Education for Values: Morals, Ethics and Citizenship in Contemporary Teaching Jo Cairns,Roy Gardner,Denis Lawton,2013-05-13 Values in education in terms of both how they are taught and of the ethics of teaching itself are an area of lively debate This text provides a resource of ideas issues and practice for all those with an interest in this area of education The International Handbook on Innovation Larisa V Shavinina,2003-10-16 The breadth of this work will allow the reader to acquire a comprehensive and panoramic picture of the nature of innovation within a single handbook

Instructional-design Theories and Models Charles M. Reigeluth,2013-05-13 Instructional theory describes a variety of methods of instruction different ways of facilitating human learning and development and when to use and not use each of those methods It is about how to help people learn better This volume provides a concise summary of a broad sampling of new methods of instruction currently under development helps show the interrelationships among these diverse theories and highlights current issues and trends in instructional design It is a sequel to *Instructional Design Theories and Models An Overview of Their Current Status* which provided a snapshot in time of the status of instructional theory in the early 1980s Dramatic changes in the nature of instructional theory have occurred since then partly in response to advances in knowledge about the human brain and learning theory partly due to shifts in educational philosophies and beliefs and partly in response to advances in information technologies These changes have made new methods of instruction not only possible but also necessary in order to take advantage of new instructional capabilities offered by the new technologies These changes are so dramatic that many argue they constitute a new paradigm of instruction which requires a new paradigm of instructional theory In short there is a clear need for this Volume II of *Instructional Design Theories and Models* To attain the broad sampling of methods and theories it presents and to make this book more useful for practitioners as well as graduate students interested in education and training this volume contains twice as many chapters but each half as long as the ones in Volume I and the descriptions are generally less technical Several unique features are provided by the editor to help readers understand and compare the theories in this book Chapter 1 which discusses the characteristics of instructional theory and the nature of the new paradigm of instruction helps the reader identify commonalities across the theories Chapter

forewords which summarize the major elements of the instructional design theories are useful for reviewing and comparing theories as well as for previewing a theory to decide if it is of interest and for developing a general schema that will make it easier to understand Editor s notes provide additional help in understanding and comparing the theories and the new paradigm of instruction to which they belong Units 2 and 4 have introductory chapters to help readers analyze and understand the theories in those units This is an essential book for anyone interested in exploring new approaches to fostering human learning and development and thinking creatively about ways to best meet the needs of learners in all kinds of learning contexts Readers are invited to use Dr Charles Reigeluth s Web site to comment and to view others comments about the instructional design theories in this book as well as other theories Point your browser to www.indiana.edu/idtheory

The Intelligent Eye David N. Perkins,1994 Demonstrates how attentive observation of art provides an excellent opportunity for the cultivation of the art of intelligence *Alternatives in Assessment of Achievements, Learning Processes and Prior Knowledge* Menucha Birenbaum,F. Dochy,2012-12-06 Achievement assessment has undergone a major shift from what some call a culture of testing to a culture of assessment Nowadays a strong emphasis is placed on the integration of assessment and instruction on assessing processes rather than just products and on evaluating individual progress relative to each student s starting point This book addresses assessment issues in light of the present state of affairs The first part discusses new alternatives in the assessment of achievement in various subject areas focusing on agenda practice impact and evaluation of the assessment The second part deals with issues related to assessment of the learning process specifically questions concerning the assessment of individual differences in prior knowledge learning skills and strategies *Greater Expectations* William Damon,2010-06-15 Greater Expectations is the book that exposed the low standards that children are confronted with in our homes our schools and throughout our culture It exploded many of the misconceptions about children and how to raise them including the cult of self esteem child centered learning and other overly indulgent practices that have been watering down the education and guidance that we are providing our young people It disclosed how the self centered ethic is damaging our youth Greater Expectations started America talking about these issues and about how young people need to be provided with challenges and a sense of purpose if we want them to survive and thrive in life Provocative and challenging Greater Expectations was a wake up call a must read for anyone concerned about the growing youth crisis in America and what we can do about it **Science Education at the Nexus of Theory and Practice** ,2008-01-01 This book is a compilation of papers from the inaugural International Science Education Conference held at the National Institute of Education Singapore The title Science Education at the Nexus of Theory and Practice reflects a pressing yet ongoing concern worldwide to integrate theory and practice in science education and the reader will find something of interest to both science education practitioners and researchers The editors have decided to engage in written dialogue before each of the three sections to enrich the experience Divided into three key sections A Concepts conceptual change and science learning B

science teacher development and learning and C access to science accessible science the 19 chapters will engender food for thought and in all likelihood transform classroom practices All the contributors here provide important insights into the diverse education systems cultural backgrounds and societal norms through which science education can be realized

Applying Standards-Based Constructivism Pat Flynn, Don Mesibov, Paul Vermette, 2013-10-11 This book provides teachers with practical ways of constructing lessons that will engage students and help them develop personal responsibility for their own learning

Brain-Compatible Classrooms Robin J. Fogarty, 2009-04-15 Summarizing research from theorists such as Robert J Marzano and Daniel Goleman this revised volume helps educators understand and utilize brain research to build high achievement classrooms

Teaching for Effective Learning in Higher Education N. Hativa, 2012-12-06 Research on teaching in higher education shows that students who are well taught learn more than students who are poorly taught and there are some teaching behaviors and strategies that are consistently associated with good teaching This book identifies these strategies and presents them within a theoretical framework that explains how they promote students active and meaningful learning By presenting teaching as a logical structure of interconnected behaviors whose contribution to student learning is based on theory and research the book promotes teachers pedagogical knowledge and their perception of teaching as scholarly intellectual work The book provides extensive practical advice that is based on the vast experience of the author as an instructional consultant and on research on accomplished teachers taken from the domains of education psychology and speech communication The practical ideas are separated from the theoretical part in a way that makes them easily identifiable The book also puts forth the voice of the students through authentic comments that they wrote in thousands of instructor evaluation forms that the author collected over many years

Multimodal Perspectives of Language, Literacy, and Learning in Early Childhood Marilyn J. Narey, 2017-01-03 Our image rich media dominated culture prompts critical thinking about how we educate young children In response this volume provides a rich and provocative synthesis of theory research and practice that pushes beyond monomodal constructs of teaching and learning It is a book about bringing sense to 21st century early childhood education with sense as related to modalities sight hearing and sense in terms of making meaning It reveals how multimodal perspectives emphasize the creative transformative process of learning by broadening the modes for understanding and by encouraging critical analysis problem solving and decision making The volume s explicit focus on children s visual texts art facilitates understanding of multimodal approaches to language literacy and learning Authentic examples feature diverse contexts including classrooms homes museums and intergenerational spaces and illustrate children s sense making of life experiences such as birth identity environmental phenomena immigration social justice and homelessness This timely book provokes readers to examine understandings of language literacy and learning through a multimodal lens provides a starting point for constructing broader multimodal views of what it might mean to make meaning and underscores the production and interpretation of visual texts as meaning making

processes that are especially critical to early childhood education in the 21st century *Jump-Start the Adult Learner* Laurie Materna, 2007-05-24 Overall this text is a very interesting read with significant applicability to both advisors and faculty The creative advisor will have no problem synthesizing Materna s ideas and theories of brain compatible learning strategies into daily interactions with students and faculty Jennifer Varney Hesser College Use these interactive strategies to help adults become more self directed in their learning improve their ability to comprehend and apply complex information and unleash their creative potential
