FAA Aviation Safety Journal ,1991 **Setting Safety Standards** Ross E. Cheit,2024-06-21 In this highly original and meticulously researched comparison of public and private standards setting Ross E Cheit questions the old maxim that

government set safety standards are too severe while those set by the private sector are too lenient Identifying the comparative institutional advantages of each arrangement through four paired case studies of grain elevators woodstoves aviation fire safety and gas space heaters he finds instead that some private standards are surprisingly strict while government is better positioned to survey real world experience and sponsor research likely to improve standards setting Setting Safety Standards challenges those political scientists who argue that only public institutions can advance the public interest in the controversial field of health and safety Cheit draws attention to such little known organizations as Underwriters Laboratories and the National Fire Protection Association private sector alternatives to the government regulation so frequently criticized as time consuming inflexible and unreasonable These organizations he shows play a far more significant role in regulation than most federal agencies even though the standards they develop are widely and often mistakenly assumed to be less concerned with due process than government standards and often unduly lax This study should be widely read by public policy and regulation experts in both the public and the private sectors as well as by academics in the field This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 *The MAC Flyer*, 1978 *For Your Own Good* Jacob Sullum, 1998 In this rousing rebuttal to the almost universal public attack against tobacco and its users Sullum provides a rational and commonsense defense of the rights of smokers arguing that government bureaucrats must respect the rights of adults who make the informed decision to smoke photo insert **Smokejumpers**, 1966 **Flight**, 1919 *Up to Their Necks - the Story of a National Serviceman* Joe P.
