people are familiar with astrology only through Sun sign columns in newspapers but they have little understanding of what it really means to be born under a particular zodiac sign The astrological student may know that the Sun is the most important factor in the birth horoscope but frequently used terms such as self expression give little insight into this most profound and complex of astrological symbols The seminars in this volume explore the many dimensions of the astrological Sun from the

Sun as a father symbol to its importance as a significator of personal identity vocation and spiritual values Also examined are progressions of the Sun to natal planets and major planetary aspects to the natal Sun With so little written work available on the Sun in the horoscope this innovative volume offers psychological and astrological perspectives which will be invaluable for both the student and the professional astrologer *Why Am I Like This?* Judy Balan,2023-02-28 Embark on a fascinating journey of self discovery with Judy Balan s *Why Am I Like This* Equal parts astrology Jungian psychology mythology and memoir if you ve ever wished you came with an instruction manual this thoughtful in depth beginner s guide to psychological astrology is just the book for you *Journal for Star Wisdom 2013* David Bowden,David Tresemer,William Bento,Wain Farrants,Brian Gray,Kevin Dann,Lacquanna Paul,Sally Nurney,2012-11 We must think with clarity Clarity is honesty born into thinking Massimo Scaligero Here is a classic of contemporary spirituality Scaligero was a student of Zen yoga and the spiritual science of Rudolf Steiner but he came to completely independent conclusions based on his direct spiritual experience Scaligero s masterpiece is a continuous unfolding meditation and an immediate expression of his travels in higher realms It shows how the primal principle the source of all being knowing and love descends instant by instant into the phenomenal world He writes from the very stream of being into which his work invites us and poses a challenge will we learn to experience the processes of consciousness or will we rest in their products As with the texts of all true spiritual masters Scaligero s words must be savored and contemplated in order to extract the nectar of wisdom contained in them **Planet Neptune and the Modern Us Presidents: Franklin Roosevelt to Barack Obama** Suzanne Angioli,2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with ones basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After all it seemed to be almost a prerequisite for being elected to the modern Oval Office *Astrology and Aptitude* Kim Falconer,2005-07 Joseph Campbell advised everyone to live authentically by following our bliss but how many of us do Somewhere along the way we

lose sight of our aims We forget the myths that guide us and end up lost in the dark This book is a light in that darkness a guide to our own natural talents aptitudes and potential With Astrology and Aptitude you will Explore abilities related to the planets signs and houses Discover over 30 minor asteroids linked to career and creativity Follow practical delineations and chart examples Learn about talents hidden in the fixed stars Vertex and Aries Point Become the person you are most capable of being Focusing on the symbolic meaning of the signs houses planetary aspects and transits this book describes ways to identify and boost the natural modes of expression bringing them out into the open Included are delineations of asteroid gods and goddesses fixed stars Arabic parts the Vertex Aries Point midpoints and Lunar Nodes Also included is a reference guide to vocational rulerships and a comprehensive index Astrology and Aptitude is a must read for everyone serious about becoming everything they can possibly be and supporting others to do the same **The Dark of the Soul:**

Psychopathology in the Horoscope Liz Greene,2023-07-12 Disturbed psychological states have baffled both religion and medicine for as long as human beings have existed Despite the explorations of modern psychology we are no closer to understanding these expressions of human suffering than we were a thousand years ago Although it can offer no solutions astrology can provide many insights into why some individuals respond to conflict and unhappiness by retreating from life and why do others respond with savagery toward their fellows This is a reprint of the CPA Press original The three seminars in this book use astrological perspectives to explore a spectrum of extreme psychological states from the condition known as psychopathy to the collective mechanism of scapegoating as much a pathology as any diagnosed mental illness Astrologers often avoid confronting the issues of madness and human destructiveness and political correctness has made it even more difficult to face such issues honestly and without sentiment or hypocrisy But only by exploring the roots of what we call madness can we find any positive and creative approach to the mystery of why some individuals fail to cope constructively with life s challenges This book will sometimes shock and disturb but it is an invaluable resource for any practicing astrologer concerned with the dilemma of human suffering and any lay person wishing to understand how astrology can contribute to our comprehension of human behaviour **Mapping the Psyche Volume 1** Clare Martin,2016-03-24 In this

first of three volumes the basic building blocks of astrological language are presented not in the dry cookbook manner which mars so many astrology texts but in the lively and relaxed format of the classroom Questions from students punctuate the teaching making the material accessible fluent and immediately applicable to everyday life Charles & Diana: The Inside Story: An Astrological-Karmic View Steffan G. Vanel,2005-09

Finding Our Center Heather M. Ensworth Ph. D.,2009-11 Integrating astrology mythology and spirituality this book is a reflection on the themes of the astrological ages across the past 13 000 years and is an exploration of what astrology has to tell us about the meaning of the changes happening globally and culturally in this time We are currently on the cusp of the Age of Aquarius at the end of a 26 000 year precessional cycle and according to ancient prophecies at the close of a world era With the recent discovery of the planetoids Sedna and Eris

new forms of consciousness are entering our awareness Through listening to the messages of the stars and planets we find guidance for our lives in this intense time of change We live in a sentient universe which is calling us back into relationship with the cosmos and with the Earth In remembering our source the galactic center reconnecting with the spirit in all of life and in becoming centered within ourselves we gain meaning and wisdom for who we are and who we are becoming and find a path for the healing and evolution of ourselves and our Earth

The Cycle of the Zodiac Signs Annemiek

Bosch,2022-12-10 This survey of how astrology works was not written specifically for astrologers Its purpose is to formulate a materialist theory of what is empirically demonstrated in astrology our relationship with the cosmos Starting with the most feeble part of the astrological framework Annemiek Bosch presents an explanation for the manifestation of the zodiac signs through the year This cycle appears to be correlated with Earth s angular movement towards and away from the supermassive black hole in the center of our Milky Way galaxy Drawing on the latest scientific insights of quantum physics and consciousness research she then discusses the mechanism underpinning the astrological practice and makes it plausible that our unconscious minds are able to obtain information from quantum entanglement Our coherence seems to cause us to collectively create our reality through a process of controlled prediction and automatic adaptation to the cosmic environment The phenomenon of consciousness instead of arising from individual isolated brains could be the result of this connectedness

War Impulse Pattern Wayne A. Moody,2019-11-04 Astrology provides intelligence to forecast and plan our actions in all manner of day to day concerns and I believe that major collective concerns like seasons in the economy and war benefit from the same treatment I am an astrologer who has practiced Mundane astrology the astrology of countries and their leaders for three decades This book has deep roots Purposeful action towards a book began with an interview published February March 2014 in the Dartmouth Alumni Magazine During that interview I pointed to specific Earth geography 35 North latitude 50 East longitude where the U S would face major concerns up through 2022 when events peak for U S foreign interests A look at a map of these map coordinates and knowledge of the recent history of American focus on the region since my Dartmouth interview speaks volumes My project introduces an astrologically derived pattern which I discovered and named a War Impulse Pattern WIP in 2014 This International WIP pattern has eighteen astrologically determined branches some major others minor I unpack the logic of my WIP branches and lay them out in map form Within designated zones of the branches of the WIP I make the case that all the major U S military conflicts from 1776 to 2018 have been fought on geography marked by the WIP Furthermore in addition to accurately forecasting where events will occur the three planets making up the WIP serve as timekeepers for when U S military forces will deploy I have applied my innovations with Astro Carto Graphy a lens of relocation astrology to banks hurricanes man made disasters national security and war My research journey over the past 4 years has lead me from one surprise to another For example I have discovered that the entire U S Global Positioning Satellite GPS structure a critical component of modern U S warfare was set up within the WIP branches some mere specks of land in

the middle of vast oceans This first of three books prepares the WIP Book Two now in the final stages gives chronological compelling examples of U S wars from 1776 to 2018 noting that the battlefields aligned to the WIP and were susceptible to astrological timing My vision for Book Three is an over sized book of annotated and creatively presented maps supporting creative thinking and exercising the reader s spatial intelligence I offer this War Impulse Pattern WIP Primer to Not on the Map book for those seeking a more sophisticated understanding of America at war I offer practical but strategic intelligence not on the map of orthodox views of reality How and why the WIP works is demonstrated Most of the facts of the WIP are grounded in mainstream understanding While I have taken years to prepare these books the need for the WIP intelligence is urgent A look at what s been happening all along 35 North a belt wrapped around the Earth sweeping today s conflict zones in Syria Iraq Iran particularly Tehran near 50 East Kurdistan Afghanistan Pakistan China Korea and Japan reveal that my WIP lens has been brought to a sharp focus to mastery
