Reprint) Smithsonian Institution, 2015-08-05 Excerpt from Smithsonian Contributions to Knowledge Vol 6 This volume forms
the sixth of a series composed of original memoirs on different branches of knowledge published at the expense and under
the direction of the Smithsonian Institution The publication of this series forms part of a general plan adopted for carrying
into effect the benevolent intentions of James Smithson Esq of England This gentleman left his property in trust to the United
States of America to found at Washington an institution which should bear his own name and have for its objects the increase
and diffusion of knowledge among men This trust was accepted by the Government of the United States and an Act of
Congress was passed August 10 1846 constituting the President and the other principal executive officers of the general
government the Chief Justice of the Supreme Court the Mayor of Washington and such other persons as they might elect
honorary members an establishment under the name of the Smithsonian Institution For The Increase And Diffusion Of
Knowledge Among Men The members and honorary members of this establishment are to hold stated and special meetings
for the supervision of the affairs of the Institution and for the advice and instruction of a Board of Regents to whom the
financial and other affairs are intrusted The Board of Regents consists of three members ex officio of the establishment
namely the Vice President of the United States the Chief Justice of the Supreme Court and the Mayor of Washington together
with twelve other members three of whom are appointed by the Senate from its own body three by the House of
Representatives from its members and six persons appointed by a joint resolution of both houses To this Board is given the
power of electing a Secretary and other officers for conducting the active operations of the Institution To carry into effect the
purposes of the testator the plan of organization should evidently embrace two objects one the increase of knowledge by the
addition of new truths to the existing stock the other the diffusion of knowledge thus increased among men No restriction is
made in favor of any kind of knowledge and hence each branch is entitled to and should receive a share of attention About
