SMALL UNIT LEADERSHIP

A Commonsense Approach

What does it take to get the job done? How do you get the men in your unit to do what you say? To follow you into battle and shoot to kill? How do you build the confidence that spurs men on to do their job, to stand by their leader and each other?

Israelis had was the quality of leadership at the small unit level This study begins with a brief review of the strategic and operational situation in the Middle East in 1973 This includes background information on the Israeli and Arab forces facing each other on the Golan Heights and their plans for the defense and attack respectfully prior to the start of hostilities The majority of the thesis discussion is concerned with the actual battle on the Golan Heights It highlights the contributions that small unit leadership made during the battle that allowed the vastly outnumbered IDF to destroy a massive Soviet style Arab army This portion of the study also looks at the experiences of those Israeli leaders involved in the fighting The study then looks at leadership from the Israeli perspective I define what leadership is and why it is important at the small unit level I take a close look at how the Israeli Defense Force IDF picks and trains its leaders and what role the Israeli Military Culture plays in that process The conclusion of the thesis is that the IDF was able to fight and win even though surprised and vastly outnumbered due to the quality of leadership at the small unit level This lesson may prove to be important still today as the armies of the Western societies continue to get smaller even though they still face the threat of fighting the massive Soviet style armies of the Axis of Evil for decades to come
