Odour in Textiles G. Thilagavathi, R. Rathinamoorthy, 2022-03-17 Odour in Textiles Generation and Control presents the essential science and mechanisms behind the formation of odours in textiles It discusses consumer perception of odour in clothing the mechanism of odour formation in the skin and the role of textile fibres and structures in odour formation It also discusses odour controls and testing methods

available for measurement of odours in textiles Features Fills a gap in the literature as the first book to focus on textile and odour interaction Discusses microbiological aspects of odour formation in simple terms Details the role of textile fibres and structures on odour formation Describes various testing methods standards and regulatory norms for odour analysis This book will appeal to a broad audience including industry professionals in the textiles industry hygiene and health care the chemical and finishing industry and odour measurement and testing It will also interest advanced students and research scholars studying textile engineering clothing science and fashion design Community Data Rahul Bhargava,2024-11-04 Community Data offers a new toolkit for data storytelling in community settings one purpose built for goals like inclusion empowerment and impact Data science and visualization has spread into new domains it was designed for community organizing education journalism civic governance and more The dominant computational methods and processes which have not changed in response are causing significant discriminatory and harmful impacts documented by leading scholars across a variety of populations Informed by 15 years of collaborations in academic and professional settings with nonprofits and marginalized populations the book articulates a new approach for aligning the processes and media of data work with social good outcomes learning from the practices of newspapers museums community groups artists and libraries This book introduces a community driven framework as a response to the urgent need to realign data theories and methods around justice and empowerment to avoid further replicating harmful power dynamics and ensure everyone has a seat at the table in data centered community processes It offers a broader toolbox for working with data and presenting it pushing beyond the limited vocabulary of surveys spreadsheets charts and graphs *Applied Olfactory Cognition* Gesualdo M Zucco, Benoist Schaal,Mats Olsson,Ilona Croy,2014-12-02 Foreword by Richard J Stevenson Macquarie University Australia It was long thought that the human nose might be able to discriminate somewhere in the order of 10 000 different odourants The recent finding that the human nose can discriminate something like a trillion different smells serves as yet another reminder that we have again underestimated the capacity of our sense of smell Bushdid Magnasco Vosshall Keller 2014 This volume serves as a further corrective for anyone who should hold the view that olfaction is unimportant in human affairs The papers presented in this ebook carefully collated and overseen by Aldo Zucco Benoist Schaal Mats Olsson and Ilona Croy showcase a large number of quite different reasons for studying the applied side of olfaction and indeed human olfaction in general The 23 contributions presented here cover a broad range of topics which illustrate contemporary interests in our field Although with a strong applied focus a noteworthy feature of this ebook is the richness of the theoretical perspectives that are developed These range from considerations of olfactory perception memory expertise and priming right the way through to receptor genetics These contributions from many leading experts in the field will surely shape much of the applied work linking olfaction to disease which is a further focus of this ebook In respect to health and disease the chapters on aging pregnancy depression alcohol dependency and environmental odours present overviews and rich new data on many contemporary

problems to which the study of olfaction is now contributing A particularly notable aspect of olfactory experience is the affective impact that odours can have on people and their lives The ebook covers some particularly intriguing aspects of work in this area with empirical studies investigating dissociations between wanting and liking stress reduction in the elderly mother infant bonding and the emotions that different odourants can evoke This affective line of work is nicely complemented by empirical studies on expertise the effect of odours on visual attention and the relationship between particular personality traits and interest in olfaction The gradual appropriation of methods from cognitive neuroscience into olfaction is also nicely represented in this ebook with at least three of the chapters reporting data using neuroimaging including a particular intriguing study looking at recognition of odours in mixtures Finally the close links between olfactory perception and sensory evaluation are also reflected in a chapter on wine I hope that readers of this e book will be struck as I have been in reading its various chapters how much olfaction affects our lives and how the study of this sense can enrich it
