**Theory and Practice in Clinical Social Work** Jerrold R. Brandell, 1997-02 Following an overview of the principal frameworks for clinical practice including systems theory behavioral and cognitive theories and psychoanalytic theory the book goes on to present the major social crises and new populations the social worker confronts each day Theory and Practice in Clinical Social Work includes twenty four original chapters by leading social work scholars and master clinicians who represent the widest variety of clinical orientations and specializations      *Human Behavior theory and Social Work*

*Practice, Second Edition* Roberta Rubin Greene,      **Paradigms of Clinical Social Work** Rachelle A. Dorfman, 2015-11-17 This fully integrated volume written by the leading experts in the field of social work presents a wide range of therapeutic paradigms Especially noteworthy is the common framework provided for all paradigms discussed thus facilitating comparison

and contrast between each approach These paradigms include cognitive brief oriented and psychosocial therapies as well as Adlerian theory and radical behaviorism **Fostering Healing and Growth** Joyce Edward, Jean Sanville, 1996-06-01 Wherever contemporary therapists offer treatment whether in social agencies or clinics in outpatient or inpatient services or even in private practice they are likely to find themselves increasingly working with people whose histories are characterized by deprivation and repeated trauma experiences that have left them feeling damaged often short of basic trust in others and lacking confidence in themselves These people have tended to be seen as beyond the pale for psychoanalytically oriented treatment The contributors to this volume would disabuse us of such a prejudiced opinion They proceed to demonstrate the enormous value of psychodynamic perspectives with a varied clientele many of whom in the past might have been deemed untreatable And they do this by sharing with readers the stories of their attempts to work with persons of diverse cultural ethnic and racial groups who come with complaints that point to severe psychopathologies In each of the twenty three stories we are afforded a glimpse of the two actors in the drama as they meet and size up one another negotiate and renegotiate their agreement to collaborate work through and play through the shifting positive and negative transferences and countertransferences toward a working relationship experience both frustrations and triumphs as they persevere in attempts to promote healing and growth These are exciting narratives documenting the ethic that underlies the psychoanalytic vision and the animation that it affords both participants **Modern Social Work Theory** Malcolm Payne, 1990-12-07 An examination of social work in both theory and practice The authors present several models relevant to different aspects of social work **Clinical Social Work** Helen Northen, 1995 This revised edition of a classic text provides a comprehensive guide to contemporary clinical social work and to ways of integrating the complex needs of individuals families and groups Northen presents skills for working with diverse populations and discusses the impact of contemporary social problems including AIDS homelessness and family violence **FREE INSTRUCTOR S MANUAL Encyclopedia of Canadian Social Work** Francis J. Garvin, 2010-10-08 This text takes a broad based approach to basic generalist practice methods that emphasize the common elements in working with individuals families and groups The goal of the book is to teach social work students how to enhance clients social functioning by helping them become more proficient in examining understanding and resolving clients social problems The authors pay special attention to enhancing social justice by working with individuals and families who have been historically oppressed This edition includes specific integrated coverage of the Council on Social Work Education s CSWE latest Educational Policy and Accreditation Standards EPAS Intended Audience This core text is designed for advanced undergraduate and graduate students enrolled in the introductory Direct Practice and Generalist Practice courses in BSW and MSW programs of social work **Unwillingly to**

**School** Jack H. Kahn, Jean P. Nursten, Howard C. M. Carroll, 2014-05-20 Unwillingly to School discusses the neurotic problem of a phobic nature which inclines to manifest itself towards the recurring need to pass from home to the socially more structured and demanding environment of school. The book provides a clear and full explanation of the psychoanalytic concept of personality integration so that such perplexing behavior is better understood. The book deals with topics such as the work of the child guidance team but does not include the individual's approach of treatment, a comprehensive discussion of behavior therapy and the role of the school in the causation of the symptoms of school phobia or truancy. One view is that school phobia is the fear of not knowing the condition of the house if the child is away. This concept is looked at in detail in the text. It also considers the school regime which may not suit the child and comes up with ways to correct this oversight. The book will provide useful information to psychologists, psychiatrists, paediatrician doctors, students and researchers in the field of child psychology. *Appendix to the Report to Commission on Accreditation, Council on Social Work Education, 1973*

**Social Work with Families** Eric Sainsbury, 2023-08-09 Originally published in 1975 and based on a study of the memories and perceptions of twenty-seven families known to a Family Service Unit and of their most recent social workers, this book was an important contribution to our knowledge of consumer opinions of the social services at the time. In particular, it draws attention to factors relevant to the evaluation of social work practice and to the definition of success. The family members describe for themselves by means of extracts from tape-recorded interviews what it feels like to have problems to be referred for help in short to be a client. They give an account of the help they have received and define the personal attributes and activities which they have found helpful and appropriate in social workers. This book would have been of special value to social workers, to social work students and to all those concerned with social policy and administration. Today it can be read in its historical context.
