The Leadership Quotient Bill Service Ph.D., Dave Arnott Ph.D., 2006-03-23 Now there is a formula for leadership the LQ Like the Intelligence Quotient and the Emotional Quotient that preceded it The Leadership Quotient contains verifiable dimensions of leadership that are designed to improve every leader's performance The Leadership Quotient makes the complex simple by fitting the 12 dimensions of leadership into a framework of leader follower and environment The Leadership Quotient makes the three components measurable and practical for the reader The nature vs nurture argument is over There is general agreement that effective leaders are prepared by nature and refined by nurture

The need for improved leadership has never been greater as witnessed by corporate scandals world tumult and economic morass The failure of ethical moralities and the dumbing down of education give clarion calls for the type of improved leadership available through the application of LQ principles The Leadership Quotient is thoroughly researched by two leadership experts who combined have 37 years of practical business leadership 45 years of formal education and 25 years of teaching leadership at the university level Yet the book is accessibly written for leadership practitioners The LQ is years of comprehensive research packaged in a simplified formula for immediate application
