The concept of being with developed by the philosopher Jean Luc Nancy asks a fundamental question about human life inasmuch as we have always been and will be co existent with people and environments All modes of sense making and subjectivation but also presence can only occur within a context and through interaction This is why historical forms of theater have frequently been viewed as sites of communality and why critical approaches have questioned concepts such as sense meaning and habitus Like literature theater has also inherited the scene of myth It satisfies our need for narration interpretation and to share in something In turn the joint creation of meaning in scenic practices is also part of the traditional idealization of the theater but is this ideal purely mythical The authors of this book investigate and explore how meaning is being questioned or liberated in contemporary performances and how individual thinking action can be articulated to others paving the way for other gestures theatrical processes of recognition and the performative sharing process of sense making

included one of his sermons Of course the publication of these Selecta can pay tribute only to the writings of Ernst Specker It cannot adequately express his originality and wisdom as a person nor the fascination he exercises over his students colleagues and friends We can do no better than to quote from Hao Wang in the Festschrift Logic and Algorithmic I Specker was ill for an extended period before completing his formal education He had the leisure to think over many things This experience may have helped cultivating his superiority as a person In terms of traditional Chinese categories I would say there is a taoist trait in him in the sense of being more detached less competitive and more understanding I believe he has a better sense of what is important in life and arranges his life better than most logicians We are grateful to Birkhauser Verlag for the production of this Selecta volume Our special thanks go to Jonas Meon for sharing with us his intimate knowledge of his friend Ernst Specker

Transforming the Sacred into Saintliness Wolfgang Palaver,2021-02-04 Studies into religion and violence often put religion first Ren Girard started with violence in his book Violence and the Sacred and used the Durkheimian term sacred as

its correlate in his study of early religions During the unfolding of his theory he more and more distinguished the sacred from saintliness to address the break that the biblical revelation represented in comparison to early religions This distinction between the sacred and saintliness resembles Henri Bergson s complementing Emile Durkheim s identification of the sacred and society with a dynamic religion that relies on individual mystics Girard s distinction also relates to the insights of thinkers like Jacques Maritain Simone Weil and Emmanuel Levinas This element explores some of Girard s main features of saintliness Girard pleaded for the transformation of the sacred into holy not their separation **Plays Of Max Frisch**
