The Paradox Of Self Realization

Gene H. Outka

The Paradox Of Self Realization:

The Paradox of Self Realization Todd Vickers, 1999-12-15 Pilgrimage Into God Sicco Claus, 2023-04 Pilgrimage into God A Study of John Main s Meditation Oriented Spirituality is a comprehensive investigation of the heritage of the Benedictine monk John Main 1926 1982 This founder of a worldwide movement for Christian meditation understands meditation as an intentional transcending of all mental processes Contrary to popular opinion which associates meditation uniquely with Eastern traditions Main considers meditative practice to be essential and central to Christian faith This study not only explores Main s views on practise but also looks into his theology his understanding of spiritual growth and the ideal contexts for achieving such growth It does this by critically situating Main s spiritual teaching within the Christian tradition and exploring its relation to Charles Taylor s interpretation of the modern spiritual condition This study also aims at exploring how Main s heritage may contribute to illuminating Christian spiritual life today The Phenomenology of Self-Awareness and the Nature of Conscious Subjects Julien Bugnon, Martine Nida-Rümelin, Donnchadh O'Conaill, 2025-10-27 This volume explores the connections between the phenomenology of self awareness and the metaphysical nature of subjects of experience bringing together two important research areas in contemporary philosophy of mind into fruitful engagement with one another The phenomenology of self awareness concerns what it is like to be aware of oneself in various conscious experiences such as perceiving recollecting experiencing agency or emotions The metaphysical nature of subjects of experience raises questions concerning whether subjects are physical or non physical entities whether they are substances or bundles of properties and what it is for subjects to have experiences The ten original essays in this volume are grouped into thematic sections covering the following topics the nature of self awareness and its relation to conscious experience the metaphysical nature of the subject of experience and whether self awareness can reveal anything about the metaphysical nature of the subject Each chapter is accompanied by comments from another contributor to the volume and a response from the author The Phenomenology of Self Awareness and the Nature of Conscious Subjects will appeal to researchers and advanced students working in analytic philosophy of mind **Agape** Gene H. Outka, 1977-09-10 This study is the most comprehensive account to date of modern treatments of the love commandment Gene Outka examines the literature on agape from Nygren s Agape and Eros in 1930 Both Roman Catholic and Protestant writings are considered including those of D Arcy Niebuhr Ramsey Tillich and above all Karl Barth The first seven chapters focus on the principal treatments in the theological literature as they relate to major topics in ethical theory The last chapter explores further the basic normative content of agape and discusses some of the most characteristic problems The book is in my judgment the best recent work in religious ethics Outka brings together analytic moral philosophy and theological ethics providing a masterly survey of views and issues arising in the past forty years I can think of few books of interest to scholars in both philosophy and theology but Outka s is one Unlike some scholars who are at home in continental theology Outka is also at home in secular analytic

philosophy he brings them together in a mutually illuminating way Donald Evans Outka has mastered this vast literature on love and has brought a critical and clarifying analysis to bear upon it This is a most important book on a most important subject and brings the whole discussion into a new phase John Macquarrie The first thing to be said about Outka's book quite simply is that it is excellent in fact it is probably the very best available book about contemporary Christian ethical theory The Humanities Association Review

The Cambridge Handbook of Identity Michael Bamberg,Carolyn Demuth,Meike Watzlawik,2021-11-11 While identity is a key concept in psychology and the social sciences researchers have used and understood this concept in diverse and often contradictory ways The Cambridge Handbook of Identity presents the lively multidisciplinary field of identity research as working around three central themes i difference and sameness between people ii people's agency in the world and iii how identities can change or remain stable over time The chapters in this collection explore approaches behind these themes followed by a close look at their methodological implications while examples from a number of applied domains demonstrate how identity research follows concrete analytical procedures Featuring an international team of contributors who enrich psychological research with historical cultural and political perspectives the handbook also explores contemporary issues of identity politics diversity intersectionality and inclusion It is an essential resource for all scholars and students working on identity theory and research

The Oxford Handbook of Reinhold Niebuhr Robin Lovin,Joshua Mauldin,2021 This authoritative Handbook features 38 chapters placing Reinhold Niebuhr 1892 1971 in his historical context to offer readers an appreciation of his insights and how he was received by his contemporaries

Dewey's Ethical Thought Jennifer Welchman,2018-05-31 In the first book on the development of John Dewey's ethical thought Jennifer Welchman revises the prevalent interpretation of his ethics Her clear and engaging account traces the history of Dewey's distinctive moral philosophy from its roots in idealism during the 1890s through the pragmatist approach of his 1922 work *Human Nature and Conduct* Central to the development of Dewey's ethics was his lifelong conviction that the realms of science and morals facts and values were reconcilable This conviction Welchman demonstrates drove Dewey to reject the orthodox ethics of his day in favor of radical alternatives first absolute idealism and later pragmatism She reveals how Dewey came to adopt and subsequently to modify idealist ethics of self realization Welchman then explores the transformations in Dewey's conception of science that exploded the fragile truce between fact and value that he had negotiated as an idealist Finally she examines how Dewey developed his own instrumentalist accounts of moral value conduct and character that culminated in his best known work of ethics *Human Nature and Conduct*

Enduring Modernity Bert van den Bergh,Sabine Flick,Kieran Keohane,Domonkos Sik,2024-11-26 This book brings together the work of the late Anders Petersen presenting his exciting and innovative transdisciplinary paradigm that offers insights into anxiety depression and grief and the connection between these conditions and the failings of contemporary civilization that give rise to them With attention to the ways in which neoliberal hegemony and its imperatives of performance evaluation self realisation resilience

and flexibility lead to self criticism on the part of those who do not measure up to the prevailing criteria resulting in ailments of mental health it challenges the paradigmatic diagnosis of such conditions in terms of individual diseases or neurological malfunctions to be treated by medication and training in order to return the individual to work and life as normal An examination of the wrong headed approach to what Petersen analysed as contemporary social pathologies Enduring Modernity Depression Anxiety and Grief in the Age of Voicelessness will appeal to scholars of sociology and social theory seeking new understandings aimed at emancipation from social suffering
