Souls Code In Search Of Character Call:

The Soul's Code James Hillman, 2017-08-01 An acute and powerful vision offers a renaissance of humane values Thomas Moore author of *Care of the Soul* and *The Re Enchantment of Everyday Life* Plato called it daimon the Romans genius the Christians guardian angel today we use such terms as heart spirit and soul While philosophers and psychologists from Plato to Jung have studied and debated the fundamental essence of our individuality our modern culture refuses to accept that a unique soul guides each of us from birth shaping the course of our lives In this extraordinary bestseller James Hillman presents a brilliant vision of our selves and an exciting approach to the mystery at the center of every life that asks What is it in my heart that I must do be and have And why Drawing on the biographies of figures such as Ella Fitzgerald and Mohandas K Gandhi Hillman argues that character is fate that there is more to each individual than can be explained by genetics and environment The result is a reasoned and powerful road map to understanding our true nature and discovering an eye opening array of choices from the way we raise our children to our career paths to our social and personal commitments to achieving excellence in our time Praise for *The Soul's Code* Champions a glorious sort of rugged individualism that with the help of an inner daimon or guardian angel can triumph against all odds The Washington Post Book World A brilliant absorbing work Hillman dares us to believe that we are each meant to be here that we are needed by the world around us Publishers Weekly

New Visions and New Voices Clifford

Mayes, Susan Persing, Cynthia Schumacher, 2021-12-09 In this book Clifford Mayes and his associates take archetypal pedagogy a Jungian approach to teaching and learning and extend it beyond just the educational processes that take place in classrooms which are those spaces that a culture dedicates to the generation and acquisition of codified scholastic knowledge It looks at the archetypal dynamics of teaching and learning as fundamental to human existence itself From the cradle to the grave we are involved in informing and shaping the worldviews of others just as they are involved in impacting ours Deep relationship an I Thou relationship not only allows but requires this to be the case so that the discussants can become what Martin Buber called dialogical partners engaged in both mutual critique and mutual affirmation as they reach new planes of knowledge and even presence Such teaching and learning are what Mayes calls educative acts This book explores educative acts in a wide range of venues and concerning a variety of issues **The Four Powers Of Leadership** David T.
