researchers advanced students and policy makers *A Research Agenda for Entrepreneurship Policy* David Smallbone, Friederike Welter, 2020-07-31 This book makes the case for a change in the research agenda on entrepreneurship policy An exemplary group of authors addresses the agenda for entrepreneurship policy researchers policy makers and practitioners in the field A key theme is the importance of context which is particularly marked where policy transfer is attempted *Critical Perspectives on Innovation Management* Patryk Dziurski, 2021-11-28 Most firms perceive innovation as the best way to grow However how it can best be managed is still unclear While the number of publications on innovation has skyrocketed over the past two decades it is still increasingly difficult to gain an overview of its most critical aspects Much has been written about the possible benefits of innovation but there is still a lack of understanding of its downsides at the innovative firm level This can lead to detrimental effects such as a lower commitment to innovation a lack of effective innovation strategy inappropriate organizational design that does not enhance innovation and either a too cautious or too risky approach to innovation Thus the book aims to explore the concept of innovation management as well as to identify the bright and dark sides of innovation in innovative firms A better understanding of the positive and negative effects of product and process innovation expands the knowledge base on innovation management and allows managers to manage innovation in a more efficient and effective manner This book will be valuable to researchers academics managers and advanced students in the fields of management studies strategy and organizational studies *Entrepreneurship As Practice* Neil Aaron Thompson, Karen Verduijn, William B. epistemologies to be heard in the management discourse With its focus on power imbalances struggles for emancipation from oppression and distrust of capitalism CMS provides the peripheral point of view with a voice CMS presents a space where scholars can engage with South African realities surrounding political cultural social and historical contexts and issues in management This book is promoting CMS to the scholarly community to show that there are exciting possibilities being offered by a different approach to management scholarship This book also forms part of a larger project of growing CMS in South Africa and is a collection of original works by academics actively working in CMS following various methodological approaches which can be categorised into two broad methodological categories namely conceptual work and empirical work following an Interpretive approach
