues to hijack the actions and identities of surviving societies via a process of the construction of memories and social representations of the lived experience in a final stage of genocide Feierstein terms symbolic enactment In doing so Feierstein examines the contributions of various disciplines to comprehending memory processes and social representations It covers a range of topics from the nature of memory based on the neuroscientific discoveries of the last half century to psychoanalytic theories on the functioning of the mind including the role of psychic defense mechanisms the unconscious mind collective pacts of denial and different forms of desensitization It also explores historiographical debates between forms of history and forms of memory as well as sociological contributions to the analysis of social frames of memory cultural memory generational transmission and related issues The first volume of a three volume work that aims to identify and evaluate the various consequences of genocidal social practices and the possibility of healing the scars left on individuals subjectivities and the social fabric by genocide This book is essential reading for students and academics in the humanities and social sciences with an interest in genocide collective memory and identity *The Doppelgänger* Dimitris Vardoulakis, 2010 This book presents literature as the double of philosophy This relation is historically rooted in the genesis of the doppelgänger as literature's response to the philosophical focus on subjectivity the term doppelgänger was coined by the German author Jean Paul in 1796 as a critique of idealism's assertion of subjective autonomy individuality and human agency This critique prefigures late twentieth century extrapolations of the subject as decentered From this perspective the doppelgänger has a family resemblance to current conceptualizations of subjectivity It becomes the emblematic subject of modernity This book examines authors such as Franz Kafka Maurice Blanchot and Alexandros Papadiamantes and philosophers such as Immanuel Kant Walter Benjamin and Jacques Derrida to show how the doppelgänger emerges as a hidden and unexplored element both in conceptions of subjectivity and in philosophy's relation to literature Around the Point Roman Katsman, Ber Kotlerman, Hillel Weiss, 2014-03-17 Around the Point is a unique collection that brings to readers the works of almost thirty scholars dealing with Jewish literature in various Jewish and non Jewish languages such as Hebrew Yiddish Ladino French Italian German Hungarian Serbian Polish and Russian Although this volume does not cover all the languages of Jewish letters it is a significant endeavor in establishing the realm of multilingual international study of Jewish literature and culture Among the questions under discussion are the problems of the definition of Jewish identity and literature literary history language choice and diglossy lingual and cultural influences intertextuality Holocaust literature Kabbala and Hassidism Jewish poetics theatre and art and the problems of the acceptance of literature Literary Theory Julie Rivkin, Michael Ryan, 2017-01-23 The new edition of this bestselling literary theory anthology has been thoroughly updated to include influential texts from innovative new areas including disability studies eco criticism and ethics Covers all
