Liberation *The Writings of Mao Zedong, 1949-1976: January 1956-December 1957* Zedong Mao,1986 *Parties as Governments in Eurasia, 1913-1991* Ivan Sablin,Egas Moniz Bandeira,2022-08-15 This book examines the political parties which emerged on the territories of the former Ottoman Qing Russian and Habsburg empires and not only took over government power but merged with government itself It discusses how these parties disillusioned with previous constitutional and parliamentary reforms justified their takeovers with programs of controlled or supervised economic and social development including acting as the mediators between the various social and ethnic groups in the respective territories It pays special attention to nation building through the party to institutions both constitutional and de facto and to the global and comparative aspects of one party regimes It explores the origins of one party regimes in China Czechoslovakia Korea the Soviet Union Turkey Yugoslavia and beyond the roles of socialism and nationalism in the parties approaches to development and state building as well the pedagogical aspirations of the ruling elites Hence by revisiting the dynamics of the transition from the earlier imperial formations via constitutionalism to one party governments and by assessing the internal and external dynamics of one party regimes after their establishment the book more precisely locates this type of regime within the contemporary world s political landscape Moreover it emphasises that one party regimes thrived on both sides of the Cold War and in some of the non aligned states and that although some state socialist one party regimes collapsed in 1989 1991 in other places historically dominant parties and new parties have continued to monopolize political power The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **CIA Publications Released to the Public** National Foreign Assessment Center (U.S.),1980 **Romania** ,1962 **Encyclopedia of European Peoples** Carl Waldman,Catherine Mason,2006 Presents an alphabetical listing of information on the origins prehistory history culture languages relationships to other cultures and more regarding European peoples
