Poverty Knowledge Alice O'Connor, 2024-11-01 Progressive era poverty warriors cast poverty in America as a problem of unemployment low wages labor exploitation and political disfranchisement In the 1990s policy specialists made dependency the issue and crafted incentives to get people off welfare Poverty Knowledge gives the first comprehensive historical account of the thinking behind these very different views of the poverty problem in a century spanning inquiry into the politics institutions ideologies and social science that shaped poverty research and policy Alice O Connor chronicles a transformation in the study of poverty from a reform minded inquiry into the political economy of industrial capitalism to a detached highly technical analysis of the demographic and behavioral characteristics of the poor Along the way she uncovers the origins of several controversial concepts including the culture of poverty and the underclass She shows how such notions emerged not only from trends within the social sciences but from the central preoccupations of twentieth century American liberalism economic growth the Cold War against communism the changing fortunes of the welfare state and the enduring racial divide The book details important changes in the politics and organization as well as the substance of poverty knowledge Tracing the genesis of a still thriving poverty research industry from its roots in the War on Poverty it demonstrates how research agendas were subsequently influenced by an emerging obsession with welfare reform Over the course of the twentieth century O Connor shows the study of poverty became more about altering individual behavior and less about addressing structural inequality The consequences of this steady narrowing of focus came to the fore in the 1990s when the nation s leading poverty experts helped to end welfare as we know it O Connor shows just how far they had traveled from their field s original aims

Race-Ethnicity and Society Benjamin B Ringer, Elinor R. Lawless, 2025-06-30 First published in 1989 Race Ethnicity and Society comes as a usable and comprehensive text on race and ethnicity in the United States Ringer and Lawless set out to fill the gap in the literature by incorporating the positive lessons of the racially turbulent 1960 s and 70s Proposing a challenge to three conventional premises of many texts they argue that the treatment of racial minorities in America was qualitatively different from that experienced by the white immigrants that racism was not a mere aberration in American Society but was built into the very foundations of the society and that America s experience with minorities was not unique but can instead be located within the mainstream of European expansion and conquest Race Ethnicity and Society will be a standard source for students in the fields of sociology history and political science

Social Class in American Sociology Milton M. Gordon, 1963 Social

Control and Self-Control Theories of Crime and Deviance L. Edward Wells, 2017-07-05 Control theories have dominated criminological theory and research since the 1969 publication of Hirschi's seminal work on the social bond. Social control and self-control theorists are unique in suggesting that patterns in criminal behaviors are better explained by variations in social constraints rather than by individual motivational impulses, thus indicating that their main concerns are the explication and clarification of the techniques, processes, and institutions of informal social control. The four major sections of this volume focus on the similarities and differences among the major contributors to the early developmental stage of social control theory; the central importance of parents, peers, and schools in the creation of informal control mechanisms and their link to crime and delinquency; the theoretical underpinnings of self-control theory, including empirical tests and criticisms; and theoretical integrations of social control and self-control theories with various motivational theories of crime and delinquency.

Abstracts of Contributed Papers: American Public Health Association 97th Annual Meeting, Philadelphia, 1969 American Public Health Association. Medical Care Section, 1969 **Community Studies** Colin Bell, Howard Newby, 2021-10-17 Originally published in 1971, this was the first text on community studies which analysed the major empirical work in this field in a comparative perspective. It is concerned both with the sociology of community and the sociology of community studies. It takes both the findings of individual studies and the research process itself as significant sociological data in their own right and it asks continually how do we know what we know about communities. Community Studies is then not only a contribution to that particular field but also to our understanding of the interaction between theory and method in sociology. Studies are analysed from North and Latin America, Britain and Western Europe and India. Two central problems, stratification and power, are considered at greater length. This book would prove to be an invaluable introduction not only for students of sociology but also for architects, planners, and all those who had an interest in the community at the time. Its authors were and had been actively engaged in field research in this area. The American Family Howard Hoffman, 2013-06-29 Several years ago an anonymous donor gave a generous gift to the Department of Psychiatry and Behavioral Sciences at George Washington University School of Medicine. The donor suggested that the gift be used to support a conference on the current dilemmas of the American family and to publish its proceedings. The current chairman of the department, Jerry Wiener, formulated the initial plans for the conference with Leon Yochelson, who had been chairman at the time the gift was made. Dr Yochelson is now Chairman of the Board of the Psychiatric Institute of the District of Columbia. These initial discussions led to a significant and sustained collaboration between the Department of Psychiatry and Behavioral Sciences at George Washington and the Psychiatric Institute in planning the conference and the present volume. A committee was established to plan the conference. It consisted of Peter Steinglass, Associate Professor of Psychiatry and George Cohn, Professor of Child Health and Development, both of George Washington, and Margaret Garrett, a member of the psychiatric staff at the Psychiatric Institute. The committee was jointly chaired by the editors of this volume. The committee re-

ceived indispensable assistance from members of the administrative staff of the Psychiatric Institute Al Bruce Carol Klein and Miriam Mathura Margaret Schnellinger of the Center for Family Research George Washington University was also very helpful in all phases of planning the conference *Research in Education* ,1974 *Resources in Education* ,1998
