sources ranging from the observations of Pliny the Elder to extremely rare texts such as the *Picatrix* and *Damigeron's Virtue of Stones*. Our ancestors believed stones were home to sacred beings or power entities that if properly understood and cultivated could provide people protection from ill fortune, envy, and witchcraft; grant invisibility and other magical powers; improve memory; and heal the sick from a wide variety of diseases. These benefits could be obtained by wearing the stone on a ring, bracelet, or pendant; through massage treatments with the stone; or by reducing the gem into a powder and drinking it mixed with water or wine. Drawing from a wealth of ancient Arabic, Greek, Jewish, and European sources from the observations of Pliny the Elder to extremely rare texts such as the *Picatrix* and *Damigeron's Virtue of Stones*, Claude Lecouteux provides a synthesis of all known lore for more than 800 stones. He includes such common examples as the emerald, which when engraved with the figure of a harpy holding a lamprey in its claws will banish panic and nightmares; and beryl, which when appropriately carved can summon water spirits or win its owner high renown, as well as more exotic stones such as *astrios*, a stone celebrated by ancient magicians and whose center glows like a star. Lecouteux also examines bezoars, stones formed in animals' bodies, as well as magnets that attract materials other than iron, such as gold, flesh, cotton, or scorpions. This comprehensive dictionary of sacred and magical gem lore, drawn from the rarest sources of Antiquity and the Middle Ages, represents a one-of-a-kind resource for gem enthusiasts and magical practitioners alike.
