within the global economy In 1945 he predicted the rise and persistence of inflation when taxation levels exceeded 25 per cent of GNP And he was also the first economist to debunk post war predictions of mass hunger by arguing that rapid population growth engendered economic development Clark wandered through the fields of applied economics in much the same way as he rambled through the English countryside and the Australian bush His imaginative wanderings qualify him as the eminent gypsy economist for the 20th century **The World's Largest Humanitarian Agency** D.
