

Social Construction and the Logic of Money

Financial Predominance and
International Economic Leadership

J. Samuel Barkin

Social Construction And The Logic Of Money Financial Predom

Jens Beckert, Richard Bronk

Social Construction And The Logic Of Money Financial Predom:

Social Construction and the Logic of Money J. Samuel Barkin, 2012-02-01 While other studies of international leadership have looked at a variety of measures to predict behavior this book demonstrates that the key factor is international finance J Samuel Barkin uses an innovative blend of rationalist and constructivist methodologies approaches to international political economy that normally exist in isolation from one another Barkin argues that the level of a country's involvement in international finance specifically motivates it to lead This is particularly relevant today given the on going discussions on how to respond to local and global financial crises Barkin illustrates his theory with an episodic history of international monetary leadership over the last four centuries Dutch leadership in the seventeenth century British leadership in the nineteenth the failure of leadership in the interwar era and Great Depression and the role of the U S in the construction of an international economic infrastructure since World War II *The Dollar and National Security* Paul Viotti, 2014-07-23 Defense establishments and the armed forces they organize train equip and deploy depend upon the security of capital and capital flows mechanisms that have become increasingly globalized Military capabilities are thus closely tied not only to the size of the economic base from which they are drawn but also to the viability of global convertibility and exchange arrangements Although the general public has a stake in these economic matters the interests and interpretive understandings held by policy elites matter most in particular those among the owners or managers of capital who focus on international finance and the international monetary regimes that sustain global commerce and their capital positions In *The Dollar and National Security* Paul Viotti explores the links between global capital flows these policy elites and national security After establishing the historical link between currency gold and security he continues the monetary security story by examining the instrumental role the dollar has played in American economic and national security over the past seven decades He reveals how perceived individual and collective interests are the key drivers toward building the kind of durable consensus necessary to sustain the external financing of American foreign and national security policy and addresses the future implications for national security as decision makers in the BRICs and other countries position themselves to assume an even larger policy presence in global commercial monetary and security matters **Forthcoming Books** Rose Army, 2003 *Financial Freedom* Gisela Enders, 2017-09-15 For many people financial freedom is a major goal If they no longer needed to work for money so much would be possible For people who have to go to work every day that seems like paradise But how do people actually live once they have reached the goal Gisela Enders interviewed people mostly from Germany and Europe who are already financially free She met very interesting people Some who do not work at all anymore and others who spend every day working on their own projects out of sheer passion Some who make their living from stocks and others who live from rental income And others who live abroad and need very little money to live on People who want to enjoy spending time with their kids and others who put all their passion into their own projects Most of the people

interviewed live frugally and from the outside the only thing different about them is that they are rich in time What would your own ideal life be like A life that you planned yourself rather than one planned for you You can put that plan into practice step by step The ideas in this book will inspire you to consider a life beyond the rat race

Dilemma Qualitative Method Martyn Hammersley,2003-09-02 First Published in 1990 Originally published in 1989 The Dilemma of Qualitative Method is a stimulating guide to the discussion of qualitative versus quantitative approaches to social research originated in nineteenth century debates about the relationship between the methods of history and natural science One of the key theorists in this area was Chicago sociologist Herbert Blumer The book analyses the historical context of the dispute and provides a detailed account and systematic analysis Blumer s methodological writings including his doctoral thesis The strategies for qualitative research advocated by Blumer within the Chicago tradition are reviewed and assessed

The Strong State and the Free Economy Werner Bonefeld,2017-05-09 German ordoliberalism originated at the end of the Weimar Republic 1918 1933 in a context of hyper inflation depression mass unemployment and social unrest For ordoliberalism a free economy is premised on a sound political legal social and moral framework to secure its cohesion The role of the state is to ensure a liberal economic order Ordoliberalism is a contested account of post neoliberal political economy some argue that it offers a more restrained and socially just market order others in complete contrast that is a form of authoritarian liberalism and that it is the theoretical foundation for the austerity politics that the EU has actively promoted in recent years Foucault discusses ordoliberalism at length in The Birth of Biopolitics and Bonefeld s book provides a thought provoking companion to those lectures by offering a more comprehensive investigation of the theoretical foundation of ordoliberal thought and its historical and theoretical contexts

Encyclopedia of Social and Cultural Anthropology Alan Barnard,Jonathan Spencer,2009-12-04 Written by leading scholars in the field this comprehensive and readable resource gives anthropology students a unique guide to the ideas arguments and history of the discipline The fully revised and expanded second edition reflects major changes in anthropology in the past decade

Uncertain Futures Jens Beckert,Richard Bronk,2018-07-05 Uncertain Futures considers how economic actors visualize the future and decide how to act in conditions of radical uncertainty It starts from the premise that dynamic capitalist economies are characterized by relentless innovation and novelty and hence exhibit an indeterminacy that cannot be reduced to measurable risk The organizing question then becomes how economic actors form expectations and make decisions despite the uncertainty they face This edited volume lays the foundations for a new model of economic reasoning by showing how in conditions of uncertainty economic actors combine calculation with imaginaries and narratives to form fictional expectations that coordinate action and provide the confidence to act It draws on groundbreaking research in economic sociology economics anthropology and psychology to present theoretically grounded empirical case studies These demonstrate how grand narratives central bank forward guidance economic forecasts finance models business plans visions of technological futures and new era stories influence behaviour

and become instruments of power in markets and societies The market impact of shared calculative devices social narratives and contingent imaginaries underlines the rationale for a new form of narrative economics *Journal of Economic Literature*, 2003 *Money Makes Us Relatives* Jenny Barbara White, 2004 In the rural immigrant community of Istanbul poor women spend up to fifty hours a week producing goods for export yet deny that they actually work Money Makes Us Relatives asks why Turkish society devalues women's work concealing its existence while creating a vast pool of cheap labor for the world market Drawing on two years of ethnographic fieldwork among family producers and pieceworkers and using fascinating case studies throughout Jenny B White shows how women's paid work is viewed in terms of kinship relations of reciprocity and obligation an extension of domestic work for the family which is culturally valued but poorly compensated Whilst offering the benefits of social identity and long term security women's work also reflects global capitalism's ability to capture local cultural norms and to use these to lower production costs and create exploitative conditions This fully revised second edition includes a new introduction and conclusion updated references comparative material on women's labor elsewhere in the world and brand new material on Islam globalization gender and Turkish family life It is an important contribution to debates about women's participation in late global capitalism **Organization Development** Donald L. Anderson, 2019-11-11 Organization Development The Process of Leading Organizational Change offers a comprehensive look at individual team and organizational change covering classic and contemporary organization development OD techniques Bestselling author Donald L Anderson provides students with the organization development tools they need to succeed in today's challenging environment defined by globalization rapidly changing technologies economic pressures and evolving workforce expectations The new Fifth Edition has been updated to reflect the latest research New Profiles in OD highlight a variety of practitioners and researchers New cases examples and a new chapter on organization design and culture interventions provide readers with the latest information on OD best practices **It'S Nothing Personal It'S Only Business** William N. Spencer, 2016-01-28 Today in America we are no longer the world's largest market economy If anything the only thing greatest about the American economy is the amount of money we owe to other countries Politicians and activists portray big government as essential to safeguard the common good There is no question we need the government to protect our rights and assure the rule of law But overly large and politicized government ends up dominating and undermining a moral society Instead of empowering people big government programs from welfare subsidies to corporate bailouts promote dependency and deteriorate personal responsibility encouraging both people and companies to make bad decisions How did we as a country allow our students and our citizens in general to become so economically uneducated in just two generations *Political Economy* Christian May, Daniel Mertens, Andreas Nölke, Michael Schedelik, 2024-05-21 This textbook offers a comprehensive introduction to Political Economy It combines comparative international and historical perspectives into a holistic framework of analysis Drawing on the work of Karl Polanyi the book shows how capitalist

economies differ around the globe and how they are embedded in the international economic order Through a critical institutionalist lens it helps to account for the evolution of contemporary capitalism and addresses current topics at the intersection of political science and economics Students and instructors can draw on supplementary material such as Power Point slides with all figures and tables as well as the Springer Nature Flashcards app with exercises **Sociological**

Abstracts Leo P. Chall,2003 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Decentralisation in Contemporary India** D. Rajasekhar,R Manjula,M Devendra

Babu,2021-09-28 This volume examines the process of decentralisation in India since the 1992 legislation which devolved powers to local government bodies to ensure greater participation in local governance and planning It studies the functioning of gram sabhas panchayats school development committees water supply and sanitation committees Residents Welfare Associations and rural development schemes like the MGNREGS analysing their effectiveness and tracing the political administrative and fiscal powers the local government wields With case studies from different Indian states the book examines the functioning of local governance mechanisms and institutions in relation to crucial issues such as citizen participation the participation of women and disadvantaged groups fiscal decentralisation peace building economic development and education among others Comprehensive and insightful this book will be an essential read for scholars and researchers of development studies political science public policy governance studies regional development political economy political sociology public administration and South Asian studies especially those focusing on India Economy and State

Nina Bandelj,Elizabeth Sowers,2010-09-14 Should governments be involved in economic affairs Challenging prevailing wisdom about the benefits of self regulating markets this accessible and engaging book advances a uniquely sociological perspective on economy and state connections to emphasize that states can never be divorced from economy **Annals of the American Academy of Political and Social Science** ,1915 **The Annals of the American Academy of Political and Social Science** ,1915 **Class in the Composition Classroom** Genesee M. Carter,William H. Thelin,2017-12-01

Class in the Composition Classroom considers what college writing instructors should know about their working class students their backgrounds experiences identities learning styles and skills in order to support them in the classroom across campus and beyond In this volume contributors explore the nuanced and complex meaning of working class and the particular values these college writers bring to the classroom The real college experiences of veterans rural Midwesterners and trade unionists show that what it means to be working class is not obvious or easily definable Resisting outdated characterizations of these students as underprepared and dispensing with a one size fits all pedagogical approach contributors address how region and education impact students explore working class pedagogy and the ways in which it can

reify social class in teaching settings and give voice to students lived experiences As community colleges and universities seek more effective ways to serve working class students and as educators parents and politicians continue to emphasize the value of higher education for students of all financial and social backgrounds conversations must take place among writing instructors and administrators about how best to serve and support working class college writers Class in the Composition Classroom will help writing instructors inside and outside the classroom prepare all their students for personal academic and professional communication Contributors Aaron Barlow Cori Brewster Patrick Corbett Harry Denny Cassandra Dulin Miriam Eisenstein Ebsworth Mike Edwards Rebecca Fraser Brett Griffiths Anna Knutson Liberty Kohn Nancy Mack Holly Middleton Robert Mundy Missy Nieveen Phegley Jacqueline Preston James E Romesburg Edie Marie Roper Aubrey Schiavone Christie Toth Gail G Verdi Walls of Indifference Nicole I Torres, 2015-11-17 This ethnography documents and explores the social political and material consequences of militarization in the borderlands of Arizona Based on two years of fieldwork in Phoenix Tucson and other communities along the US Mexico border the author identifies militarization as a social and political phenomenon that gradually reconfigures both individuals and communities Through ethnographic instances she explores how the vocabularies of race nationalism and patriotism decrease political engagement and simultaneously increase conflict within the borderland communities
