Soul Claiming Jody Aliesan, 1975 **Heartbeat of the Soul** Michael Bohoskey, 2011-05-13 This is not a book for the intellect alone These poems are songs of the heart anthems of the soul claiming its freedom to thrive in a world of change and cleansing They are meant to engage the body the emotions and the higher mind like vehicles of passion to assist in waking up to the power of heartfelt consciousness and the reality of home They are meant to trigger a longing for the celebration of life and the courage to see through the veil of limited human conditioning of religious beliefs of separation and survival fears They are vibrational passionate movements of energy a dance of words and symbols which can open the heart and mind to expanded realms of a living loving Universe of limitless joy and creative possibility My intention is to honor the power of human free will choice in claiming the right and the ability and the freedom to create a quality of life that we truly deserve a life of tranquility uniqueness harmony belonging and infinite unconditional love Michael Bohoskey **Claims for Poetry** Donald Hall, 1982 A collection of essays by contemporary American poets on the subject of their art The New Poet Richard Danson Brown, 1999-04-01 This gracefully written and well thought out study deals with a neglected collection of poems by Spenser which was issued in 1591 at the height of his career While there has been a good deal written in recent years on two of the poems in the collection Mother Hubbard s Tale and Muiopotmos Brown innovatively addresses the collection in its entirety He urges us to see it as a planned whole with a consistent design on the reader he fully acknowledges and even brings out further the heterogeneity of the collection but he examines it nevertheless as a sustained reflection on the nature of poetry and the auspices for writing in a modern world distancing itself from the traditions of the immediate past The strength of this work lies both in the originality of its project and in the precision and enterprise of the close reading that informs its argument Interest in the concern of Spenser s poetry with the nature of poetry is in the current critical mainstream but here the attentiveness is both unusually focused and unusually sustained Brown garners more than would be expected from the translations in the Complaints while at the same time including striking and individual chapters on the better known Mother Hubbard s Tale and Muiopotmos he advances understanding of these extremely subtle texts and fully justifies his wider approach to the collection as a whole Arguing that Spenser s relationship to literary tradition is more complex than is often thought Brown suggests that Spenser was a self conscious innovator whose gradual move away from traditional poetics is exhibited by the different texts in the Complaints He further suggests that the Complaints are a poetics in practice which progress from traditional ideas of poetry to a new poetry that emerges through Spenser s transformation of traditional complaint *The Evil Inclination in Early Judaism and Christianity* Ishay Rosen-Zvi, 2021-01-21 One of the central concepts in rabbinic Judaism is the notion of the Evil Inclination which appears to be related to similar concepts in ancient Christianity and the wider late antique world The precise origins and understanding of the idea however are unknown This volume traces the development of this concept historically in Judaism and assesses its impact on emerging Christian thought

Futures of Enlightenment Poetry Dustin D. Stewart, 2020-10-30 This book offers a revisionist account of poetry and embodiment from Milton to Romanticism Scholars have made much of the period's theories of matter with some studies equating the eighteenth century's modernity with its materialism Yet the Enlightenment in Britain also brought bold new arguments for the immateriality of spirit and evocative claims about an imminent spirit realm Protestant religious writing was of two minds about futurity swinging back and forth between patience for the resurrected body and desire for the released soul This ancient pattern carried over the book argues into understandings of poetry as a modern devotional practice A range of authors agreed that poems can provide a foretaste of the afterlife but they disagreed about what kind of future state the imagination should seek The mortalist impulse exemplified by John Milton and by Romantic poets Anna Letitia Barbauld and William Wordsworth is to overcome the temptation of disembodiment and to restore spirit to its rightful home in matter The spiritualist impulse driving eighteenth century verse by Mark Akenside Elizabeth Singer Rowe and Edward Young is to break out of bodily repetition and enjoy the detached soul's freedom in advance Although the study isolates these two tendencies each needed the other as a source in the Enlightenment and their productive opposition didn't end with Romanticism The final chapter identifies an alternative Romantic vision that keeps open the possibility of a disembodied poetics and the introduction considers present day Anglophone writers who put it into practice

The Poetry of Robert Browning Stopford Augustus Brooke, 1902

The Atom in Seventeenth-century Poetry Cassandra Gorman, 2021. An investigation into the remarkable poetics of the atom in English literary texts from the mid to late seventeenth century. The early modern atom, understood as an indivisible particle of matter, captured the poetic imagination in ways that extended far beyond the reception of Lucretius and Epicurean atomism. Contrarily to fears of atomisation and materialist threat, many poets and philosophers of the period sought positive spiritual motivation in the concept of material indivisibility. This book traces the metaphysical import of these poetic atoms, teasing out an affinity between poetic and atomic forms in seventeenth-century texts. In the writings of Henry More, Thomas Traherne, Margaret Cavendish, Hester Pultrey, and Lucy Hutchinson, both atoms and poems were instrumental in acts of creating, ordering, and reconstructing knowledge. Their poems emerge as exquisitely self-conscious atomic forms, producing intimate reflections on the creative power and indivisibility of self, soul, and God. The book begins with a survey of the imaginative possibilities surrounding the early modern atom, before considering the indivisible centres of the Cambridge Platonist Henry More's cosmic Spenserian poetics. The focus then turns to the lyrical bond formed between atom and soul in the writings of Thomas Traherne, and from there to the experimental sequences of Margaret Cavendish and Hester Pultrey, whose poetic spaces create new worlds and imagine alternative lives. The book concludes with a study of Lucy Hutchinson's creation poem *Order and Disorder*, which

anticipates the regeneration of fallen being in atomic and alchemical terms *Bodies of Poems* Lennart Nyberg, 2009 The traditional borders between the arts have been eroded to reveal new connections and create new links between art forms Cultural Interactions is intended to provide a forum for this activity It will publish monographs edited collections and volumes of primary material on points of crossover such as those between literature and the visual arts or photography and fiction music and theatre sculpture and historiography **The Claims of French Poetry** John Cann Bailey, 1907 *The Love Poetry of Francisco de Quevedo* Julian Olivares, 1983-05-26 This study of the poetry of Francisco de Quevedo combines a stylistic analysis with a philosophical interpretation in the broad sense *Virtues of Authenticity* Alexander Nehamas, 1999 The eminent philosopher and classical scholar Alexander Nehamas presents here a collection of his most important essays on Plato and Socrates The papers are unified in theme by the idea that Plato's central philosophical concern in metaphysics ethics and aesthetics was to distinguish the authentic from the fake the original from its imitations In approach the collection displays Nehamas's characteristic combination of analytical rigor and sensitivity to the literary form and dramatic effect of Plato's work Together the papers represent Nehamas's distinct and original contributions to scholarship on Plato and Socrates and serve as a comprehensive introduction to the thought of these two philosophers In the book's opening section Nehamas discusses Plato's representation of Socrates as a model of authentic human goodness showing that Plato's Socrates is a more skeptical troubling and individualistic thinker than is usually supposed The papers in the second section form a sustained defense of a new and important understanding of Plato's theory of the forms and the evolution of that theory in Plato's later writings The third section examines Plato's contention that popular entertainment by which he meant Greek epic and tragic poetry misleads its audience into a debased life an argument Nehamas relates to modern anxieties about television and other forms of popular culture The collection also includes a discussion of Plato's use of the dialogue form in his representation of Socrates and carefully examines the combination of literary and philosophical elements in his work Nehamas argues in the book that Plato's specific judgments of what is authentic are often flawed but that his idea of authenticity as the mark of truth beauty and goodness is stronger than many modern scholars have assumed In drawing together Nehamas's many influential ideas about Plato and Socrates *Virtues of Authenticity* is a major contribution to the study of ancient Greek philosophy
