Franklin, Bernhard Klingenberg, 2020 One of our goals in writing this book was to help make the conceptual approach more interesting and more readily accessible to students At the end of the course we want students to look back at their statistics course and realize that they learned practical concepts that will serve them well for the rest of their lives We also want students to come to appreciate that in practice assumptions are not perfectly satisfied models are not exactly correct distributions are not exactly normally distributed and different factors should be considered in conducting a statistical

analysis The title of our book reflects the experience of data analysts who soon realize that statistics is an art as well as a science
