Smoke Ring The Politics:

Smoke Ring Peter Taylor, 1984 **The Smoke Ring: Tobacco, Money, and Multinational Politics** Peter Taylor, 1976 **The Smoke Ring** Maxine Alexander, Christina Davis, Bob Hall, Marc Miller, Joe Pfister, Dee-Dee Risher, Linda Rocawich, Michael Yellin, 1984 **The Mother and Narrative Politics in Modern China** Sally Taylor Lieberman, 1998 A modernist icon an object of forbidden desire a symbol of loss and suffering and an incorrigible survivor the mother takes all of these forms in Chinese literature from the 1920s and 1930s In an innovative analysis Sally Taylor Lieberman explores the meanings the maternal figure acquired at a particular place and time and then engages those meanings in a feminist rereading of the master narratives of modern Chinese intellectual and literary history Drawing on feminist literary criticism and the theories of Julia Kristeva Melanie Klein and Sigmund Freud Lieberman breaks traditional analytical boundaries as she explores the place of the mother in the ideological struggles through which the modern Chinese canon attained its present shape The Politics of Drug Control M. Bentham, 1998-10-05 The Global Politics of Drug Control sets the drug problem into a theoretical framework which aids understanding of the phenomenon by focusing on changing international values and norms In the early literature on drug use drugs were considered primarily as a social problem and the focus was on seeking a national policy However in the 80s the problem was increasing requiring international cooperation and action bringing the concerned to the arena of international relations scholars The book focuses on changing values and norms in the international community that allow the discipline of international relations to add something new to the current debate on the subject This book should appeal to all those interested in the current discussions on the drug phenomenon as well as to students and academics in the area of international relations and related disciplines The Politics of Despair Tracy Campbell, 2014-07-11 Shortly after 1900 tens of thousands of tobacco growers throughout Kentucky and Tennessee convulsed the region for nearly a decade in a revolt against the monopolistic practices of the American Tobacco Company Though the revolt known as the Tobacco Wars remains one of the more remarkable insurgencies of rural America it is also one of the more misunderstood In this first major account of the uprising in over half a century Tracy Campbell tells the story of these embattled farmers and casts a provocative new light on the issues that fueled the Tobacco Wars When tobacco prices fell below the cost of production in the early 1900s farmers in western Kentucky and Tennessee faced with desperate economic circumstances formed cooperatives through which they could pool their crops and withhold tobacco from the market until a satisfactory price was offered Campbell recounts the organizational underpinnings of the notorious Black Patch War and the forces that drove farmers to seek violent solutions to their economic ills Campbell then expands the story to the burley region where a simultaneous movement was under way In 1908 over thirty thousand burley growers undertook the only successful large scale agricultural strike in American history Campbell brings this drama to life and describes the emotional day when the farmers achieved their unprecedented victory over the powerful Tobacco Trust The Tobacco Wars

represented one of the last desperate gasps from the countryside before the onset of agribusiness drove millions of farmers and their families away for good. *The Politics of Despair* thus stands as a unique reminder of a tradition of protest that has perhaps been irretrievably lost. This book will interest not only rural and labor historians and students of the American South but anyone concerned with the profound issues surrounding the decline of rural America. **Gunsight Politics** Paul Michael Sturman, 2011-11-18. This is a fictionalized version of an event that changed the world. It asks the question: what if the truth was not told about that violent and tragic day in 1963? Within its pages lies a second story of murder, intrigue, and mystery that takes you on a ride to meet unforgettable characters, both good and evil, who lived their lives in a savage era. Step back in history then to the violent days of the 1960s. *The Moralization of the Markets* Christoph Henning, 2017-07-12. Nothing affects the modern economy and society more than decisions made in the marketplace, especially but not only decisions made by consumers. Although it is not startling to suggest that decisions made in production are affected by choices consumers make, consumers have long been viewed not only by academic economists as individual, isolated, rational actors that make or refrain from purchases purely on the basis of narrow financial considerations. Markets are not and never were morally neutral. Market relations have always had an often-taken-for-granted moral underpinning. The moralization of the markets refers to the dissolution and replacement of the conventional moral underpinnings of market conduct. For example, in the music market, financial markets, and corporate governance, it further implies not only the heightened importance of new ethical precepts but the significant change in the role of moral ideals in market behavior. These profound transformations of economic conduct are accompanied and co-determined by societal conflicts. The moralization of markets represents thus a new stage in the social evolution of markets. The book is divided into four parts in which the twelve chapters, written by contributors from different social science disciplines, deal with the context of the moralization of the markets, the major social institutions, and present case studies that examine European and American attitudes and behavior towards tobacco and GMO expansion of the private and ethics in business and how workers respond to the new corporate norms. This volume will be of interest to sociologists, economists, social scientists, and the general consumer alike. [Understanding Global News](#) Jaap van Ginneken, 1998-01-23. A lively and critical introduction to the news media, this book has been written specifically for media students and trainee journalists. *Understanding Global News* invites the reader to explore contemporary journalistic practice and questions the assumption that the media provide a mere window on the world. Challenging the often-unquestioned notions of media objectivity, the author turns the classic questions: Who? What? When? and Why? onto the news media. By employing a range of theoretical perspectives and a large variety of examples, the author demonstrates the way in which our perceptions of the world are constructed by the news media. *Marketing Madness* Michael Jacobson, 2019-03-11. In 1983, Reese's Pieces made their debut on the silver screen, gobbled up by that lovable alien, ET, and sales of the candy shot up instantly by 66 percent. Reebok has sponsored the U.S. Olympic team and the Russian team as well. The British Boy Scouts sell

space on their merit badges to advertisers Michael Jacobson founder of the Washington D C **The Politics of Upheaval** Arthur M. Schlesinger, 2003-07-09 In the third volume of his series on Franklin Roosevelt the Pulitzer Prize winning historian focuses on the turbulent final years of FDR's first term A measure of economic recovery revived political conflict and emboldened Roosevelt's critics to denounce that man in the White house To his left were demagogues Huey Long Father Coughlin and Dr Townsend To his right were the champions of the old order ex president Herbert Hoover the American Liberty League and the august Supreme Court For a time the New Deal seemed to lose its momentum But in 1935 FDR rallied and produced a legislative record even more impressive than the Hundred Days of 1933 a set of statutes that transformed the social and economic landscape of American life In 1936 FDR coasted to reelection on a landslide Schlesinger has his usual touch with colorful personalities and draws a warmly sympathetic portrait of Alf M Landon the Republican candidate of 1936 One of the most important historical enterprises of our time Saturday Review Vividly portrays the concluding years of Roosevelt's first term and the sweep and excitement of an era more historically dramatic than most Time
