"*Slowly, Slowly, Slowly,*" said the Sloth Eric Carle,2020-08-11 Slowly slowly slowly that s the way the sloth moves Slowly it eats and then slowly it falls asleep What strange kind of creature is this the other animals wonder Why doesn t it run or fly or play or hunt like the rest of us Why are you so slow the howler monkey inquires But the sloth doesn t answer any questions until the jaguar asks Why are you so lazy Anyone who has ever felt too busy will appreciate the sloth s peaceful lifestyle and realize that it s okay to take time to enjoy life Eric Carle s dazzling collage illustrations introduce readers to the exotic beauty of the Amazon rain forest and the many unusual animals living there "Slowly, Slowly, Slowly," Said the Sloth Eric

Carle,2002 Overview Slowly slowly slowly that s how the sloth lives He hangs upside down from the branch of a tree night and day in the sun and in the rain while the other animals of the rain forest rush past him Why are you so slow Why are you so quiet Why are you so lazy the others ask the sloth And after a long long long time the sloth finally tells them Set in the lush world of the tropical rain forest this original picture book is an exquisite showcase of Eric Carle s colorful collage art with a meaningful message Slow down Take time to enjoy your world Challenged by the other jungle animals for its seemingly lazy ways a sloth living in a tree explains the many advantages of his slow and peaceful existence *Slowly Slowly Slowly said the Sloth(Step 1)* (□□□ 1□ □□) □□□□□□□□,2005-02-03

Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. commodities automobiles gasoline refrigerators beef and harp seals In these fascinating histories we learn for example that American officials ignored warnings about the dangers of lead in gasoline in the 1920s why China is now a leading producer of CFC free refrigerators and how activists were able to stop Canada s commercial seal hunt in the 1980s but are unable to do so now Dauvergne s innovative analysis allows us to see why so many efforts to manage the global environment are failing even as environmentalism is slowly strengthening He proposes a guiding principle of balanced consumption for both consumers and corporations We know that we can make things better by driving a high mileage car eating locally grown food and buying energy efficient appliances but these improvements are incremental local and insufficient More crucial than our individual efforts to reuse and recycle will be reforms in the global political economy to reduce the inequalities of consumption and correct the imbalance between growing economies and environmental sustainability
