Virginia Couse Leavitt, 2019-01-24 Eanger Irving Couse 1866 1936 showed remarkable promise as a young art student His lifelong interest in Native American cultures also started at an early age inspired by encounters with Chippewa Indians living near his hometown Saginaw Michigan After studying in Europe Couse began spending summers in New Mexico where in 1915 he helped found the famous Taos Society of Artists serving as its first president and playing a major role in its success This richly illustrated volume featuring full color reproductions of his artwork is the first scholarly exploration of Couse s noteworthy life and artistic achievements Drawing on extensive research Virginia Couse Leavitt gives an intimate account of Couse s experiences including his early struggles as an art student in the United States and abroad his study of Native Americans his winter home and studio in New York City and his life in New Mexico after he relocated to Taos In examining Couse s role as one of the original six founders of the Taos Society of Artists the author provides new information about the art colony s early meetings original members and first exhibitions As a scholar of art history Leavitt has spent decades researching her subject who also happens to be her grandfather Her unique access to the Couse family archives has allowed her to mine correspondence photographs sketchbooks and memorabilia all of which add fresh insight into the American art scene in the early 1900s Of particular interest is the correspondence of Couse s wife Virginia Walker an art student in Paris when the couple first met Her letters home to her family in Washington State offer a vivid picture of her husband s student life in Paris where Couse studied under the famous painter William Bouguereau at the Acad mie Julian Whereas many artists of the early twentieth century pursued a radically modern style Couse held true to his formal academic training throughout his career He gained renown for his paintings of southwestern landscapes and his respectful portraits of Native peoples Through his depictions of the domestic and spiritual lives of Pueblo Indians Couse helped mitigate the prejudices toward Native Americans that persisted during this era Kenneth Chapman's Santa Fe Kenneth Milton Chapman, 2008-02-11 The

Finally an extensive literary study of the three main Fausts concludes with a coda on the future of music In the Beginning Was the Deed is lucid and direct tinged with wry humor Redner represent Man in the nuclear age and reflects on that representation seeking to comprehend our era draw ethical and political conclusions and explore action as a response to the threat of annihilation This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982

The Breakdown of Nations Leopold Kohr, 2017-01-01 A fascinating manifesto proposing that the world should be split into smaller regions to distribute power more evenly Written by one of the most original political thinkers of the 20th century in The Breakdown of Nations Leopold Kohr shows that throughout history people living in small states are happier more peaceful more creative and more prosperous He argues that virtually all our political and social problems would be greatly diminished if the world s major countries were to dissolve back into the small states from which they sprang Rather than making even larger political unions in the mistaken belief that this will bring peace and security we should minimise the aggregation of power by returning to a patchwork of small relatively powerless states where leaders are accessible to and responsive to the people Originally published in 1957 this new edition features forewords by Neal Ascherson and Richard Body The material has been

noted for its striking relevance to the current political situation with globalisation war nuclear weapons and the rise of electronic gadgets leading to concern over whether we should re examine the implications of the size of political groupings whether they be states nations or federations In these turbulent times recognise the beauty and potential in small political nations with this inspiring read **Passions in Print** Pamela S.
