Smith & Wesson, 1857-1945 Roy G. Jinks, Robert J. Neal, 1975-01-01 The History of Smith and Wesson 1857-1945 Robert J. Neal, Roy G. Jinks, 1996-01-01 *Smith and Wesson, 1857-1945* Roy G. Jinks, 1975 **The Gunning of America** Pamela Haag, 2016-04-19 Americans have always loved guns This special bond was forged during the American Revolution and sanctified by the Second Amendment It is because of this exceptional relationship that American civilians are more heavily armed than the citizens of any other nation Or so we re told In *The Gunning of America* historian Pamela Haag overturns this conventional wisdom American gun culture she argues developed not because the gun was exceptional but precisely because it was not guns proliferated in America because throughout most of the nation s history they were perceived as an unexceptional commodity no different than buttons or typewriters Focusing on the history of the Winchester Repeating Arms Company one of the most iconic arms manufacturers in America Haag challenges many basic assumptions of how and when America became a gun culture Under the leadership of Oliver Winchester and his heirs the company used aggressive sometimes ingenious sales and marketing techniques to create new markets for their product Guns have never sold themselves rather through advertising and innovative distribution campaigns the gun industry did Through the meticulous examination of gun industry archives Haag challenges the myth of a primal bond between Americans and their firearms Over the course of its 150 year history the Winchester Repeating Arms Company sold over 8 million guns But Oliver Winchester a shirtmaker in his previous career had no apparent qualms about a life spent arming America His daughter in law Sarah Winchester was a different story Legend holds that Sarah was haunted by what she considered a vast blood fortune and became convinced that the ghosts of rifle victims were haunting her She channeled much of her inheritance and her conflicted conscience into a monstrous estate now known as the Winchester Mystery House where she sought refuge from this ever expanding army of phantoms In this provocative and deeply researched work of narrative history Haag fundamentally revises the history of arms in America and in so doing explodes the cliché that have created and sustained our lethal gun culture *The Hand Gun Story* John Walter, 2008-06-30 A firearms expert traces the history of the one hand gun from its 14th century origins surveying changing technology techniques and design Midwest Book Review Ideally suited for both attack and self defense handguns have gotten smaller and deadlier But the earliest pistols had a tendency to misfire This was cured by the cap lock which proved a massive success in the American Civil War with hundreds of thousands of cap lock revolvers used on each side Self contained metal case cartridges were to bring a fundamental change to handgun design not only by allowing the introduction of revolvers that ejected automatically or were easily reloaded but also by paving the way for the automatic pistol World War I provided the handgun with a proving ground At the end of the hostilities with so much surplus weaponry work on the handgun could have ceased instead a new developmental phase was begun by the nations that had emerged from the crumbling Imperial empires During World War II

the efficiency of well established designs was confirmed and new designs such as the Walther P 38 showed their potential The emergence of the submachine gun in 1945 reduced the status of the handgun but only temporarily The need for efficient self defense shows no signs of lessening and the rise in shooting for sport particularly with the revolver has sharpened the quest for efficiency The never ending search for advanced production techniques shows that the handgun has as much a future in the twenty first century as it had in the heyday of the Wild West or in the trenches of Passchendaele

A Legacy in Arms Richard C. Rattenbury, 2014-10-22 The history of American firearms is inseparable from the history of the United States for firearms have played crucial roles in the nation's founding westward expansion and industrial economic and cultural development This history unfolds in compelling words and images in *A Legacy in Arms* a volume that draws upon the collections of the National Cowboy Western Heritage Museum in Oklahoma City to trace the business and art of gun making from the early national period to the turn of the twentieth century With more than 200 images almost all in full color *A Legacy in Arms* not only documents the inspiration and innovation of arms makers from individual artisans to mass producers but also describes the development of decorative expression in the gun maker's art In an account both entertaining and enlightening Richard C Rattenbury details the development of commercial arms making from the genesis of the Kentucky rifle to the arms of such iconic manufacturers as Colt Remington Smith Wesson Sharps Marlin and Winchester Into this narrative he weaves the particulars of design evolution and the impact of mass production via the American System The accompanying photographs and illustrations stand as eloquent testimony to the range and richness of the gun maker's craft and its rightful place in the story of American industry and culture

Archaeological Perspectives on the Battle of the Little Bighorn Melissa A. Connor, Douglas D. Scott, Dick Harmon, Richard A. Fox, 2013-05-01 Ever since the Custer massacres on June 25 1876 the question has been asked What happened what REALLY happened at the Battle of the Little Bighorn We know some of the answers because half of George Armstrong Custer's Seventh Cavalry the men with Major Marcus Reno and Captain Frederick Benteen survived the fight but what of the half that did not the troopers civilians scouts and journalist who were with Custer Now because a grass fire in August 1983 cleared the terrain of brush and grass and made possible thorough archaeological examinations of the battlefield in 1984 and 1985 we have many answers to important questions On the basis of the archaeological evidence presented in this book we know more about what kinds of weapons were used against the cavalry We know exactly where many of the men fought how they died and what happened to their bodies at the time of or after death We know how the troopers were deployed what kind of clothing they wore what kind of equipment they had how they fought Through the techniques of historical archaeology and forensic anthropology the remains and grave of one of Custer's scouts Mitch Boyer have been identified And through geomorphology and the process of elimination we know with almost 100 percent certainty where the twenty eight missing men who supposedly were buried en masse in Deep Ravine will be found
