Developmental and Cultural Nationalisms Radhika Desai, 2013-10-18 Premature announcements of the eclipse of nation

states under globalization and empire stand exposed as the 21st century's first economic crisis underlines their continuing importance. A predominantly cultural study of nationalism was unable to resist the globalization thesis. Focusing on selected Asian cases, this book argues that nationalisms have always contained political economies as well as cultural politics. Placing nation states centrally in our understanding of modern capitalism, it challenges the globalization thesis. Rather than eclipse nations and nationalisms, they have undergone changes under the impact of neoliberalism since the 1970s. Classical 20th century developmental nationalisms emphasised citizenship, economy and future orientations. Later cultural nationalisms, Asian values, Hindutva, Confucianism or Nihonjiron stressed identity, culture and past orientations. Amid neoliberalism's flagrantly unequal political economy, not primarily concerned with material production or productivity, they glorified static conceptions of original cultures and identities, whether religious, ethnic or other, and justified inequality as cultural difference. In contrast to the popular mobilizations which powered developmental nationalisms, cultural nationalisms thrived on neoliberalism's disengagement and disenfranchisement, albeit partially compensated by the political baptism of newly enriched groups. Extremist wings of cultural nationalism in some countries were a function of this lack of popular support. This book was published as a special issue of *Third World Quarterly*. *The Long War - Insurgency, Counterinsurgency and Collapsing States* Mark T. Berger, Douglas A. Borer, 2013-09-13. The rise and fall of the Cold War coincided with the universalization and consolidation of the modern nation state as the key unit of the wider international system. A key characteristic of the post Cold War era, in which the US has emerged as the sole superpower, is the growing number of collapsing or collapsed states. A growing number of states are or have become mired in conflict or civil war, the antecedents of which are often to be found in the late colonial and Cold War era. At the same time, US foreign policy and the actions of other organizations such as the United Nations may well be compounding state failure in the context of the post 9/11 Global War on Terror (GWOT) or what is also increasingly referred to as the Long War. The Long War is often represented as a new era in warfare and geopolitics. This book acknowledges that the Long War is new in important respects but it also emphasizes that the Long War bears many similarities to the Cold War. A key similarity is the way in which insurgency and counterinsurgency were and continue to be seen primarily in the context of inter-state rivalry, in which the critical local or regional dynamics of revolution and counter-revolution are marginalized or neglected. In this context, American policy makers and their allies have again erroneously applied a grand strategy that suits the imperatives of conventional military and geo-political thinking rather than engaging with what are a much more variegated array of problems facing the changing global order. This book provides a collection of well-integrated studies that shed light on the history and future of insurgency, counterinsurgency and collapsing states in the context of the Long War. This book was previously published as a special issue of *Third World Quarterly*. **Understanding India's New Political Economy** Sanjay Ruparelia, Sanjay Reddy, John Harriss, Stuart Corbridge, 2011-03-09. A number of large-scale transformations have shaped the economy, polity and society of India over the past quarter century. This book

provides a detailed account of three that are of particular importance the advent of liberal economic reform the ascendance of Hindu cultural nationalism and the empowerment of historically subordinate classes through popular democratic mobilizations Filling a gap in existing literature the book goes beyond looking at the transformations in isolation managing to Explain the empirical linkages between these three phenomena Provide an account that integrates the insights of separate disciplinary perspectives Explain their distinct but possibly related causes and the likely consequences of these central transformations taken together By seeking to explain the causal relationships between these central transformations through a coordinated conversation across different disciplines the dynamics of India s new political economy are captured Chapters focus on the political economic and social aspects of India in their current and historical context The contributors use new empirical research to discuss how India s multidimensional story of economic growth social welfare and democratic deepening is likely to develop This is an essential text for students and researchers of India s political economy and the growth economies of Asia

The Paradox of Liberation Michael Walzer,2015-03-01 Many of the successful campaigns for national liberation in the years following World War II were initially based on democratic and secular ideals Once established however the newly independent nations had to deal with entirely unexpected religious fierceness Michael Walzer one of America s foremost political thinkers examines this perplexing trend by studying India Israel and Algeria three nations whose founding principles and institutions have been sharply attacked by three completely different groups of religious revivalists Hindu militants ultra Orthodox Jews and messianic Zionists and Islamic radicals In his provocative well reasoned discussion Walzer asks why these secular democratic movements have failed to sustain their hegemony Why have they been unable to reproduce their political culture beyond one or two generations In a postscript he compares the difficulties of contemporary secularism to the successful establishment of secular politics in the early American republic thereby making an argument for American exceptionalism but gravely noting that we may be less exceptional today

Development and Dispossession in the Narmada Valley Judith Whitehead,2010 Globalization and Religious Nationalism in India Catarina Kinnvall,2007-01-24 Exploring the effects of globalization in India and the problem of identity formation this book contributes to the theoretical and empirical debate on identity globalization religious nationalism and in security The author puts forward a new approach based on political psychology to interpret identity construction which is seen as an individualized process where interactions of the global and the local are intimately implicated Thereby this book presents a psychological analysis of how increased insecurity affects individuals and groups attachments to religious nationalism in an era of globalization Developing an interesting angle on a recognized issue of concern in the politics of South Asia and much more broadly in the context of the contemporary world and developing global politics this is a valuable addition to normative critical social theory and the debate on identity and culture in political science and international relations appealing to an inter disciplinary audience

Social Movements and the State in India Kenneth Bo Nielsen,Alf Gunvald Nilsen,2016-11-23 Questions of the extent to

which social movements are capable of deepening democracy in India lie at the heart of this book. In particular, the authors ask how such movements can enhance the political capacities of subaltern groups and thereby enable them to contest and challenge marginality, stigma and exploitation. The work addresses these questions through detailed empirical analyses of contemporary fields of protest in Indian society ranging from gender and caste to class and rights based legislation. Drawing on the original research of a variety of emerging and established international scholars, the volume contributes to an engaged dialogue on the prospects for democratizing Indian democracy in a context where neoliberal reforms fuel a contradictory process of uneven development. *The ^APolitical Psychology of Globalization* Catarina Kinnvall, Paul

Nesbitt-Larking, 2011-07-29 In an increasingly globalized world there are new economic, strategic, cultural and political forces at work. *The Political Psychology of Globalization* Muslims in the West explores how these shifts and shocks have influenced the way in which Muslim minorities in six western countries form their identities as political actors. The authors uncover three identity strategies adopted by Muslims in the West: retreatism, essentialism and engagement. *Democracy and Civil*

Society in Asia: Volume 1 F. Quadir, J. Lele, 2004-03-31 This edited volume brings together a number of well known scholars and activists from various parts of the world to present critical perspectives on recent and long term trends in the economic, socio-cultural and political life of the people of Asia and examines the policies and constraints faced by the nation states of the region. It contributes to and enriches the current debates on globalization, the prospects for democracy and sustainable human development. The book offers an incisive assessment of the role of civil society in creating a democratic political culture in Asia. *Narratives of Gendered Dissent in South Asian Cinemas* Alka Kurian, 2012

This book conducts a post-colonial, gendered investigation of women-centred South Asian films. In these films, the narrative becomes an act of political engagement and a site of feminist struggle: a map that weaves together multiple strands of subjectivity, gender, caste, race, class, religion and colonialism. The book explores the cinematic construction of an oppositional narrative of feminist dissent with a view to elaborate a historical understanding and theorisation of the materiality and politics of the everyday struggle of Indian women. The book analyzes the ways that cultural workers have tended to use subversive narratives as a tool of resistance. Narratives that are political, ideological, classed, raced and gendered offer the focus of this exploration. Through strategies of disclosure and documentation of memory, personal experiences and imaginary events shaped by the larger historical, political and cultural contexts, these discursive texts engage in the processes of struggle against a plethora of oppression, caste, class, religion, patriarchal, sexual and neo-colonial. The study looks at the manner in which, through their creative and aesthetic interventions, South Asian film makers enable the articulation of an alternative, gendered subjectivity as well as constitute the ground for personal and collective empowerment. Films discussed include Shyam Benegal's *Nishaant*, Nandita Das' *Firaaq*, Beate Arnestad's *My Daughter the Terrorist* and Sarah Gavron's *Brick Lane*. **New Cultural**

Identitarian Political Movements in Developing Societies Sebastian Schwecke, 2012-12-06 Applying an intercultural and

comparative theoretical approach across Asia and Africa this book analyses the rise and moderation of political movements in developing societies which mobilise popular support with references to conceptions of cultural identity The author includes not only the Hindu nationalist movement but also many Islamist political movements in a single category New Cultural Identitarian Political Movements NCIPM Demonstrating significant similarities in the pattern of evolution between these and European Christian Democracy the book provides an instrument for the analysis of these movements outside the parameters of the fundamentalism debate The book looks at a number of key variables for understanding the evolution of NCIPM and it goes on to analyse the transition of developing societies from rent based political economies to capitalism and the partial failure of this transition process It argues that there is a need to incorporate economic and class analysis in the study of political processes in developing societies against the continuing emphasis on cultural factors associated with the cultural turn of social sciences The book is an interesting contribution to studies in South Asian Politics as well as Comparative Politics

Demography and Democracy Himani Bannerji, 2011 A collection of recent essays and articles *Demography and Democracy* is Himani Bannerji's engagement with the nationalist currents that have become such crucial topics of discussion and debate in recent years Topics covered include Hindu nationalism Zionism subaltern studies the novels of Rabindranath Tagore and issues of knowledge ideology and representation around the US invasion of Afghanistan The essays are written from an anti imperialist Marxist feminist standpoint and offer a bracing critique of contemporary ideologies

The Ideological Condition: Selected Essays on History, Race and Gender Himani Bannerji, 2020-09-25 *The Ideological Condition* Selected Essays on History Race and Gender is a reader comprised of many of Himani Bannerji's English writings over a long period of teaching and research in Canada and India Bannerji creates an interdisciplinary analytical method and extends the possibilities of historical materialism by predominantly drawing on Marx Gramsci and Dorothy Smith Essays here instantiate Marx's general proposition that while all ideology is a form of consciousness all forms of consciousness are not ideological Applying this insight to issues ranging from patriarchy through race class nationalism liberalism and fascism Bannerji breaks through East West binaries challenging the mystifying approaches to the constitution of the social and shows that a sustained struggle against ideological thinking is at the heart of a fundamental socialist struggle Shortlisted for the Deutscher Memorial Prize 2021

The Other India Om Prakash Dwivedi, 2013-01-03 This book engages with critical issues which create a proper understanding of how identities and belonging are imagined and constructed in postcolonial India The contributors have examined various texts and movies to discuss the implicit communal nature of postcolonial India The book attempts to discuss the different ways in which India is badly plagued by communal politics and terrorism and to offer a cogent alternative for creating a strong solidarity among different communities in India
