

The capitalist system of production is an economic democracy in which every penny gives a right to vote. The consumers are the sovereign people. The capitalists, the entrepreneurs, and the farmers are the people's mandatories. If they do not obey, if they fail to produce, at the lowest possible cost, what

The Penny Capitalists:

The Penny Capitalists John Benson, 1983 This work examines the virtually ignored subject of working class entrepreneurial activity during the 19th and early 20th centuries By using a wide variety of oral and other evidence the author shows that far from being destroyed by urban industrial development penny capitalism remained a widespread and vital part of working day life He shows that the survival of penny capitalism has major implications for the understanding of some of the most important issues under discussion in labour and social history *The Penny Capitalists* John Benson, 1983 This work examines the virtually ignored subject of working class entrepreneurial activity during the 19th and early 20th centuries By using a wide variety of oral and other evidence the author shows that far from being destroyed by urban industrial development penny capitalism remained a widespread and vital part of working day life He shows that the survival of penny capitalism has major implications for the understanding of some of the most important issues under discussion in labour and social history *They Worked All Their Lives* Carl Chinn, 1988

Information, Social Relations and the Economics of High Technology Michael Perelman, 1991-06-18 A discussion of various types of capitalism and the evolution of the firm The book examines the concept of the firm in the context of class conflict and considers markets as an impediment to economic process Finally the book examines the use of computer software as a public good

Artisan Entrepreneurs in Cairo and Early-Modern Capitalism (1600-1800) Nelly Hanna, 2011-06-16 Little has been written about the economic history of Egypt prior to its incorporation into the European capitalist economy While historians have mined archives and court documents to create a picture of the commercial activities networks and infrastructure of merchants during this time few have documented a similar picture of the artisans and craftspeople Artisans outnumbered merchants and their economic weight was considerable yet details about their lives the way they carried out their work and their role or position in the economy are largely unknown Hanna seeks to redress this gap with *Artisan Entrepreneurs in Cairo and Early Modern Capitalism 1600 1800* by locating and exploring the role of artisans in the historical process Offering richly detailed portraits as well as an overview of the Ottoman Empire s economic landscape Hanna incorporates artisans into the historical development of the period portraying them in the context of their work their families and their social relations These artisans developed a variety of capitalist practices both as individuals and collectively in their guilds Responding to the demands of expanding commercial environments in Egypt and Europe artisans found ways to adapt both production techniques and the organization of production Hanna details the ways in which artisans defied the constraints of the guilds and actively engaged in the markets of Europe demonstrating how Egyptian artisan production was able to compete and survive in a landscape of growing European trade Deftly synthesizing a wide range of economic and historical theory Hanna reinvigorates the current scholarship on early Ottoman history and provides a persuasive challenge to the largely shallow perception of artisans role in Egypt s economy

The Business of Women Melanie Buddle, 2011-01-01 In the past Western women inhabited a

conceptual space divorced from the world of business Historians have consequently tended to overlook the experiences of women entrepreneurs Who were these women and how were they able to justify their work outside the home The Business of Women explores the world of women entrepreneurs in early twentieth century British Columbia Contrary to expectation the typical businesswoman was not unmarried or particularly rebellious but a woman who reconciled entrepreneurship with her femininity and her identity as a wife mother or widow The entrepreneurial woman was the product of a frontier ethos in British Columbia that translated into higher rates of marriage for women and more married women working outside the home than in any other province in Canada Like men they worked to support their families **Soldiers as Workers** Nick Mansfield,2016-03-10 This book offers the first encounter between labour history and military history with an analysis of the working lives of nineteenth British rank and file soldiers in the context of a developing working class industrial culture and in its interaction with British society **Go Ye and Study the Beehive** Jeannette Rodda,2021-12-12 First published in 2000 More than any other occupation the long history of mining raises issues of class and dependency of men women and children bound to permanent wage work or forced labor underground with small hope of securing an independent living Like all popular images perceptions of workers reveal as much about the nature of the dominant culture as about the complex experiences of workers themselves The main purpose of this study is to document and analyze the development of working class culture in the mining camps of the American West **Case Studies on Human Rights and Fundamental Freedoms** Willem A. Veenhoven,2024-09-09 **Behind the Counter** Pamela Horn,2015-01-15 The story of the shopworkers who emerged during the Victorian and Edwardian era to cater for all clientele from behind the counters of the increasing number of shops and lavish department stores
