Educating for Democracy Daniel Schugurensky,Tara Bartlett,2024-08-06 This captivating book provides a detailed examination of school participatory budgeting SPB a process that combines school democracy civic engagement and citizenship education Presenting insights from SPB processes across the globe it advocates for the wider rollout of programs which amplify students voices their deliberative capacities and decision making power while improving school climate and campus infrastructure **Trace Metals and Fluoride in Bones and Teeth** Nicholas D. Priest, Frank Van de Vyver,2024-12-20 This volume is a comprehensive introduction to the analysis binding uptake metabolism kinetics modeling distribution occurrence toxicity and chelation of metals and fluoride in the body with special reference to mineralized tissues Both toxic and relatively harmless polyvalent cations and anions are considered Included are some which are stable and others which are radioactive While a number are essential trace elements others have no known metabolic role Most chapters are concerned with the uptake of bone seeking ions by the living skeleton but aspects of the post mortem uptake of metals and the process of fossilization are also considered Highlighted are the utility of modern analytical techniques and the more important bone seeking elements including aluminum lead cadmium fluorine and the radioactive heavy metals including uranium and plutonium This important publication is of particular value to those in the fields of biochemistry radioactive waste geology physiology dentistry orthopedics radiology and nuclear medicine urology industrial hygiene pharmacology anthropology paleontology and archeology Metallurgical Tables Used at the School of Mines, Columbia College, New York Thomas Egleston,1877 Schools of Democracy Julien Talpin,2024-10-31 Schools of Democracy offers a vivid analysis of the long term impact of engagement in participatory budgeting institutions in Europe While democratic innovations flourish around the world there have been great hopes for their potential to revitalize representative government and solve the increasing apathy of the public Based on a rich ethnographic study in France Italy and Spain this book shows how participatory institutions can encourage personal involvement by creating the procedural and social conditions conducive to the formation of a competent and involved citizenry Rather than deliberation itself it seems that informal discussions and interactions between a diverse public allow mutual learning and the beginning of a political trajectory for people at the margins of the public sphere However this book also shows that citizens can become disappointed by the little decision making power they are granted as they leave the process often more cynical than before Contains A unique study on the long term individual impact of engagement in participatory institutions While most research deal with short term impact Schools of democracy addresses impact of participation after two years of engagement Unique access to the black box of participatory institutions While research on democratic innovations generally opt for an externalist perspective Schools of

democracy details the routine of deliberative interactions showing how ordinary citizens speak up in public assemblies From this perspective the book offers incredibly rich empirical material coming from ethnographic research on how participatory democracy works An original theoretical framework to the study of the individual impacts of participatory engagement While most research are based on an implicit rational choice perspective the pragmatist perspective adopted here sheds a different light on the studied phenomenon stressing the co construction of actors and their environment
