**The Primacy of Vision in Virgil's Aeneid** Riggs Alden Smith, 2013-09-13 One of the masterpieces of Latin and indeed world literature Virgil's Aeneid was written during the Augustan renaissance of architecture art and literature that redefined the Roman world in the early years of the empire This period was marked by a transition from the use of rhetoric as a means of public persuasion to the use of images to display imperial power Taking a fresh approach to Virgil's epic poem Riggs Alden Smith argues that the Aeneid fundamentally participates in the Augustan shift from rhetoric to imagery because it gives primacy to vision over speech as the principal means of gathering and conveying information as it recounts the heroic adventures of Aeneas the legendary founder of Rome Working from the theories of French phenomenologist Maurice Merleau Ponty Smith characterizes Aeneas as a voyant visible a person who both sees and is seen and who approaches the world through the faculty of vision Engaging in close readings of key episodes throughout the poem Smith shows how Aeneas repeatedly acts on what he sees rather than what he hears Smith views Aeneas' final act of slaying Turnus a character associated with the power of oratory as the victory of vision over rhetoric a triumph that reflects the ascendancy of visual symbols within Augustan society Smith's new interpretation of the predominance of vision in the Aeneid makes it plain that Virgil's epic contributes to a new visual culture and a new mythology of Imperial Rome

**Eros, Imitation, and the Epic Tradition** Barbara Pavlock, 2019-05-15 Barbara Pavlock here illuminates the significance of the erotic in the epic tradition from Alexandrian Greece to the late Renaissance by examining the transformations of two Homeric episodes Odysseus encounter with Nausikaa and the night raid of Odysseus and Diomedes In close readings of epics by Apollonius of Rhodes Virgil Ovid Catullus Ariosto and Milton Pavlock shows how these poets maintain the appearance of thematic continuity as they actually differentiate their own views on heroic values from those of their predecessors Asserting that the erotic serves in the epic as a locus of criticism of social values she traces adaptations in rhetorical devices in larger structural patterns and in major generic forms as in the combination of tragic with epic models

**Entheogens and the Development of Culture** John A. Rush, 2013-07-30 Entheogens and the Development of Culture makes the radical proposition that mind altering substances have played a major part not only in cultural development but also in human brain development Researchers suggest that we have purposely enhanced receptor sites in the brain especially those for dopamine and serotonin through the use of plants and fungi over a long period of time The trade off for lowered functioning and potential drug abuse has been more creative thinking or a leap in consciousness Experiments in entheogen use led to the development of primitive medicine in which certain mind altering plants and fungi were imbibed to still fatigue pain or depression while others were taken to promote hunger and libido Our ancestors selected for our neural hardware and our propensity for seeking altered forms of consciousness as a survival strategy may be intimately bound to our decision making processes going back to the dawn of time Fourteen essays by a wide range of contributors including founding president of the American Anthropological Association's Anthropology of Religion section Michael Winkelman PhD Carl A P Ruck PhD Boston University professor of classics and an authority on the ecstatic rituals of the god Dionysus and world renowned botanist Dr Gaston Guzman member of the Colombian National Academy of Sciences and expert on hallucinogenic mushrooms demonstrate that altering consciousness continues to be an important part of human experience today Anthropologists cultural historians and anyone interested in the effects of mind altering substances

on the human mind and soul will find this book deeply informative and inspiring      **Death and the Optimistic Prophecy in Vergil's AENEID** James J. O'Hara, 2014-07-14 Here James O'Hara shows how the deceptive nature of prophecy in the Aeneid complicates assessment of the poem's attitude toward its hero's achievement and toward the future of Rome under Augustus Caesar. This close study of the language and rhetorical context of the prophecies reveals that they regularly suppress discouraging material: the gods send promising messages to Aeneas and others to spur them on in their struggles, but these struggles often lead to untimely deaths or other disasters only darkly hinted at by the prophecies. O'Hara finds in these prophecies a persistent subtext that both stresses the human cost of Aeneas' mission and casts doubt on Jupiter's promise to Venus of an endless empire for the Romans. O'Hara considers the major prophecies that look confidently toward Augustus' Rome from the standpoint of Vergil's readers, who like the characters within the poem must struggle with the possibility that the optimism of the prophecies of Rome is undercut by darker material partially suppressed. The study shows that Vergil links the deception of his characters to the deceptiveness of Roman oratory, politics, and religion, and to the artifice of poetry itself. In response to recent debates about whether the Aeneid is optimistic or pessimistic, O'Hara argues that Vergil expresses both the Romans' hope for the peace of a Golden Age under Augustus and their fear that this hope might be illusory.
